U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number:

1021-1804

Date of Issuance:

08/12/05

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Evercide Industrial Spray 27524

Name and Address of Registrant (include ZIP Code):

McLaughlin, Gormley, and King Company
8810 Tenth Avenue North
Minneapolis, MN 55427-4372

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following labeling changes before you release the product for shipment:
 - a. Revise the residual control claim to reflect a claim for German cockroach only (i.e., replace "... listed Indoor Pests" with "... German Cockroaches" in the "Effective Residual Control of Listed Indoor Pests" (See EPA letter dated February 18, 2005).

Signature of Approving Official:

George LaRocca
Product Manager (RM 13)
Insecticide Branch
Registration Division (7505C)

Date:

August 12, 2005

2/5

- b. On the basic CSF dated December 30, 2003, use the same foot note symbol relative to the amount of Esfenvalerate contained in the source product (See enclosed marked CSF).
3. Submit two (2) copies of the revised final printed label bearing the above stated revisions prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the stamped label is enclosed for your records. If you have any questions concerning this action, please contact Dr. B. A. Akinlosotu at (703) 605-0653.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.	

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before use.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic organisms. Do not apply directly to any body of water. Do not contaminate water by cleaning equipment or when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

(TRIGGER SPRAY) To operate sprayer, turn tip to proper setting, (broad) (fine) spray for surfaces or pinstream for cracks and crevices, and pump trigger to spray as directed. [Do not operate in OFF position.] [After use, turn tip to OFF to avoid accidental spraying.]

3/5

For best results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock hazard. Do not use on animals. Avoid excessively wetting furniture and carpeting. Always test in an inconspicuous [hidden] area prior to use as some natural and synthetic fibers may be adversely affected by any liquid product. This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and recheck in a few hours.

Avoid contamination of food and feedstuffs. Avoid contamination of food or food handling surfaces.

Do not apply this product in patient rooms or in any rooms while occupied by the elderly or infirm. Do not apply to classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

Do not allow children or pets to contact treated surfaces until dry.

FOR CRACK AND CREVICE TREATMENT:

Apply insecticide directly into cracks and crevices or voids using the (fine) pinstream setting. Special attention should be paid to areas such as behind baseboards, connection areas around drains, pipes, behind and beneath sinks, stoves, plumbing and other visible cracks and crevices. Spray these areas thoroughly being certain that spray penetrates well.

Crawling Insects: Ants, Booklice, Boxelder Bugs, Cockroaches (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), Crickets, Dermestids, Firebrats, Fleas, Palmetto Bugs, Silverfish, Spiders, Ticks, Earwigs, Sowbugs, Scorpion, and Waterbugs. Spray into cracks and crevices and void spaces where insects may be harboring. These may include openings around pipes and sinks, under refrigerators, behind baseboards, washing machines, stoves, cabinets, meter boxes and man holes.

Booklice & Silverfish: Spray into cracks and crevices associated with baseboards, door frames, bookcases and other harborage sites.

Ants: Spray into cracks and crevice and voids where ants may be traveling and/or harboring, including around doors, window frame, and other structural cracks and crevices.

Stored Product Pests: Spray into cracks and crevices and/or voids where these insects may be harboring or hibernating. Infested areas include cracks and crevices in cabinets and pantries, wall voids, around window and door frames, under siding and in machinery.

Localized Treatment of Wood-infesting Insects*:** Beetles and Borers (such as the following families: Anobiidae, Bostrichidae, Buprestidae, Cerambycidae, Lyctidae, and Oedemeridae), Carpenter Ants, Carpenter Bees, Termites and Wood wasps. Locate suspected infestation and/or insect tunnels and cavities. Spray into insect tunnels, gallery and inaccessible closed voids. In infested sites, pilot holes should be drilled eight to ten inches apart to insure thorough insecticide gallery treatment. Make sure not to contact electrical wiring, plumbing, etc. when drilling. For Carpenter Bees, seal entrance openings with small pieces of stainless steel wool after application.

***The purpose of such applications of EVERCIDE® Industrial Spray 27524 for termites is to kill workers or winged reproductive forms which may be present in treated channels at the time of treatment. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. This product is not recommended as sole protection against termites. For active termite infestations, get a professional inspection.

APPLICATIONS IN FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which food is held, processed, prepared or served.

Do not apply directly to food. Do not apply when food processing facility is in operation or food is exposed. Do not apply this product to surfaces or utensils that may come in contact with food. Cover or remove all food and food processing equipment during application. Food contact surfaces and equipment must be thoroughly cleaned with an effective cleaning compound and rinsed with potable water before using. Do not spray plants to be used for food or feed.

FOOD AREAS: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) also would be considered a food area. Apply prescribed amounts of insecticide directly into cracks and crevices or voids in points between different elements of construction, between equipment and door openings, leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Repeat applications as needed but do not exceed more than one (1) application every fourteen (14) days in restaurants and similar food service establishments or more than one (1) application every fourteen (14) days in all types of food handling establishments.

NONFOOD AREAS: Includes areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling).

FOR PREMISE PESTS:

Application Within Non-Residential Buildings Including Non-Food Areas of Industrial, Institutional and Commercial Buildings, Hotels, Warehouses, Truck Trailers, Theaters, and Office Buildings.

Do not make applications to animal feedstuffs or water equipment.

Apply spray to treat insect hiding places such as cracks, crevices and moist areas around pipes and utility service boxes, under refrigerators and along baseboards to control the insect pests listed below. Spray insects directly, whenever possible. Keep people and domestic animals off treated areas until dry. Do not spray on livestock feed. Do not apply to institutions (including libraries, hospitals, nursing homes, sport facilities, etc.) in the immediate area when occupants are present.

Fleas and Ticks on Surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters. Do not spray animals directly.

For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Test first for staining on an inconspicuous piece prior to use. Also, treat yard with a product registered for yard application.

To Kill Ants, Crickets, Cockroaches, Earwigs, Millipedes, Psocids, Pillbugs, Sowbugs, Spiders and Waterbugs: Apply to areas where these pests are found or may hide, including dark corners of rooms; storage rooms, and closets, cracks and crevices in floors, walls; and between building construction elements, along baseboards, door and window frames, behind and beneath sinks, stoves, refrigerators and cabinets, around garbage cans, bins, and dumpsters, plumbing and other utility service installations. Pests flushed from hiding should be sprayed directly. For Ants, ant trails, door thresholds, door and window frames (outdoors and indoors), and wherever these pests may find access into the building should be sprayed.

Spiders and Waterbugs: Apply as a broad spray to floors, under sinks, areas behind pipes, utility service boxes, and in all areas where these insects seek harborage. Contact as many insects as possible.

4/5

Pantry Pests: Grain Beetles (Rusty, Merchant and Saw-toothed), Flour beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elm Leaf Beetles and Tobacco Moths: Treat exposed stages. Remove all food-stuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use.

Carpet Beetles (Black, Furniture, and varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

Webbing Clothes Moths: Spray in closets and other storage areas where these pests are found. Do not apply to clothing.

Ants: Spray around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris until surface is slightly wet.

Fire Ants: To quiet active ants on the surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours. Treat new mounds as they appear.

To Kill House Flies, Mosquitoes, Gnats and Small Flying Moths: Close room and turn off air conditioning or ventilating equipment or fans. Direct spray first into all cracks and crevices,

behind all equipment, appliances, cupboards, or any dark harborage areas, then treat as a space spray, directing the spray towards the ceiling and upper corners of the room. Keep areas closed for at least ½ hour. Do not remain in treated area after treatment. Ventilate area thoroughly before re-entry. Do not repeat application more than once every three (3) days.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place. Keep container tightly closed.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
