Subject: Registration Review Label Mitigation for Pyriproxyfen and Permethrin
Product Name: Evercide Roach & Ant Spray 2639
EPA Registration Number: 1021-1698
Application Dates: 1/15/2020; 1/7/2021
Decision Numbers: 558864; 572194

Dear Mr. Lennan:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Pyriproxyfen and Permethrin Interim Decisions, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

EVERCIDE[®] Roach & Ant Spray 2639

Contains NYLAR[®] Insect Growth Regulator

PYRIPROXYFEN	GROUP	7C	INSECTICIDE
PYRETHRINS PERMETHRIN	GROUP	3A	INSECTICIDE

[RESIDENTIAL USE LABEL]

() [] indicates alternate or optional text

- [Water Based Product (Formula)]
- [Kills (Controls) Ants, Cockroaches [Roaches], Fleas, Spiders, and other Listed Pests]
- [Contains NYLAR[®] Insect Growth Regulator for Months of Roach and Flea Control]
- [Convenient "Do It Yourself" Pest Control]
- [For Use In Homes, Apartments, and Other Listed Areas]
- [Provides Both Fast Knockdown and Lasting Residual Control]
- [A Unique Combination of Insecticides]
- [Gives 210 Days (30 Weeks) (7 Months) Control of Fleas]
- [Gives 120 Days (17 Weeks) (4 Months) of Cockroach Control]
- [Breaks the Life Cycle of Roaches and Fleas]
- [Prevents Development of Biting and Reproducing Fleas]
- [Prevents Development of Reproducing Roaches]

ACTIVE INGREDIENTS:

Pyrethrins	0.050%
Permethrin [(3-Phenoxyphenyl) (1RS)-cis-trans-3-(2,2-dichloroethenyl) 2,2-dimethyl-cyclopropanecarboxylate]	0.200%
** N-Octyl bicycloheptene dicarboximide	0.239%
2-[1-Methyl-2-(4-phenoxyphenoxy) ethoxy] pyridine	0.020%
OTHER INGREDIENTS	99.491%
	100.000%

* Cis-trans isomers ratio: Min. 35% (+ or -) cis, Max. 65% (+ or -) trans

** MGK[®] 264[®], Insecticide Synergist

MGK[®], EVERCIDE[®], NYLAR[®], 264[®] - Registered trademarks of McLaughlin Gormley King Company

See inside booklet for [First Aid,] [Precautionary Statements,] Directions for Use and Storage and Disposal.

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eyes.
- Call a poison control center for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

Manufactured for

 7325 Aspen Lane North
 Minneapolis, MN 55428

EPA Reg. No. 1021-1698

EPA Est. No. 1021-MN-2

Net Weight _____

PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For indoor use only

PESTICIDE RESISTANCE MANAGEMENT

EVERCIDE® Roach & Ant Spray 2639 [or brand name] contains Group 7C and 3A insecticides. Any insect population may contain individuals naturally resistant to EVERCIDE Roach & Ant Spray 2639 and other Group 7C and 3A insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly at the same use sites.. Appropriate resistance management strategies should be followed.

To delay insecticide resistance consider:

- Avoiding the consecutive use of EVERCIDE Roach & Ant Spray 2639 [or brand name] or other Group 7C and 3A insecticides that have a similar target site of action, on the same insect species.
- Basing insecticide use on a comprehensive IPM program.
- Monitoring treated insect population for loss of field efficacy.
- Contacting your local extension specialist and/or manufacturer for insecticide resistance management and or IPM recommendations for the specific site and resistance pest problem

Provides residual (long term) and contact (quick) kill of:

Ants, Black Widows, Carpet Beetles, Centipedes, Cockroaches (American Cockroach, Asian Cockroach, Brown-banded Cockroach, German Cockroach, Oriental Cockroach, Palmetto Bugs, Waterbugs), Crickets, Firebrats, Fleas, House Spiders, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders, Ticks.

For Use in Non-Food Areas Of:

Apartments, Atriums, Attics, Automobiles, Basements, Bathrooms, Boats, Bookcases, Cabins, Campers, Cat Sleeping Areas, Chests, Closed Porches, Closets, Condominiums, Credenzas, Decks, Dens, Dog Houses, Dormitories, Dressers, Dumpsters, Floors, Furniture, Garages, Garbage Cans, Gazebos, Homes, Kennels, Kitchens, Lanais, Living Rooms, Mobil Homes, , Pet Bedding, Pet Carriers, Pet Sleeping Areas, Pet Stores, Play Houses, Play Rooms, Porches, Quonset Huts, Recreation Vehicles, Solariums, Storage Areas, Sun Porches, Sun Rooms, Trailers, Trucks, Utility Rooms, Verandas, and Washrooms.

EVERCIDE Roach and Ant Spray 2639 with Nylar® contains a unique combination of ingredients to provide rapid [quick] knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the spray residue from becoming adults. By preventing the development of adult cockroaches and fleas, the life cycle is broken and reproduction will not occur. In the case of fleas, biting adult fleas will not result from treated immature fleas and the reproductive life cycle is broken. Treatment will last for 210 days [30 weeks] [7 months] for fleas and 120 days [17 weeks] [4 months] for cockroaches.

SHAKE WELL BEFORE USE

USE RESTRICTIONS:

- Do not enter or allow others to enter until sprays have dried.
- Do not apply when food is present.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.
- Do not wet articles to the point of runoff or drip.
- Do not use treated article until spray has dried.
- Not for broadcast use on indoor residential surfaces.
- Avoid contamination of food and feedstuffs.
- Read entire label and follow all label directions.
- Use this product as a spot or crack and crevice treatment to localized areas where pests are seen or suspected.
- Do not allow adults, children, or pets to enter the treated area until sprays have dried.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- Remove pets, birds, and cover fish aquariums before spraying.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces or wash them before use.
- Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos.

- {Note to reviewer: Pictogram must be no smaller than 1.5 cm² or 0.25 sq. in. unless size is greater than 10% of label size}

Read entire label and follow all label directions.

ANTS, COCKROACHES, CRICKETS, CENTIPEDES, FIREBRATS, PILLBUGS, SILVERFISH, SPIDERS, AND SOWBUGS: Spray pests when they are seen and spray areas suspected of harboring these pests. Spray for 14 seconds to cover 100 square feet of area. Spray ant trails and spray cracks and crevices and points of entry in the house. Pay special attention to areas behind and beneath sinks, stoves, refrigerators, garbage containers, inside cabinets, along baseboards, in cracks and crevices in walls and floors, door and window sills and frames, around drains, pipes, plumbing, bookcases, storage and utility areas, and utility installation areas. . Retreatment for roaches should not be needed for 120 days. Do not apply more than 1 time per day.

CARPET BEETLES: Thoroughly vacuum rugs and carpets before treatment. Remove the vacuum bag and place it in a separate bag and dispose of in outside trash. This helps prevent reinfestation from eggs and larvae vacuumed up. Spray for 14 seconds to cover 100 square feet of area. Spray backing of carpet and rugs, focusing on low traffic areas and areas under furniture. When dry, replace on floor and spray surface of carpet and rug, focusing on low traffic areas and areas under furniture and corners of rooms. Also spray baseboards. Do not apply more than 1 time per day.

FLEAS AND TICKS: Thoroughly vacuum all carpeting and fabric covered furniture, along baseboards, under furniture, low traffic areas, and areas where pets normally rest. Pet bedding should be removed and laundered. Replace pet bedding after treatment dries. Put vacuum bag in a separate bag and dispose of in outside trash. Apply as a spot treatment to cracks and crevices, along baseboards, pet resting areas, and localized areas of floors and floor coverings where the pests are suspected. Spray for 14 seconds to cover 100 square feet of area. Do not treat pets with this product. Do not apply more than 1 time per day.

If flea and tick infested animals are transported in vehicles, use as a spot treatment to carpets and upholstered areas, paying attention to cracks and crevices.

To further protect your pet and your home from continuing reinfestation by fleas, you should use an EPA registered (labeled) product to treat the animal(s), such as a dip product, a dust product or spray-on product, before the animal is allowed back into the house. You should also treat the area in the yard where the pet typically spends time with an EPA registered (labeled) product for yard flea control. The pet, home, and yard should be treated at the same time.

STORAGE AND DISPOSAL

Follow proper disposal procedures on this label. Siga las indicaciones del etiquetado para el desecho apropiado del producto.

Do not contaminate, water, food, or feed by storage and disposal.

PESTICIDE STORAGE

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING

Do Not Puncture or Incinerate!

Nonrefillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators must wear:

- Long-sleeved shirt and long pants,
- Shoes plus socks, and
- Chemical-resistant gloves made of waterproof material.

USER SAFETY REQUIREMENTS

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Provides residual (long term) and contact (quick) kill of:

Ants, Black Widows, Carpet Beetles, Centipedes, Cockroaches (American Cockroach, Asian Cockroach, Brown-banded Cockroach, German Cockroach, Oriental Cockroach, Palmetto Bugs, Waterbugs), Crickets, Firebrats, Fleas, House Spiders, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders, Ticks.

For Use in Non-Food Areas Of:

Apartments, Atriums, Attics, Automobiles, Basements, Bathrooms, Boats, Bookcases, Cabins, Cafeterias, Campers, Cat Sleeping Areas, Chests, Closed Porches, Closets, Condominiums, Credenzas, Crematoriums, Day Care Centers, Decks, Dens, Dog Houses, Dormitories, Dressers, Drive-Ins, Drugstores, Eating Establishments, Dumpsters, Factories, Floors, Food Processing Facilities, Funeral Parlors, Furniture, Garages, Garbage Cans, Gazebos, Homes, Hospitals, Hotels, Indoor Eating Establishments, Institutions, Jails, Kennels, Kitchens, Lanais, Living Rooms, Locker Rooms, Mausoleums, Mess Halls, Mobil Canteens, Mobil Homes, Morgues, Mortuaries, Nursing Homes, Office Buildings, , Public Buildings, , Pet Bedding, Pet Carriers, Pet Grooming Shops, Pet Sleeping Areas, Pet Stores, Play Houses, Play Rooms, Porches, Prisons, Quonset Huts, Railroad Cars, Recreation Vehicles, Restaurants, Schools, Ships, Solariums, Sports Stadiums, Storage Areas, Sun Porches, Sun Rooms, Supermarkets, Taverns, Theaters, Trailers, Trucks, Utility Rooms, Verandas, Veterinary Offices, and Washrooms.

EVERCIDE Roach and Ant Spray 2639 with Nylar contains a unique combination of ingredients to provide rapid [quick] knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the spray residue from becoming adults. By preventing the development of adult cockroaches and fleas, the life cycle is broken and reproduction will not occur. In the case of fleas, biting adult fleas will not result from treated immature fleas and the reproductive life cycle is broken. Treatment will last for 210 days [30 weeks] [7 months] for fleas and 120 days [17 weeks] [4 months] for cockroaches.

SHAKE WELL BEFORE USE

USE RESTRICTIONS:

- Do not enter or allow others to enter until sprays have dried.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.
- Do not apply when food is present.
- Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.

- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.
- Do not wet articles to the point of runoff or drip.
- Do not use treated article until spray has dried.
- Not for broadcast use on indoor residential surfaces.
- Do not use in aircraft cabins.
- Avoid contamination of food and feedstuffs.
- Read entire label and follow all label directions.
- Use this product as a spot or crack and crevice treatment to localized areas where pests are seen or suspected.
- Do not allow adults, children, or pets to enter the treated area until sprays have dried.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- Remove pets, birds, and cover fish aquariums before spraying.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces or wash them before use.
- Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos.

- {Note to reviewer: Pictogram must be no smaller than 1.5 cm² or 0.25 sq. in. unless size is greater than 10% of label size}

Spray pests directly, whenever possible.

ANTS, COCKROACHES, CRICKETS, CENTIPEDES, FIREBRATS, PILLBUGS, SILVERFISH, SPIDERS, AND SOWBUGS: Spray pests when they are seen and spray areas suspected of harboring these pests. Spray for 14 seconds to cover 100 square feet of area. Spray ant trails and spray cracks and crevices and points of entry in the house. Pay special attention to areas behind and beneath sinks, stoves, refrigerators, garbage containers, inside cabinets, along baseboards, in cracks and crevices in walls and floors, door and window sills and frames, around drains, pipes, plumbing, bookcases, storage and utility areas, and utility installation areas. Retreatment for roaches should not be needed for 120 days. Do not apply more than 1 time per day.

CARPET BEETLES: Thoroughly vacuum rugs and carpets before treatment. Remove the vacuum bag and place it in a separate bag and dispose of in outside trash. This helps prevent reinfestation from eggs and larvae vacuumed up. Spray for 14 seconds to cover 100 square feet of area. Spray backing of carpet and rugs, focusing on low traffic areas and areas under furniture. When dry, replace on floor and spray surface of carpet and rug, focusing on low traffic areas and areas under furniture and corners of rooms. Also spray baseboards. Do not apply more than 1 time per day.

FLEAS AND TICKS: Thoroughly vacuum all carpeting and fabric covered furniture, along baseboards, under furniture, low traffic areas, and areas where pets normally rest. Pet bedding should be removed and laundered. Replace pet bedding after treatment dries. Put vacuum bag in a separate bag and dispose of in outside trash. Apply as a spot treatment to cracks and crevices, along baseboards, pet resting areas, and localized areas of floors and floor coverings where the pests are suspected. Spray for 14 seconds to cover 100 square feet of area. Do not treat pets with this product. Do not apply more than 1 time per day.

If flea and tick infested animals are transported in vehicles, use as a spot treatment to carpets and upholstered areas, paying attention to cracks and crevices.

To further protect your pet and your home from continuing reinfestation by fleas, you should use an EPA registered (labeled) product to treat the animal(s), such as a dip product, a dust product or spray-on product, before the animal is allowed back into the house. You should also treat the area in the yard where the pet typically spends time with an EPA registered (labeled) product for yard flea control. The pet, home, and yard should be treated at the same time.

STORAGE AND DISPOSAL

Do not contaminate, water, food, or feed by storage and disposal.

Follow proper disposal procedures on this label. Siga las indicaciones del etiquetado para el desecho apropiado del producto.

PESTICIDE STORAGE

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING

Do Not Puncture or Incinerate!

Nonrefillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency for disposal instructions.
