Notification Submitted March 25, 2002

EVERCIDE Pressurized Roach & Ant Spray 27561

EPA Reg. No. 1021-1701

Dear Mr. Lennan:

It has come to our attention that the labeling submitted with the subject notification is incomplete. It is labeled for use in residential sites; apartments, condominiums, homes and porches but also bears precautions for use in commercial sites such as food processing establishments. The labeling stamped November 8, 2001 is the last accepted label of record and should be used in all correspondence including notifications associated with this product. You must discontinue use of this labeling and replace it with the labeling accepted November 8, 2001. This should receive your immediate attention.

If you have any questions with respect to this letter you can contact me at (703) 305-6100.

Sincerely,

George T. LaRocca Product Manager (13)

KEEP OUT OF REACH OF CHILDREN

CAUTION

IF SWALLOWED	Call a poison control center or doctor immediately for treatment advice.					
	Do not give any liquid to the person.					
	Do not induce vomiting unless told to do so by the poison control center or doctor.					
	Do not give anything by mouth to an unconscious person.					
IF ON SKIN OR	Take off contaminated clothing.					
CLOTHING:	Rinse skin immediately with plenty of water for 15-20 minutes.					
	Call a poison control center or doctor for treatment advice.					
IF IN EYES:	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. 					
	 Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. 					
	Call a poison control center for treatment advice.					
Have the product conta	iner or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical					
emergencies or pesticion	de incidents, call the International Poison Center at 1-888-740-8712.					
	NOTE TO PHYSICIAN					
Contains petroleum dis	tillate – vomiting may cause aspiration pneumonia.					

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after use. Avoid contamination of food and feedstuffs. Care should be taken to avoid depositing the product onto exposed surfaces of introducing the material into the air. Avoid contamination of food or food handling surfaces.

Do not apply while food processing is underway. Cover or remove all food processing surfaces. Thoroughly wash all food processing surfaces before reuse. After spraying in bakeries, meat packing plants, food processing plants, etc., all benches, shelving, equipment, etc. where exposed food will be handled must be washed with an effective cleaning compound followed by a potable water rinse to demove all traces of contamination. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils, or wash thoroughly after treatment. Non-food areas are areas such as garbage rooms, tavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate. Exposures to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm. Do not apply in classrooms when in use. Do not apply to institutions (including libraries, sports facilities, etc.) in the immediate area when occupants are present. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are the areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held.

Use this spray as a spot or crack and crevice treatment to control insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur.

Provides Contact and Residual Kill of:

Ants
Cockroaches
 American Cockroach
 German Cockroach
 Asian Cockroach
 Smoky Brown Cockroach
 Brown-Banded Cockroach
 Oriental Cockroach
 Palmetto Bugs
 Water Bugs

Crickets
Carpet Beetles
Centipedes
Silverfish
Firebrats
Earwigs
Sowbugs
Pillbugs

Spiders
Black Widow
Scorpions
House Spiders
Fleas
Cat Flea
Dog Flea
Ticks

Brown Dog Tick Deer Ticks

For use in (including, but not limited to):

Apartments, Commercial Buildings, Condominiums, Day Care Centers, Food Plants, Garbage Cans, Homes, Hospitals, Industrial Plants, Institutions, Motels, Nursing Homes, Office Buildings, Other Public Buildings, Porches, Prisons, Railroad Cars, Restaurants, Schools, Ships, Supermarkets, Transportation Vehicles, Warehouses, and Zoos.

HOW TO USE: To kill Ants, Crickets, Centipedes, Silverfish, Firebrats, Earwigs, Sowbugs, Pillbugs and Spiders: Spray to contact as many insects as possible while thoroughly spraying all areas where the pests are suspected of hiding, such as the floor and baseboard areas of the pantry, food and pet food storage areas, cracks and crevices in walls and flooring materials, under sinks, under stoves, under refrigerators, around garbage containers, cabinets, door and window sills, thresholds, door and window frames, around floor drains, storage and utility installation areas, wall voids and where plumbing goes through the walls. Spray surfaces to wet but not to the point of runoff. For Ants, also spray ant trails and the places where these pests come into the building.

FOR COCKROACH CONTROL:

Cockroaches (adults, nymphs) - American Cockroach, German Cockroach, Asian Cockroach, Smoky Brown Cockroach, Brown-Banded Cockroach, Oriental Cockroach:

CRACK AND CREVICE SPRAY: Apply spray in small amounts directly into cracks and crevices. Special attention should be paid to areas such as behind baseboards, connection areas around drains, pipes, behind and beneath sinks, stoves, plumbing, and other visible cracks and crevices. Spray these areas being certain that spray penetrates well. Care should be taken to avoid depositing this product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food handling surfaces.

CONTACT APPLICATION: Contact as many insects as possible with this spray in addition to spot spraying all parts of the room suspected of harboring these pests. Special attention should be paid to hiding places such as beneath sinks, behind and beneath stoves and refrigerators, around garbage cans, cabinets, along the outside of baseboards, door sills, frames and floors, around and on drains, pipes, plumbing, behind bookcases, storage and other utility installation areas, contacting as many insects with spray whenever possible.

To Kill Carpet Beetles: Spray beetles when they are seen. Thoroughly vacuum and then spray surface of carpets and rugs in areas such as under sofas, chairs, tables, desks, and other low traffic areas (corners of rooms, closets, shelves) where the pests are seen. Spray the underside of rugs and carpets, when possible, allowing sprayed areas to dry before replacing on floor.

To Kill Fleas and Ticks: Prior to treatment, thoroughly vacuum the floor, upholstered furniture, baseboards, and pay special attention to areas where pets rest and areas under furniture. Remove and dispose of the vacuum bag containing ticks, fleas and flea eggs, larvae, and pupae in the garbage, preferably putting it into a plastic bag that can be securely closed. Discard in outside trash. This will prevent escapes which will reinfest the area. Apply as a spot treatment to areas such as the pet resting areas, pet bed, cracks and crevices, along baseboards, under furniture, and other areas where fleas and ticks are seen.

To prevent reinfestation of the treated area with fleas and ticks, and to protect your pets, treat the animals with an EPA registered product labeled for use on animals and also treat the outdoor areas with an EPA registered product labeled for that use.

Wood Destroying Insects:

Localized treatment for beetles* and borers* (Anobidae*, Bostrichidae*, Buprestdae*, Cerabycidae*, Lyctidae*, Cedameridae*, Sesiidae*) and Termites: Locate suspected infestation and/or insect tunnels, galleries and inaccessible closed voids. Drill holes 8 to 10 inches apart or enough to insure coverage. Inject 5 to 10 seconds per hole. Do not contact electrical wiring or plumbing. Treatment of exposed surfaces should be effect to thoroughly cover exposed insect tubing, but excess run-off should be avoided.

This type of treatment is intended to be a supplemental treatment for control of drywood and above ground subtenanean termites and other wood destroying insects. The purpose of such applications of Evercide® Pressurized Roach & Ant Spray 27561 for termites is to kill workers or winged reproductive forms which may be present in treated channels at the time of treatment. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. This product is not recommended as sole protection against termites. For active termite infestations, get a professional inspection.

^{*}not registered for control in California.

OUTDOOR APPLICATION:

Caution should be taken to avoid spraying when wind conditions could create a mist to blow back to applicator. Do not apply this product in or around bodies of water. Do not spray directly on plants. Spray the surface areas and contact as many insects as possible. Keep children and domestic animals off treated areas until dry. Do not use this product on pets.

ANTS: Pharaoh Ants, Carpenter Ants (Eastern, Western): Spray ant rails, ant hills, ant mounds and other areas of entry and infestation. Spray on ants where possible.

SPIDERS: Spray directly on spiders and webs.

SOWBUGS, Centipedes, Earwigs, Pillbugs, Crickets, Cockroaches: Spray surfaces and hiding places thoroughly such as cracks, crevices, moist areas, openings around pipes, spigots, storage areas, sheds, and other areas where these pests congregate.

STORAGE AND DISPOSAL

STORAGE: Store product in a cool, dry place, preferably a locked storage area.

<u>PESTICIDE DISPOSAL</u>: Please use all product according to label directions, however, unused product may be disposed of by wrapping in several layers of newspaper and discard in trash.

<u>CONTAINER DISPOSAL</u>: Replace cap on empty container and offer for recycling, if available in your area. If recycling is not available, wrap container in several layers of newspaper and discard in trash.

EPA Reg. No. 1021-1701

Notification

Dear Sir or Madam:

By notification, we are correcting our notification of March 25, 2002, which was inadvertently submitted with an incomplete label.

Enclosed are 2 copies of the label and also a copy of the letter from George LaRocca dated March 25, 2002.

I certify that no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, then this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY
