Subject: Label Notification(s) for Pesticide Registration Notices 2007-4

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated June 17, 2009 for:

EPA Registration 1021-1730 Pyroicide® Pressurized Ant & Roach Spray 70451

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Banza Djapao of my staff at 703-305-7269.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Subject: PYROCIDE® Pressurized Ant & Roach Spray 70451
EPA Reg. No. 1021-1730
Notification Per PR-Notice 2007-4

Dear Sir or Madam:

By Notification we are changing the storage and disposal language to comply with the Final Rule "Pesticide Management and Disposal; Standards for Pesticide Containers and Containment".

Enclosed are 2 copies of the label. One copy has changes highlighted.

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. Wear protective clothing and waterproof gloves. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT:

Applicators and all Handlers must wear: Long-sleeved shirt and long pants, socks and shoes, and chemical resistant gloves made of barrier laminate, nitrile rubber, neoprene rubber, or viton. Follow manufacturer's requirements for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS:

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS:

This product is toxic to wildlife and aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply in a way that will contact people or pets directly or indirectly.

Do not use in commercial food processing, preparation, or food storage or serving areas. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage areas (after canning or bottling).

Remove pets and birds and cover fish aquariums before spraying.

Do not allow children or pets to contact treated surfaces until spray has dried.

Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm.

Use this spray as a spot or crack and crevice treatment to control German Roaches, Fleas, Silverfish, Brown Dog Ticks and other listed insects. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet but not to the point of runoff.

SHAKE CONTAINER WELL BEFORE USE. Point sprayer button at the insects to be sprayed or the surfaces to be treated and press down. Spray surfaces until lightly moist, moving the container to keep from excessively wetting the surface.

NOTE: Application to plants will cause damage. Rinse accidentally sprayed plants immediately.

Do not use as a space spray for flying insects.

FOR SPOT TREATMENT:

To Kill Ants (excluding fire, harvester and pharaoh ants), German Roaches, Crickets, Silverfish, Spiders (including Black Widow Spiders but excluding brown recluse spiders), Firebrats, Millipedes, Pillbugs and Sowbugs: Spray areas where these insects are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators, and cabinets; and around garbage cans, plumbing and other utility installations. Will only kill pests present at the time of application. Pests must be directly contacted to be effective. Contact as many pests as possible. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat treatment when pests appear, but not more frequently than 6 to 8 weeks.

To Kill Carpet Beetles: Directly spray beetles or larvae when seen. Spray along baseboards and edges of rugs and carpeting. Spot spray backing of rugs and carpets and allow to dry thoroughly before replacing on floor. Also, treat under furniture, in closets (baseboards and shelving), and wherever larvae are suspected.

To Kill Brown Dog Ticks and Fleas: For use in Kennels. Thoroughly apply as a spot treatment to infested areas such as animal beds and resting quarters; nearby cracks and crevices; along and behind baseboards, window and door frames; and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. DO NOT SPRAY PETS WITH THIS PRODUCT. To control the source of flea infestations, treat your pet with a product registered for animal application. Also, treat your yard with a product registered for yard application.

FOR CRACK AND CREVICE:

To Kill Ants (excluding fire, harvester and pharaoh ants), German Roach, Crickets, Silverfish, Sowbugs, Spiders (including Black Widow Spiders but excluding Brown Recluse Spiders), Brown Dog Ticks, Fleas, and Carpet Beetles: Apply spray in small amounts directly into cracks and crevices; in joints between different elements of construction; between equipment, floors, and openings leading to voids; into hollow spaces in walls; and on equipment legs and bases where the above listed insects hide.

Do not allow product to be deposited onto exposed surfaces or introduced into the air. Do not contaminate food or food processing surfaces.

Building Perimeter Treatment: To help prevent infestations of buildings by Ants (excluding fire, harvester and pharaoh ants), Crickets, Spiders (including Black Widow Spiders but excluding brown recluse spiders), Firebrats, Millipedes, Pillbugs and Sowbugs, treat a 12 – 18 inch band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet where these pests are active and may find entrance. Keep pets and children out of the treated area until the spray has dried.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Pesticide Storage

Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL:

If partly filled: Call your local solid waste agency for disposal instructions.

CONTAINER DISPOSAL: Pesticide Disposal and Container Handling

Do Not Puncture or Incinerate!

Nonrefillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions.
