PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING**

Causes substantial but temporary eye injury. Harmful if inhaled. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing spray mist. Wear goggles or face shield. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS AND/OR CATS.** Follow all precautions and directions.

For use on Dogs, Cats, Puppies and Kittens over the age of 12 weeks for the control of Fleas and Ticks. Do not repeat treatment for 7 days. Do not use on puppies and kittens under 12 weeks. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Sensitivities may occur using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

**HOW TO USE:** Wet the animal's coat with water. Apply shampoo along the back of the animal, working it into a lather. Apply more shampoo working down the legs, paying attention to the foot pads (between the toes) and the underbody areas. Pay special attention to the base of the tail, as it is a place frequented by fleas. Wash the head and ear areas carefully, making sure to keep the shampoo out of the animal's eyes. NOTE: A drop of glycerine in each eye before bathing can prevent or reduce irritation if the shampoo gets in the animal's eyes. Once the animal is "fully lathered", let stand for 5 minutes before rinsing thoroughly with water.

For small dogs and cats under 15 pounds, it is advisable to wrap animal in a towel to absorb moisture for several minutes. This also will allow dying fleas and ticks to crawl off pet into towel before drying further with a towel or blow dryer.

Flea and tick control on the pet is only part of the solution of the problem. The inside of the house and the outdoor area used by the pet must also be treated for complete control.

STORAGE AND DISPOSAL

**STORAGE:** Store in a cool, dry place. Keep container closed.

**DISPOSAL:**

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.  
If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
