PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

EVERCIDE® Microemulsion Pump Spray 2649 contains a combination of ingredients that provide rapid knockdown and kill of the listed insects. This highly effective water-based formula can be used on dogs and cats.

The combination of ingredients in EVERCIDE® Microemulsion Pet Pump Spray 2649 kills adult fleas and ticks on contact. The first active ingredient is the botanical, Pyrethrum [an extract of a Chrysanthemum flower], which provides effective knockdown and quick-kill of listed insects. The second active ingredient is Permethrin, a synthetic pyrethroid, which gives residual [long term] control of fleas. The third active ingredient is Nylar®, the insect growth regulator which inhibits the development of the immature stages of the flea for 100 days [14 weeks] [3 months] preventing them from reaching the adult stage. Nylar® is similar to insect growth hormones that occur naturally in insects.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE.

USE ONLY ON DOGS AND CATS. CONSULT A VETERINARIAN BEFORE USING THIS PRODUCT ON DEBILITATED, MEDICATED, AGED, PREGNANT, OR NURSING ANIMALS.

DO NOT TREAT DOGS UNDER 6 MONTHS OF AGE WITH THIS PRODUCT.

DO NOT TREAT CATS UNDER 7 MONTHS OF AGE WITH THIS PRODUCT.

FOR USE ON DOGS AND CATS: Spray the animal with the spray nozzle about 8" to 12" from the pet. Start spraying the animal at the tail, making sure to spray the entire coat of the animal, including legs, tail, and underbody. With your hand, fluff the hair against the way it normally lays to assure that the spray penetrates the coat to the skin. Do not saturate the animal and do not spray in the face or eyes or on genitals. Repeat in 100 days. Pets may be treated indoors or outdoors.
