Subject: Label Amendment - Response to Agency's April 29, 2004 letter
Evercide Wasp & Hornet Spray 26011
EPA Reg. No. 1021-1764
Your Submission Dated May 27, 2004

Dear Ms. Schlekau:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

1. The acute toxicity profile for this product is as follows:

Acute oral toxicity	IV
Acute dermal toxicity	III
Acute inhalation toxicity	IV
Primary eye irritation	IV
Primary skin irritation	IV
None dermal sensitization	

Base on the acute toxicity of your product (Toxicity Category IV), you are not required to have *If in eye* or *If swallowed* first aid statement.. If you delete the *If swallowed* first aid statement, replace "Harmful if swallowed or absorbed through skin" with "Harmful if absorbed through skin" in the Precautionary Statements section.

If you have any questions regarding this action, please contact BeWanda Alexander of my team at (703) 305-7460.

Sincerely,

A handwritten signature in black ink that reads "BeWanda Alexander for". The signature is written in a cursive, flowing style.

EVERCIDE® Wasp & Hornet Spray 26011

This product can be used both indoors (attics and other places where nests are built and where food or feed are not exposed) and outdoors on Wasp, Hornet, and Yellow Jacket nests.

- Kills Wasps, Yellow Jackets, and Hornets on contact
- Gives rapid knock down and kill of Wasps, Yellow Jackets, and Hornets
- Gives rapid contact kill and residual kill of insects returning to the treated nest.
- Reaches nests more than 20 feet above ground
- Kills on contact. Guaranteed.
- Kills insects returning to treated nest
- Non-staining
- No oily residue
- Instant knockdown
- Kills (the) entire nest
- Foaming jet spray
- Foaming action
- Kills on contact with foaming action
- Water-based

<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.</p>	

PRECAUTIONARY STATEMENTS

CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Remove and wash contaminated before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Avoid contamination of food and feedstuffs.

Do not use in commercial food/feed processing, preparation, food/feed storage or serving areas. In the home, all food/feed processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food/feed should be covered or removed.

Remove pets and birds and cover fish aquariums before spraying.

For Control of Nests of Wasps, Yellow Jackets, and Hornets: The best time to spray the nest is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest, not directly under it. Hold container upright at arms length, point the actuator at the nest and spray in the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Any insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest. Hose off foliage of desirable plants that were contacted with spray.

This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and recheck in a few hours.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place away from heat or open flame, preferably in a locked storage area.

Do Not Puncture or Incinerate!

DISPOSAL:

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
