DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

Pyrocide® Home and Garden Spray 74403 may be used indoors or outdoors as a contact spray for flying and crawling pests commonly found in and around the home. Pyrocide® Home and Garden Spray 74403 contains Pyrethrum, derived from a Chrysanthemum flower, to give fast and effective kill on contact. Pyrethrum also will "flush" hiding insects, which then allows you to spray them for immediate contact kill. Adjust spray nozzle to give a coarse, wet spray.

INDOORS:

House Flies, Gnats, Mosquitoes, Flying Moths: As a room spray to control these pests, close doors and windows and pump spray, aiming the nozzle into the upper corners of the room and filling the room with a fine mist. Keep room closed for at least 15 minutes and then air room out before occupancy. Before spraying in kitchen or dining areas, cover or remove food and utensils.

Ants, Asian Lady Beetles, Boxelder Bugs, Brown Marmorated Stink Bugs (BMSB), Cockroaches (Water Bugs/Palmetto Bugs), Sowbugs, Pillbugs, Crickets, Silverfish, Firebrats, Fleas, Ticks, Stink Bugs, and Spiders, including Black Widows and Scorpions: Spray into cracks and crevices, along baseboards, behind and beneath cabinets, cupboards, pantry, other food storage areas, under stoves, sinks, refrigerators, and in and around waste containers and other areas where these pests are seen or suspected of hiding. Spray as many pests as possible, especially as they are being flushed from hiding. Spray ant trails and places where they are entering the house.

Fleas and Ticks: Where fleas and ticks are associated with household pets, remove and launder or replace the pet's bedding, and spray the surrounding area. Pay particular attention to cracks and crevices, along baseboards, carpeted areas, area rugs, and fabric covered furniture where these pests may be found. Replace pet bedding when spray is dry. Concurrent treatment of the pets and their yard areas is recommended with a product labeled for those sites and pests.

Carpet Beetles: Apply as a spot treatment along baseboards and edges of carpet and rugs. Also spray under carpets and area rugs after vacuuming area to remove debris. Spray carpet in corners of rooms, under furniture, in closets, on shelving and other areas where these pests are seen or suspected.

Saw-toothed Grain Beetles, Indian Meal Moths, Rice Weevils, Confused Flour Beetles: To kill the exposed forms of these pests, find and destroy infested packages of food products in cabinets or pantry. Remove shelf paper. Clean inside cabinets thoroughly. Remove packaged goods and spray shelves and cracks and crevices. Replace shelf paper with new paper and return packaged goods when spray is dry.
