Do not apply to humans, pets, plants or contaminate feed, feedstuffs, dishes or utensils. Cover and avoid spraying fish aquariums. Cover or remove exposed food, dishes, utensils and food handling equipment.

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared food is served such as dining rooms but excluding areas where foods may be prepared or processed. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food/feed should be covered or removed. Non food areas of restaurants or food handling establishments are areas including (but not limited to) garbage rooms, lavatories, floor drains (to sewers) entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling).

Do not use in Federally Inspected Meat and Poultry Plants.

SHAKE WELL BEFORE EACH USE

Hold container upright. Apply only to surface. Do not use as a space spray. Point spray opening toward surface to be sprayed and press button firmly. Hold about 12 to 18 inches from surface being sprayed. Spray surface until wet but not to runoff. Avoid excessive wetting of asphalt, tile, rubber and plastic materials. More frequent applications will be required to maintain residual control on plywood and other absorbent surfaces.

For Control of Cockroaches and Waterbugs: Spray until wet in cracks around baseboard and other hiding places such as under sinks, behind stoves, refrigerators, plumbing pipes and other areas where these pests are seen. When bugs are driven out spray directly.
