KEEP OUT OF REACH OF CHILDREN

CAUTION

| FIRST AID | |
|---|---|
| IF INHALED: | <ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. |
| IF ON SKIN OR CLOTHING: | <ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. |
| IF IN EYES: | <ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center for treatment advice. |
| Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712. | |

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if inhaled or absorbed through the skin. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes or clothing. Wash hands after use. Avoid contamination of food and feedstuffs.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Provides residual (long term) and contact (quick) kill of:

- | | |
|------------------------|----------------|
| Ants | Carpet Beetles |
| Cockroaches | Firebrats |
| American Cockroach | Fleas |
| Asian Cockroach | Pillbugs |
| Brown Banded Cockroach | Silverfish |
| German Cockroach | Spiders |
| Oriental Cockroach | Scorpions |
| Palmetto Bugs | House Spiders |
| Waterbugs | Black Widow |
| Crickets | Sowbugs |

For Use in Non-Food Areas Of:

Apartments, Atriums, Attics, Automobiles, Basements, Bathrooms, Boats, Bookcases, Cabins, Cafeterias, Campers, Cat Sleeping Areas, Chests, Closed Porches, Closets, Condominiums, Credenzas, Crematoriums, Day Care Centers, Decks, Dens, Dog Houses, Dormitories, Dressers, Drive-Ins, Drugstores, Dumpsters, Factories, Floors, Food Processing Facilities, Funeral Parlors, Furniture, Garages, Garbage Cans, Gazebos, Homes, Hospitals, Hotels, Indoor Eating Establishments, Institutions, Jails, Kennels, Kitchens, Lanais, Living Rooms, Locker Rooms, Mausoleums, Mess Halls, Mobil Canteens, Mobil Homes, Morgues, Mortuaries, Nursing Homes, Office Buildings, Outdoor Eating Establishments, Public Buildings, Patios, Pet Bedding, Pet Carriers, Pet Grooming Shops, Pet Sleeping Areas, Pet Stores, Play Houses, Play Rooms, Porches, Prisons, Quonset Huts, Railroad Cars, Recreation Vehicles, Restaurants, Schools, Ships, Solariums, Sports Stadiums, Storage Areas, Sun Porches, Sun Rooms, Supermarkets, Taverns, Theaters, Trailers, Trucks, Utility Rooms, Verandas, Veterinary Offices, and Washrooms.

EVERCIDE® Roach and Ant Spray 2639 with Nylar® contains a unique combination of ingredients to provide rapid [quick] knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the spray residue from becoming adults. By preventing the development of adult cockroaches and fleas, the life cycle is broken and reproduction will not occur. In the case of fleas, biting adult fleas will not result from treated immature fleas and the reproductive life cycle is broken. Treatment will last for 210 days [30 weeks] [7 months] for fleas and 120 days [17 weeks] [4 months] for cockroaches.

SHAKE WELL BEFORE USE

Read entire label and follow all label directions. Use this product as a spot or crack and crevice treatment to localized areas where pests are seen or suspected. Spray surfaces until visibly wet. Spray pests directly, whenever possible. Keep children and domestic animals out of treated areas until the spray is dry.

ANTS, COCKROACHES, CRICKETS, CENTIPEDES, FIREBRATS, PILLBUGS, SILVERFISH, SPIDERS, AND SOWBUGS: Spray pests when they are seen and spray areas suspected of harboring these pests. Spray ant trails and spray cracks and crevices and points of entry into the house. Pay special attention to areas behind and beneath sinks, stoves, refrigerators, garbage containers, inside cabinets, along baseboards, in cracks and crevices in walls and floors, door and window sills and frames, around drains, pipes, plumbing, bookcases, storage and utility areas, and utility installation areas. Retreatment for roaches should not be needed for 120 days. For other pests, reapply as needed.

CARPET BEETLES: Thoroughly vacuum rugs and carpets before treatment. Remove the vacuum bag and place it in a separate bag and dispose of in outside trash. This helps prevent reinfestation from eggs and larvae vacuumed up. Spray backing of carpet and rugs, focusing on low traffic areas and areas under furniture. When dry, replace on floor and spray surface of carpet and rug, focusing on low traffic areas and areas under furniture and corners of rooms. Also spray baseboards.

FLEAS AND TICKS: Thoroughly vacuum all carpeting and fabric covered furniture, along baseboards, under furniture, low traffic areas, and areas where pets normally rest. Pet bedding should be removed and laundered. Replace pet bedding after treatment dries. Put vacuum bag in a separate bag and dispose of in outside trash. Apply as a spot treatment to cracks and crevices, along baseboards, pet resting areas, and localized areas of floors and floor coverings where the pests are suspected. Do not treat pets with this product.

If flea and tick infested animals are transported in vehicles, use as a spot treatment to carpets and upholstered areas, paying attention to cracks and crevices.

To further protect your pet and your home from continuing reinfestation by fleas, you should use an EPA registered (labeled) product to treat the animal(s), such as a dip product, a dust product or spray-on product, before the animal is allowed back into the house. You should also treat the area in the yard where the pet typically spends time with an EPA registered (labeled) product for yard flea control. The pet, home, and yard should be treated at the same time.

| STORAGE AND DISPOSAL | |
|----------------------|---|
| STORAGE: | Store in a cool, dry place. Keep container closed. |
| | Do Not Puncture or Incinerate! |
| DISPOSAL: | |
| If Empty: | Do not reuse this container. Place in trash or offer for recycling if available. |
| If Partly Filled: | Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain. |
