Mausoleums, Mess Halls, Mobil Canteens, Mobil Homes, Morgues, Mortuaries, Nursing Homes, Office Buildings, Outdoor Eating Establishments, Public Buildings, Patios, Pet Bedding, Pet Carriers, Pet Grooming Shops, Pet Sleeping Areas, Pet Stores, Play Houses, Play Rooms, Porches, Prisons, Quonset Huts, Railroad Cars, Recreation Vehicles, Restaurants, Schools, Ships, Solariums, Sports Stadiums, Storage Areas, Sun Porches, Sun Rooms, Supermarkets, Taverns, Theaters, Trailers, Trucks, Utility Rooms, Verandas, Veterinary Offices, and Washrooms.

EVERCIDE® Roach and Ant Spray 2639 with Nylar® contains a unique combination of ingredients to provide rapid [quick] knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the spray residue from becoming adults. By preventing the development of adult cockroaches and fleas, the life cycle is broken and reproduction will not occur. In the case of fleas, biting adult fleas will not result from treated immature fleas and the reproductive life cycle is broken. Treatment will last for 210 days [30 weeks] [7 months] for fleas and 120 days [17 weeks] [4 months] for cockroaches.

SHAKE WELL BEFORE USE

Read entire label and follow all label directions. Use this product as a spot or crack and crevice treatment to localized areas where pests are seen or suspected. Spray surfaces until visibly wet. Spray pests directly, whenever possible. Keep children and domestic animals out of treated areas until the spray is dry.

ANTS, COCKROACHES, CRICKETS, CENTIPEDES, FIREBRATS, PILLBUGS, SILVERFISH, SPIDERS, AND SOWBUGS: Spray pests when they are seen and spray areas suspected of harboring these pests. Spray ant trails and spray cracks and crevices and points of entry into the house. Pay special attention to areas behind and beneath sinks, stoves, refrigerators, garbage containers, inside cabinets, along baseboards, in cracks and crevices in walls and floors, door and window sills and frames, around drains, pipes, plumbing, bookcases, storage and utility areas, and utility installation areas. Retreatment for roaches should not be needed for 120 days. For other pests, reapply as needed.

CARPET BEETLES: Thoroughly vacuum rugs and carpets before treatment. Remove the vacuum bag and place it in a separate bag and dispose of in outside trash. This helps prevent reinfestation from eggs and larvae vacuumed up. Spray backing of carpet and rugs, focusing on low traffic areas and areas under furniture. When dry, replace on floor and spray surface of carpet and rug, focusing on low traffic areas and areas under furniture and corners of rooms. Also spray baseboards.

FLEAS AND TICKS: Thoroughly vacuum all carpeting and fabric covered furniture, along baseboards, under furniture, low traffic areas, and areas where pets normally rest. Pet bedding should be removed and laundered. Replace pet bedding after treatment dries. Put vacuum bag in a separate bag and dispose of in outside trash. Apply as a spot treatment to cracks and crevices, along baseboards, pet resting areas, and localized areas of floors and floor coverings where the pests are suspected. Do not treat pets with this product.

If flea and tick infested animals are transported in vehicles, use as a spot treatment to carpets and upholstered areas, paying attention to cracks and crevices.

To further protect your pet and your home from continuing reinfestation by fleas, you should use an EPA registered (labeled) product to treat the animal(s), such as a dip product, a dust product or spray-on product, before the animal is allowed back into the house. You should also treat the area in the yard where the pet typically spends time with an EPA registered (labeled) product for yard flea control. The pet, home, and yard should be treated at the same time.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL:

Do Not Puncture or Incinerate!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

Subject: Notification of label change per PR Notice 2001-6
EVERCIDE[®] Roach and Ant Spray with NYLAR 2639
EPA Reg. No. 1021-1698

Dear Sir/Madam:

Please find enclosed a Notification to correct and revise Disposal Statements in response to PR Notice 2001-6. Enclosed are five (5) copies of our label revised to comply with this PR Notice.

This notification is consistent with the guidance in PR Notice 2001-6 and the requirements of EPA's regulations at 40 CFR 156.10 and 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the guidance of PR Notice 2001-6 and the requirements of 40 CFR 156.10 and 40 CFR 152.46, this product may be in violation of FIFRA, and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Please contact this office at 763-544-0341 should you have any questions regarding this submission.

Sincerely,

Anne Marie C. Zielinski
Registration Specialist
