Tom Lennan
McLaughlin Gormley King Company
8810 Tenth Avenue North
Minneapolis, MN 55427-4319

Dear Mr. Lennan:

Subject: Label amendment in response to propoxur RED and efficacy DCI
PYROCIDE® Pressurized Ant & Roach Spray 70451
EPA Registration No. 1021-1730
Submission Date: March 10, 2008

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided you make the following changes before you release the product for shipment bearing the amended labeling:

- On the front panel, add the following statement below the list of use sites: **“Do not spray product on indoor residential use sites, schools, day care facilities, motels, hotels, and other indoor locations where children may be present.”**
- On the front panel, revise the lists of pests so it reads, **“Ants (excluding fire, harvester, and pharaoh ants), German Roaches, Spiders (including Black Widow Spiders but excluding Brown Recluse Spiders), Silverfish, Fleas, Brown Dog Ticks, and Other Listed Pests.”**
- Revise all references to “Roaches” and “Cockroaches” so they read, **“German Roaches”** and **“German Cockroaches.”**

Approval of this labeling amendment does not constitute approval of your application for reregistration of this product. Product reregistration is currently pending and future labeling amendments and/or additional data may be required.

A stamped copy is enclosed for your records. Please submit two (2) copies of your final printed labeling before releasing the product for shipment. The following provisions apply to existing stocks:

- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS NOT labeled with the prohibition on indoor residential spray use, then you may label your product with existing stocks for up to 12 months after the date of this amendment letter.
- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS labeled with the prohibition on indoor residential spray use, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this amendment letter.
- If you formulate your end-use product with technical product purchased after January 31, 2009, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this amendment letter.

If you have any questions regarding this label, please contact Julie Chao at (703) 308-8735 or chao.julie@epa.gov.

Sincerely,

for John Hebert

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. Wear protective clothing and waterproof gloves. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT:

Applicators and all Handlers must wear: Long-sleeved shirt and long pants, socks and shoes, and chemical resistant gloves made of barrier laminate, nitrile rubber, neoprene rubber, or viton. Follow manufacturer's requirements for cleaning /maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS:

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS:

This product is toxic to wildlife and aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product
in a manner inconsistent with its labeling.

Do not apply in a way that will contact people or pets directly or indirectly.

h/c

Do not use in commercial food processing, preparation, or food storage or serving areas. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage areas (after canning or bottling).

Remove pets and birds and cover fish aquariums before spraying.

Do not allow children or pets to contact treated surfaces until spray has dried.

Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm.

Use this spray as a spot or crack and crevice treatment to control Cockroaches, Fleas, Silverfish, Brown Dog Ticks and other listed insects. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet but not to the point of runoff.

SHAKE CONTAINER WELL BEFORE USE. Point sprayer button at the insects to be sprayed or the surfaces to be treated and press down. Spray surfaces until lightly moist, moving the container to keep from excessively wetting the surface.

NOTE: Application to plants will cause damage. Rinse accidentally sprayed plants immediately.

Do not use as a space spray for flying insects.

FOR SPOT TREATMENT:

To Kill Ants (excluding fire, harvester and pharaoh ants), Cockroaches, Crickets, Silverfish, Spiders (including Black Widow Spiders but excluding brown recluse spiders), Firebrats, Millipedes, Pillbugs and Sowbugs: Spray areas where these insects are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators, and cabinets; and around garbage cans, plumbing and other utility installations. Will only kill pests present at the time of application. Pests must be directly contacted to be effective. Contact as many pests as possible. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat treatment when pests appear, but not more frequently than 6 to 8 weeks.

To Kill Carpet Beetles: Directly spray beetles or larvae when seen. Spray along baseboards and edges of rugs and carpeting. Spot spray backing of rugs and carpets and allow to dry thoroughly before replacing on floor. Also, treat under furniture, in closets (baseboards and shelving), and wherever larvae are suspected.

To Kill Brown Dog Ticks and Fleas: For use in Kennels. Thoroughly apply as a spot treatment to infested areas such as animal beds and resting quarters; nearby cracks and crevices; along and behind baseboards, window and door frames; and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. DO NOT SPRAY PETS WITH THIS PRODUCT. To control the source of flea infestations, treat your pet with a product registered for animal application. Also, treat your yard with a product registered for yard application.

FOR CRACK AND CREVICE:

To Kill Ants (excluding fire, harvester and pharaoh ants), Cockroaches, Crickets, Silverfish, Sowbugs, Spiders (including Black Widow Spiders but excluding Brown Recluse Spiders), Brown Dog Ticks, Fleas, and Carpet Beetles: Apply spray in small amounts directly into cracks and crevices; in points between different elements of construction; between equipment, floors, and openings leading to voids; into hollow spaces in walls; and on equipment legs and bases where the above listed insects hide.

Do not allow product to be deposited onto exposed surfaces or introduced into the air. Do not contaminate food or food processing surfaces.

Building Perimeter Treatment: To help prevent infestations of buildings by Ants (excluding fire, harvester and pharaoh ants), Crickets, Spiders (including Black Widow Spiders but excluding brown recluse spiders), Firebrats, Millipedes, Pillbugs and Sowbugs, treat a 12 – 18 inch band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet where these pests are active and may find entrance. Keep pets and children out of the treated area until the spray has dried.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place.

PESTICIDE DISPOSAL:

If partly filled: Call your local solid waste agency for disposal instructions.

CONTAINER DISPOSAL:

Do Not Puncture or Incinerate!

If empty: Place in trash or offer for recycling if available.
