Subject: Label Amendment – correcting contradictory directions for use (DFU) and precautionary language at the request of California (DFU indicate user to spray product then, “with your hand, fluff hair against the way it normally lays.” This statement conflicts with the precautionary language saying to avoid contact with skin, therefore, it has been revised.)

Product Name: Evercide Microemulsion Pet Pump Spray 2649

EPA Registration Number: 1021-1726

Application Date: December 12, 2018

Decision Number: 547178

Dear Ms. Lyddon:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false

or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Autumn Metzger at 703-305-5314, or Metzger.autumn@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth Fertich". The signature is written in a cursive style with some loops and flourishes.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

DO NOT USE ON CATS OR KITTENS. For dogs: Do not apply to puppies under 6 months of age or weighing less than 5 lbs. Consult a veterinarian before applying this product on medicated, debilitated, aged, pregnant, or nursing dogs. Sensitivities may occur after using any pesticide product for pets. If signs or sensitivity occur bathe your dog with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

EVERCIDE® Microemulsion Pet Pump Spray 2649 contains a combination of ingredients that provide rapid knockdown and kill of the listed insects. This highly effective water-based formula can be used on dogs.

The combination of ingredients in EVERCIDE Microemulsion Pet Pump Spray 2649 kills adult fleas and ticks on contact.

- The first active ingredient is the botanical, Pyrethrum [an extract of a Chrysanthemum flower], which provides effective knockdown and quick-kill of all listed insects.
- The second active ingredient is Permethrin, a synthetic pyrethroid, which gives residual [long term] control of fleas, up to 14 days on your dog and up to 14 weeks on surfaces.
- The third active ingredient is Nylar®, the insect growth regulator, which inhibits the development of the immature stages of the flea for 100 days [14 weeks] [3 months] on surfaces, preventing them from reaching the adult stage. Nylar mimics an insect growth hormone and works by disrupting insect growth.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE.

RESTRICTIONS:

- DO NOT USE ON CATS OR KITTENS
- Keep cats away from treated areas and treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian immediately.
- For indoor use only.
- Do not apply this product in a way that will contact children or adults, either directly or through drift.
- Do not allow children or adults to enter until sprays have dried.
- Do not use treated article until spray has dried.

USE ONLY ON DOGS. DO NOT APPLY TO PUPPIES YOUNGER THAN 6 MONTHS OLD AND WEIGHING LESS THAN 5 LBS. DO NOT EXCEED THE NUMBER OF PUMP SPRAY ACTIVATIONS APPROPRIATE FOR THE DOG'S WEIGHT.

Body Wt. of Dog	Maximum Number of Pump Sprays to Apply per Dog
5 lbs.	4
>5 - 10 lbs.	8
>10 - 15 lbs.	12
>15 - 20 lbs.	16
>20 - 25 lbs.	20
>25 - 30 lbs.	24
>30 - 35 lbs.	29
>35 - 40 lbs.	33
>40 - 45 lbs.	37
>45 - 50 lbs.	41
>50 - 60 lbs.	49
>60 - 70 lbs.	57
>70 - 80 lbs.	66
>80 - 90 lbs.	73
> 90 - 100 lbs.	82

FOR USE ON DOGS: Spray dog with spray nozzle about 8–12 inches from the dog. Start spraying dog at the tail, making sure to spray entire coat of the dog, including legs, tail, and underbody. With a soft pet brush or gloved hands, fluff hair against the way it normally lays to ensure the spray penetrates through coat to the skin. Refer to chart above to apply the appropriate amount of product to dog. Do not exceed the maximum number of pump spray applications for dog's body weight. Do not saturate the dog and do not spray in face or eyes or on genitals. Do not apply more often than once every 14 days (2 weeks).

FOR USE IN DOG AREAS: Treat dog bedding and other dog resting places, as these are primary hiding areas for fleas and ticks; no need to remove dog bedding after treatment. To reduce infestation, spray around sleeping areas, baseboards, window and door frames, wall cracks, local areas of floors, and other resting places until the surface is slightly moist. Also spray the entire inside surface of dog houses and kennels. Do not allow any pets to use treated areas until completely dry.

For best results, to protect your dog against and to minimize reintroduction of adult fleas from outdoors, at least 14 days after direct application of this product to your dog, reuse this product following the Directions for Use or use another EPA registered flea and tick product, ([such as] [brand name] flea or flea and tick collar, [brand name] pet powder, [brand name] pet spray, [brand name] pet dip, [brand name] pet shampoo, flea shampoo or flea and tick pet shampoo. Always read the product label and follow the directions for use.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
