PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Avoid contamination of food and feedstuffs.

Do not use in commercial food/feed processing, preparation, or food/feed storage or serving areas. In the home, all food/feed processing surfaces and utensils should be covered during treatment or thoroughly washed before use following treatment. Exposed food/feed should be covered or removed.

Remove pets and birds and cover fish aquariums before spraying.

Do not apply to pets or contaminate feed, foodstuffs, dishes, or utensils. Avoid spraying vegetation directly. Foliage of plants that are contacted with spray should be hosed off.

This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and check for staining in a few hours.

1/2

For Control of Nests of Wasp and Hornets: The best time to spray the nest is in the early morning or early evening, when air temperature is cooler, most insects are in the nest, and little activity is observed around the nest opening. Spray only if the air is still.

Stand at a safe distance from the nest, not directly under it. Hold container upright at arms length, point the actuator at the nest. If nest has visible entrances, first spray into these openings and then soak the remainder of the nest. Treated insects may fall out of the nest and die. Any insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest.

STORAGE AND DISPOSAL

Do not contain water, food, or feed by storage and disposal.

STORAGE: Store in a cool dry place away from heat or open flame, preferably in a locked storage area.

DISPOSAL:

Do Not Puncture or Incinerate!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-GO-FANUP for disposal instructions.
