AND POLLUTION PREVENTION TO THE

Mr. Alex D. Tschida McLaughlin Gormley King Company 8810 Tenth Avenue North Minneapolis, MN 55427-4372

JUN 1 0 2011

Subject: Label Notification(s) for Pesticide Registration Notice 2007-4

Dear Mr. Tschida:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated May 19, 2011 for the following product(s):

Evercide® Esfenvalerate RTU 28062 Reg. No. 1021-1779

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 2007-4 and finds that the label change(s) requested falls within the scope of PRN 2007-4. The label has been datestamped "Notification" and will be placed in our records.

If you have any questions, please contact Linda A. DeLuise at 703-305-5428.

Sincerely,

Richard J. Gebken
Product Manager
Insecticide Branch

Registration Division (7504P)

Subject:

EVERCIDE® Esfenvalerate RTU 28062

EPA Reg. No. 1021-1779

Notification Per PR-Notice 2007-4

Dear Sir or Madam:

By Notification we are adding storage and disposal language for a commercial size container. In this instance detailed rinsing instructions would not be necessary because the pesticide is not dilutable.

Enclosed are 2 copies of the label. One copy has changes highlighted. Also enclosed is an e-mail from Nancy Fitz of the Office of Pesticide Programs to support why detailed rinsing instructions are not required.

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140,

If there are any questions or you need anything further, please contact this office.

Best Regards,

Alex Tschida

Regulatory Affairs Specialist

EPA Est. No. 1021-MN-2

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

EVERCIDE® Esfenvalerate RTU 28062 is an effective formulation, which kills crawling insects fast. It stays on treated surfaces and provides residual insect killing power for up to three months.

READ ENTIRE LABEL BEFORE USE

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of feedstuffs, food, or food handling surfaces.

PRECAUTIONS: People and pets should not be allowed in treated areas until spray has dried. Do not use this product on pets.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

Sprayer Instructions:

How to prime and care for your sprayer:

- 1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
- 2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
- 3. To store, turn nozzle to "off" position and store with sprayer above level of liquid in container to prevent leakage.

[To Attach Sprayer:

SHAKE WELL

To attach and operate sprayer: Remove sticker from cap. Open the flip top on cap. Extend hose from sprayer. Firmly insert black hose tip into opening until in snaps into place. Adjust nozzle to spray or stream. Point sprayer away from people or animals. Squeeze trigger until liquid is dispensed. After use turn the spray nozzle to X (off_. Do not disconnect the hose from bottle.]

SHAKE WELL BEFORE USE

Typical Areas That May Require Insecticide Treatment:

INDOORS:

Spray areas where Cockroaches, Palmetto Bugs, Ants, Clover Mites, Crickets, Firebrats, Water Bugs, Silverfish, and Spiders are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators, and cabinets, and around plumbing and other utility installations.

For control of Ants, apply to ant trails, around doors and windows, and wherever else ants may find entrance.

For control of Carpet Beetles, thoroughly spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in cosets on shelving, and wherever else insects are seen or suspected.

For control of Fleas and Brown Dog Ticks, thoroughly spray pet beds and resting quarters and nearby cracks and crevices, along and begind begind best baseboards, window and door frames, and localized areas of floors and floor coverings where fleas and ticks may be present. Pet bedding should be a replaced with clean fresh bedding after treating the area. Do not treat pets with this product. To control the source of flea infestations, treat pets with a product registered for application to animals.

Note: Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.

AS A SURFACE SPRAY: Use at a rate of one (1) gallon [96 oz.] [24 oz.] of spray per 1,000 [750] [188] square feet.

To Kill the Accessible Stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-toothed Grain Beetles, Cadelles, Meal Moth Larvae and Adults, Cigarette Beetles, Drugstore Beetles, and Granary Weevils: Apply as a coarse wet spray to surfaces where these pests are normally found, such as floors and baseboards and around walls, benches, and pieces of equipment. Pay particular attention to cracks, crevices, and similar protected locations in floors and walls. Thoroughly spray around and into floor drains, non-food conveyors, and other areas where granary insects may be found. Do not apply when food processing facility is in operation or food is exposed. Do not apply this spray to surfaces or utensils that may come into contact with food, excessive food residues may result.

Do Not Exceed More Than One (1) Application Every Fourteen (14) Days.

To Kill Ants, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Silverfish, Sowbugs, Spiders and Waterbugs: Apply this spray with a sprayer that produces coarse wetting droplets into all cracks and crevices in woodwork and floors, underneath sinks, areas behind pipes, and in all places where these insects shelter. Directly spray as many insects as possible. Do not exceed more than one (1) application every seven (7) days in restaurants and similar food service establishments or more than one (1) application every fourteen (14) days in all types of food handling establishments.

FOR PREMISE PESTS: Use at the rate of one (1) [24 oz.] [96 fluid ounces] gallon of spray per 1,000 [188] [750] square feet.

Application Within Residential and Non-Residential Buildings Including Homes, Apartment Buildings, Kennels, and Non-Food Areas of Industrial. Institutional, and Commercial Buildings, such as Hospitals, Hotels, Warehouses, Truck Trailers, Railroad Cars, Theatres, Office Buildings, and Schools.

GENERAL: Apply as a coarse wet spray to thoroughly treat hiding places such as cracks and crevices, moist areas around pipes, under refrigerators. and along baseboards to control pests listed below. Use at the rate of one (1) [96 fluid ounces] gallon of spray mixture per 1,000 [750] square feet. Spray directly on insects when possible. Do not permit humans or pets to contact treated surfaces until the spray is dry. Do not treat establishments where livestock feed is present.

To Kill Ants, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Silverfish, Sowbugs, Spiders, and Waterbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards and door and window frames, behind and beneath sinks, stoves, refrigerators and cabinets, and around garbage cans, plumbing and other utility installations. Directly spray pests driven out of hiding places. For Ants, apply to ant trails, around doors and windows, and wherever these pests may find entrance.

To Kill Brown Dog Ticks and Fleas: For Control of Brown Dog Ticks, thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings where these pests may be present. For control of Fleas, thoroughly apply a fine particle broadcast spray to infested rugs, carpets, and pet resting areas. Prior to treatment cover aquariums and fish bowls and remove birds, such as canaries, from the area. Do not permit humans or pets to contact treated surfaces until spray is dry. Following treatment, remove and replace old bedding with clean, fresh bedding. Do Not Spray Pets With This Product. Treat dogs and cats with a product registered for use on animals. Also, treat your yard with a product registered for yard application.

To Kill Bedbugs: First, thoroughly clean and air mattresses and springs. Apply as a spot treatment to cracks and crevices, around baseboards, and on floorboards, headboards, and walls. Then spot treat only areas that may harbor pests. On mattresses, concentrate on tufts, folds, and seams.

To Kill Carpenter Ants: Use a coarse spray, around doors, door frames, windows, and other areas where Carpenter Ants enter the premises or hide. Spray into cracks and crevices, through openings, or into small newly drilled holes into wall voids where these ants or their nests are present.

Typical Areas That May Require Insecticide Treatment:

OUTDOORS:

Do not water the treated area to the point of run-off.

Do not make applications during rain.

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Treatment to soil or vegetation around structures;
- (2) Applications to lawns, turf, and other vegetation;
- (3) Applications to building foundations, up to a maximum height of 3 feet.

c c c c c c c c c Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches and experiences are such as sidewalks, driveways, pations, gorches are such as sidewalks, driveways, pations, gorches are such as sidewalks, driveways, pations, gorches are such as sidewalks, driveways, gorches are such as sidewalks, gorches are structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

GENERAL: Use EVERCIDE® Esfenvalerate RTU 28062 to control on contact Ants, Cockroaches, Crickets, Sowbugs, Spiders, and Ticks. Apply to outside surfaces of buildings, porches, patios, garages, grasses, and other areas where these pests are seen or found. Do not spray in of near fish ponds or other bodies of water. Avoid soaking young or flowering plants. сč

Flies and Mosquitoes: For outdoor use only as an aid in controlling these insects. Spray outside surfaces of screens, doors, window frames, or wherever insects may enter the room. Also spray surfaces around light fixtures, on porches, in garages and other places where insects alight or congregate. Repeat as needed.

Ants, Ticks (including ticks which transmit Lyme disease), Crickets, Fleas, and Earwigs: For treatment of infestation of these insects in a section where there are weeds or bushy non-crop areas, thoroughly spray infested areas. When treating for ticks, pay special attention to areas frequented by pets. For ants, thoroughly wet hills and runways.

Building Perimeter Treatment: To help prevent infestations of buildings by ants, crickets, spiders, and sowbugs (pillbugs), treat a 12 - 18 inch band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet where these pests are active and may find entrance.

Keep pets and children out of the treated area until the spray has dried. Do not spray animals. Dogs and cats and their kennel or bedding area should also be treated with a registered flea control product in conjunction with this application.

....

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling

Nonrefillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[for commercial use]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place. Keep container closed. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry)".

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container.

CONTAINER DISPOSAL: Triple rinse or pressure rinse (or equivalent) promptly after emptying. Offer for recycling or reconditioning, or dispose of in a sanitary landfill or by other procedures approved by State and Local authorities.
