Name of Pesticide Product: EVERCIDE
Pressurized Pet Spray 2642

under FIFRA, as amended!

Name and Address of Registrant (include ZIP Code):

McLaughlin Gormley King Company
8810 Tenth Avenue North
Minneapolis, MN 55427-4372

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 1021-1725".
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

EVERCIDE® PRESSURIZED PET SPRAY 2642

Contains NYLAR® Insect Growth Regulator

8810 Tenth Avenue N. / Minneapolis, Minnesota 55427-4371 U.S.A.

TELEPHONE (612) 544-0341

[] OR () indicates alternate or optional wording

Nylar® is an insect growth regulator similar to the naturally occurring insect growth hormones which interferes [stops] their growth and development

Nylar® stops [prevents] the fleas from developing into egg laying adults

Nylar® can be used as part of an integrated pest management [IPM] program

Nylar® can be a biorational approach to insect control

Nylar® keeps working in areas exposed to the sun

Inhibits reinfestation of fleas for up to 100 days [14 weeks] [3 months]

Kills adult fleas

Kills preadult fleas, including flea eggs for 100 days [14 weeks] [3 months]

If adult fleas are introduced from untreated areas, their offspring will not become biting [reproductive] adults

Prevents larval fleas from developing into the biting adult stage

Prevents [stops] hatching fleas [preadult (larval) fleas] [eggs (hatching eggs) (larvae)] from becoming full grown [developing into] biting adults

One treatment works for 100 days [14 weeks] [3 months] against hatching fleas [preadult (larval) fleas] [eggs (hatching eggs) (larvae)]

Kills present [today's] fleas and prevents new [tomorrow's] fleas from developing into the biting adult stage

Nylar® activity keeps working for 100 days [14 weeks] [3 months]

Controls [stops (kills) (prevents)] stages of fleas that don't look like fleas

Prevents [stops] the emergence of adult fleas

Flea eggs deposited on the dog [puppy] [pet] will not develop into adult fleas

Nylar® acts on the immature life stage of the flea, preventing it from developing into biting a adult

Kills [controls] and Repels: Fleas, Ticks, Lice, Flies, Mosquitoes and Gnats

Also kills [controls] Deer Ticks and other tick [Ixodid] species that may carry and transmit Lyme Disease

Kills, on contact, Ticks, Spiders, Ants and other listed insects

Effective long term control

ACTIVE INGREDIENTS:

2-[1-Methyl-2-(4-phenoxyphenoxy) ethoxy] piperidine	0.125%
Pyrethrins	0.056%
Permethrin	0.050%

OTHER INGREDIENTS

99.769%
100.000%

EVERCIDE, NYLAR® - Registered trademarks of McLaughlin Gormley King Co.

ACCEPTED with COMMENTS In EPA Letter Dated: NOV 2 1998

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1021-1725

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if symptoms persist.

For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash hands before eating, drinking, chewing gum, using tobacco or using toilet. Wash thoroughly with soap and water after handling. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

PHYSICAL OF CHEMICAL HAZARDS

Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

EVERCIDE® PRESSURIZED PET SPRAY 2642

3/4

Kills [controls] insects [on contact] [such as]:

Fleas [adults (larvae) (eggs) (preadult)]
Ticks [that may carry and transmit Lyme Disease]
Brown Dog Ticks
Lone Star Ticks
Deer Tick
Other Ixodid Species
American Dog Tick
Gulf Coast Tick
Lice
Sowbugs

Millipedes
Pillbugs
Centipedes
Spiders
Scorpions
Ants
Flies
Mosquitoes
Crickets

For use in: Animal Runs, Animal Holding Areas, Animal Quarters, Apartments, Attics, Automobiles, Basements, Bedrooms, Boarding Kennels, Campers, Closets, Condominiums, Decks, Dens, Dog Beds, Dog Houses, Dogs, Dormitories, Floors, Garages, Gazebos, Homes, Hotels, Kennels, Kitchens, Lanais, Living Rooms, Motels, Patios, Pet Bedding, Pet Carriers, Pet Grooming Parlors, Pet Sleeping Areas, Pet Stores, Play Rooms, Porches, Recreational Vehicles, Rooms, Scratching Posts, Utility Rooms, Verandas and Veterinarian Clinics/Hospitals.

EVERCIDE® PRESSURIZED PET SPRAY 2642 for dogs [puppies] [pets] contains a combination of ingredients that stops [blocks (interrupts) (terminates)] the flea life cycle and controls [kills] other listed insects. The first active ingredient is NYLAR®, an insect growth regulator which inhibits the development of the immature stages of the flea for 100 days [14 weeks] [3 months] preventing them from reaching the adult stage. NYLAR® is similar to insect growth hormones that occur naturally in insects. The second active ingredient is the botanical, Pyrethrum [an extract of a Chrysanthemum flower], which provides effective, quick-kill of insects upon direct contact and an added benefit of flushing these insects from their hiding place to aid in a more complete control [kill]. Permethrin, the third active ingredient provides residual activity.

The combination of ingredients in EVERCIDE® PRESSURIZED PET SPRAY 2642 for dogs [puppies] [pets] kills adult fleas and the hatching fleas [preadult (larval) fleas] [eggs (hatching eggs (larvae) for 100 days [14 weeks] [3 months] before they grow up to bite. NYLAR®, the insect growth regulator, continues to kill [control] hatching fleas [preadult (larval) fleas] [eggs (hatching eggs) (larvae)] for 100 days [14 weeks] [3 months] by preventing their development into the adult biting stage.

EVERCIDE® PRESSURIZED PET SPRAY 2642 can also be used to control [kill (interrupt) (terminate) (block)] fleas hidden in carpets, rugs, draperies, upholstery, pet bedding, floor cracks and cabinets. Occasionally adult fleas may be present in treated areas when reintroduced from infested animals.

As part of a complete flea control program use EPA registered outdoor [lawn] [home and garden] spray, [pressurized] [Ready-to Use] [RTU] flea and tick [indoor] [premise] spray.

This product may be applied as a direct, contact spray to control fleas, ticks, and other listed insect pests on premises.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS.

DO NOT TREAT ANIMALS UNDER 6 MONTHS OF AGE WITH THIS PRODUCT.

SHAKE WELL BEFORE USE

LICE, FLEAS AND TICKS:

FOR DOGS: Cover animal's eyes with hands. With a firm stroke, to get a proper spray mist, spray head, ears and chest until damp. With finger tips, rub into face, around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to skin, direct spray against the natural lay of the hair, spraying the ruffled hair directly behind the hand. Make sure the spray thoroughly wets ticks. [When used on miniature and toy breeds of dogs, towel dry the animal after 1/2 hour if not totally dry.] Repeat treatment as needed. Avoid contact with genitalia. Do not reapply for 3 months.

Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals.

FOR PUPPIES OVER 6 MONTHS OF AGE: Wrap the animal in a towel which has been sprayed lightly with this product. Leave eyes, nose and mouth exposed. Put some spray on fingers and gently rub around eyes, nose and mouth area. Keep the animal wrapped for 5 to 10 minutes. Fleas may then be removed from the coat by picking or combing. For best results, all older dogs should be treated with a similar flea control product [such as] to prevent infestation of puppies. Do not spray directly on puppies. Repeat as needed. Avoid contact with genitalia.

FOR USE IN PET [DOG] [PUPPY] AREAS AND OTHER AREAS WHERE [DOGS] [PUPPIES] PETS FREQUENT: Treat pet [dog] [puppy] bedding and other pet [dog] [puppy] resting areas as these are primary hiding areas for fleas and ticks. To reduce infestation, spray around sleeping area, around baseboards, window and door frames, wall cracks, local areas of floors and other resting places until the surface is slightly moist. Also spray the entire inside surface of dog houses [animal holding areas]. For best results, treat pet bedding, animal quarters and other resting areas [other listed pet areas] before returning pet to treated areas. No need to remove pet bedding after treatment. Do not allow pets to use treated areas until completely dry. Repeat as needed.

464

TO CONTROL OTHER LISTED PESTS: Apply as a direct spray to control accessible stages of listed insects. Spray to thoroughly wet exposed insects. Direct spray into hiding places, cracks and crevices, along baseboards and around door and window frames. Repeat as needed.

STORAGE AND DISPOSAL

STORAGE: Store in a secure, preferably locked storage area away from heat or open flame.

PESTICIDE DISPOSAL: Unused product may be disposed of by wrapping container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Recycle this empty container where aerosol can recycling is available. If recycling is not available, replace overcap and dispose in trash. Do not puncture or incinerate.
