EPA Reg. No. 1021-1767

EPA Est. No. 1021-MN-2

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

This product is not for use on humans: If lice infestation should occur on humans, use a product labeled for use on humans. Vacate room after treatment and ventilate before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry.

Do not use in commercial food/feed processing, preparation, food/feed storage or serving areas. In the home, all food/feed processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food/feed should be covered or removed. Remove pets, birds and cover fish aquariums before spraying.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE EACH USE. Remove protective cap. Aim spray opening away from person. Push button to spray.

TO KILL LICE: Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying, and then proceed to spray entire area to be treated. Hold container upright with nozzle away from you. Depress valve and spray from a distance of 8 to 10 inches. Spray each square foot for 5 seconds or until damp. Spray only those garments, parts of bedding, including mattresses and furniture that cannot be either laundered or dry-cleaned. Allow sprayed articles to dry thoroughly before use.

TO KILL TICKS and FLEAS: Spray around beds, furniture and pet's habitat. Spray pet sleeping quarters, bedding, floor and floor covering where pets are kept. Use only a recommended pet spray on pets.

TO KILL DUST MITES: First thoroughly vacuum entire room concentrating on areas where mites congregate: such as mattresses, box springs, headboards, walls, floors, carpeting, and baseboards. Then spray surfaces until damp. On mattresses allow spray to dry thoroughly before replacing bedding.

TO KILL BEDBUGS: Apply as a spot treatment to cracks and crevices around baseboards, floorboards, headboards, and walls. First vacuum mattress and box springs, paying particular attention to tufts, fabric seams and welt or piping areas where bed bugs may be hiding. Then spray these areas and allow spray to dry before using.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a secure, preferably locked storage area that is cool and dry.

DISPOSAL:

Do not puncture or incinerate!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

Subject: Amendment – Fast Track
MULTICIDE® Lice & Dust Mite Spray 27911
EPA Reg. No. 1021-1767

Dear Mr. Gebken:

By Amendment we are updating the directions for use on bed bugs to reflect current use practices. In addition, we have updated the Precautionary Statements to reflect the current verbage and revised If Swallowed to reflect the petroleum distillates in the product. We also deleted the Environmental Hazards statements since this is an indoor use only product. The Storage and Disposal has also been revised to reflect the changes required by PR Notice 2001-6

We have highlighted the changes made to the label. We are enclosing five (5) copies of the revised label.

If there are any questions or you need anything further to process this Amendment, please contact this office.

Sincerely,

Julie B. Schlekau
Registration Specialist
