Subject: Label Notification(s) for Pesticide Registration Notice 2008-1

Dear Mr. Ditto:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2008-1 dated March 3, 2010 for the following product(s):

**Evercide Vegetable and Garden Insect Killer 2526 (EPA Reg. No. 1021-1582)**  
**Evercide Residual Insecticide Concentrate 2662 (EPA Reg. No. 1021-1641)**  
**Evercide Emulsifiable Concentrate 2668 (EPA Reg. No. 1021-1645)**  
**Evercide House and Garden Spray 21321 (EPA Reg. No. 1021-1715)**

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2008-1 and finds that the label change(s) requested falls within the scope of PRN 98-10. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Regina Foushee'-Smith at 703-605-0780.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard J. Gebken".

EPA Reg. No. 1021-1715  
Pyrethroid Non-Agricultural Outdoor Products Notification Per EPA Letter  
Dated June, 4 2009

Dear Sir or Madam:

By Notification we are changing the Environmental Hazards and Directions for Use sections to comply with the June 4, 2009 letter from the Environmental Protection Agency.

Enclosed are 2 copies of the label. One copy has changes highlighted.

Notification of label change per June 4, 2009, letter from Environmental Protection Agency. This notification is consistent with the guidance in the June 4, 2009 letter and the requirements of EPA's regulations at 40 CFR part 156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statements to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR part 156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ALL DIRECTIONS COMPLETELY BEFORE USE**

Do not water the treated area to the point of run-off.

Do not make applications during rain.

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Treatment to soil or vegetation and structures;
- (2) Applications to lawns, turf, and other vegetation;
- (3) Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

**SHAKE WELL BEFORE USE. HOLD CONTAINER UPRIGHT. TURN SPRAY NOZZLE TO "ON" POSITION. APPLY IN SHORT BURSTS.**

For best results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock hazard. Do not use on animals. Avoid excessively wetting furniture and carpeting. Always test in an inconspicuous [hidden] area prior to use as some natural and synthetic fibers may be adversely affected by any liquid product. For plants, spray a few leaves and wait 24 hours before spraying entire plant.

**DO NOT CONTAMINATE FOOD AREAS. Avoid contamination of food and feedstuffs.**

**INDOOR USE:**

**FLEAS AND TICKS:** Prior to use, vacuum all infested areas thoroughly and dispose of vacuum bag in outside trash. Apply uniformly to rugs, carpets, draperies and all surfaces of upholstered furniture. Treat under and around furniture if pets frequently rest in these areas. Avoid excessive wetting of upholstered furniture and draperies. A fine spray applied uniformly is all that is necessary to kill fleas. To kill ticks and other labeled insects, apply directly to the pests. Spray thoroughly into hiding places such as cracks and crevices, on walls and floors, along baseboards, window and door frames. Spray at the rate of one linear foot per second with a slow sweeping motion. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans.

**FLEAS AND TICKS IN PET BEDDING AND PET AREAS:** Remove and destroy or wash pet's old bedding. To reduce infestation, thoroughly spray the animal's bedding, sleeping quarters, around baseboards, window and door frames, wall cracks, local areas of floors, and other resting places until the surface is slightly moist. Treat these areas at a distance of 12 to 18 inches. Also spray the entire inside surface of dog houses. Put fresh bedding in pet's quarters after spray has dried. Do not allow pets to use treated areas until completely dry.

For best results, pets should be treated with EPA registered flea and tick control product, (i.e. flea or flea and tick collar, pet powder, pet spray, pet dip, pet shampoo, flea or flea and tick shampoo), in conjunction with this application prior to re-entry.

**COCKROACHES, ANTS, CRICKETS, CENTIPEDES, FIREBRATS, SPIDERS and other listed crawling insects:** Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the rooms suspected of harboring these pests. Special attention should be paid to hiding places such as beneath sinks, behind and beneath stoves and refrigerators, around garbage cans, cabinets, along the outside of baseboards, door sills, frames and floors, around and on drains, pipes, plumbing, behind bookcases, storage and other utility installation areas, hitting insects with spray whenever possible. **TO KILL ANTS,** treat around doors, window frames and other areas of entry. Spray on ants whenever possible.

**CARPET BEETLES: [Dermestids (Trogoderma):]** Directly spray as many insects as possible. Spray all surfaces of upholstered furniture. Where possible, both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, and areas under furniture, floors, walls, window sills, baseboards and wherever these insects are seen or suspected.

**BEDBUGS:** Spray mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints. Treat baseboards, moldings, floors, walls, furniture and other infested areas. Allow treated articles to thoroughly dry before use.

**EXPOSED STAGES of Granary Insects, Flour Beetles, Cadelles, Rice Weevils, Flat Grain Beetles, Cigarette Beetles, Confused Flour Beetles, Drugstore Beetles, Lesser Grain Borers, Merchant Grain Beetles, Saw-toothed Grain Beetles, Grain Weevils, Warehouse Beetles, Red Flour Beetles, Grain Mites, Weevils, Cheese Mites, and Indian Mealworms.** Find and dispose of infested packaged goods and exposed insects. Remove all other items from pantry, shelves and drawers and clean thoroughly. Spray into cracks and crevices, shelves, drawers and cabinets and other areas where these insects tend to congregate. Place clean paper on the shelves and return packages after the spray has dried.

For particularly heavy infestations of listed pests, use [MGK® Indoor Fogger] [brand name] following application of this product.

**OUTDOOR USE:**

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

Caution should be taken to avoid spraying when wind conditions could create a mist to blow back to applicator. Spray the surface areas and contact as many insects as possible. Do not apply this product in or around bodies of water.

**FLIES, GNATS, MOSQUITOES, SMALL FLYING MOTHS, Midges, Small Flying Insects, Sand Flies, Black Flies, Biting Flies, Deer Flies, Face Flies, Horse Flies, House Flies, Stable Flies, Vinegar Flies, Fruit Flies, and other flying insects:** Hold container 12-18 inches from shrubs, bushes, grassy areas and other areas infested with these pests. Spray with a slow sweeping motion. To reduce annoyance from these pests, treat surfaces of open porches, patio area, screens, window frames, doors and other areas where these pests may light or congregate in a similar manner. Allow spray to dry before occupying the treated area.

**ANTS:** Spray ant trails, ant hills, ant mounds and other areas of entry and infestation. Spray on ants where possible.

**SPIDERS:** Spray directly on spiders and webs.

**SOWBUGS, MILLIPEDES, BEETLES, EARWIGS, Ground Beetles, Elm Leaf Beetles, Boxelder Bugs, Earwigs, Clover Mites, Pillbugs, Centipedes, Scorpions, Cockroaches, Crickets, Palmetto Bugs, Waterbugs:** Spray surfaces thoroughly and into hiding places such as cracks, crevices, moist areas, openings around pipes, spigots, storage areas, sheds and other areas where these pests tend to congregate.

For use in homes and outdoors on ornamental plants, shrubs, vines and houseplants including, [but not limited to:] [such as:] African Violet, Aspidistra, Asters, Azaleas, Begonias, Bougainvillea, Caladium, Calceolaria, Calendula, Calla, Camellia, Carnation, Chinese Evergreen, Cineraria, Chrysanthemums, Coleus, Creeping Charlie, Daffodil, Dahlias, Delphiniums, Deciduous Ornamentals, Dogwood, Dracena, English Ivy, Evergreens, Fatshedera, Fatsia, Fern, Ficus, Fuchsia, Gardenia, Geranium, Gladiolus, Gypsophila, Hibiscus, Holly, Hydrangea, Iris, Ivy, Jasmine, Juniper, Lily, Marigold, Palm, Peony, Pelargonium, Petunia, Philodendron, Pine, Podocarpus, Pothos, Primula, Ranunculus, Rhododendron, Rose, Salvia, Schefflera, Snapdragon, Spathiphyllum, Spider Plant, Sweet Pea, Tulips, Viola, Wandering Jew, Yew, Zinnia.

WHEN SPRAYING, HOLD CONTAINER 12" FROM PLANT. Water plant thoroughly before spraying. Do not spray a drought stressed plant. Rare or unusual varieties of plants should be sprayed on a few leaves to assure plant safety before spraying the entire plant. Care should be taken when spraying tender new growth or fuzzy leaved plants. Avoid excessive wetting of foliage with spray by spraying with a slow, sweeping motion, covering upper and lower leaf surfaces. For best results, spray in the early morning when air is still. Do not spray plants in direct hot sun or in temperatures over 90°F.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage**

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

**Pesticide Disposal and Container Handling**

Nonrefillable container. Do not reuse or refill this container.

If empty:  
Place in trash or offer for recycling if available.

If partly filled:  
Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
