MAR 2 0 2009

Subject: Label Notification(s) for Pesticide Registration Notices 2007-4

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated January 30, 2009 for:

EPA Registration 1021-1828 MGK® Roach Bait 2822

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Banza Djapao of my staff at 703-305-7269.

Sincerely,

Linda Arrington

Subject:

MGK® Roach Bait 2822

EPA Reg. No. 1021-1828

Notifications Per PR-Notice 2007-4 and PR-Notice 98-10

Dear Sir or Madam:

By Notification we are changing the storage and disposal language to comply with the Final Rule "Pesticide Management and Disposal; Standards for Pesticide Containers and Containment". We are also adding metric units to the Directions for Use, without changes in application rates.

Enclosed are 2 copies of the label, one copy has changes highlighted.

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.144, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions or you need anything further, please contact this office.

Sincerely.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment wash waters.

PHYSICAL OR CHEMICAL HAZARDS

Do not apply this product around electrical equipment due to the possibility of shock hazard.

[MGK® Roach Bait 2882] [Brand name] contains Abamectin, an ingredient that keeps killing roaches [Cockroaches] continually [nonstop]. [MGK® Roach Bait 2822] [Brand name] is so advanced it kills roaches [Cockroaches] [where they breed]. [MGK® Roach Bait 2822] [Brand name] may be placed anywhere you have seen roaches [Cockroaches], even in cabinets. [MGK® Roach Bait 2822] [Brand name] is guaranteed to work even for severe bug [insect] infestations.

For Household Use – In closets, basements, attics, recreation rooms, living areas, kitchens, bathrooms, dining rooms, pantries, food storage shelving, waste receptacles, etc.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product In a manner inconsistent with its labeling.

Do not apply to humans, animals, clothing, or bedding.

Do not contaminate feed or food products, or food preparation surfaces, dishes, kitchen utensils or food containers.

Do not use [residual] [insecticide] sprays on or near [gel] [MGK® Roach Bait 2822] [Brand name].

GENERAL USE DIRECTIONS:

This product is for use only as a spot or crack and crevice treatment for the indoor control of roaches [Cockroaches] in residential areas (only in areas inaccessible to children and pets) and both food/feed and non-food/non-feed areas of institutional, warehousing, and commercial establishments, including warehouses, restaurants, food processing plants, supermarkets, hospitals, nursing homes, motels, hotels, schools, laboratories, computer facilities, buses, boats/ships, aircraft, trains, pet shops, and zoos.

Non-food/non-feed areas area such as garbage rooms, lavatories, floor drains (to sewers), entries, and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Food/feed areas include areas for receiving storage, packing (canning, bottling, wrapping, and boxing), preparing edible waste storage, and enclosed processing systems (mills, dairies, edible oils, and syrups). Serving areas are also considered a food/feed area when food is exposed and facility is in operation.

[MGK® Roach Bait 2822] [Brand name] is for use in controlling roaches [Cockroaches] indoors. The pre-filled plastic reservoir containing [MGK® Roach Bait 2822] [Brand name] is intended for use with bait injector application devices common to the pest control industry. Inject into cracks and crevices, void spaces, and other locations where insects may harbor, live and breed. Concentrate the bait placements as individual spots at insect activity sites (only in areas inaccessible to children and pets).

DO NOT APPLY ANY BAIT IN COCK PIT AREA

APPLICATIONS IN AIRCRAFT: Application within passenger areas of aircraft is limited to Crack & Crevice treatment only. Apply [MGK® Roach Bait 2822] [Brand name] in areas between elements of construction (such as areas under sinks, openings around pipes, under shelving, where shelving meets other shelves or the wall, areas between and around microwaves, where support braces attach to the main structure and where seats are attached to the floor). Use 12 -24 bait placements per 100 sq. ft (9.3 m²). Do not apply bait to areas where food utensils or food preparation surfaces may become contaminated. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surfaces. During follow-up visits, inspect bait placements and re-apply when necessary.

Do not place bait in locations that are routinely washed, as bait will be removed by washing. Do not place treatments in locations where routine cleansing operations may transfer diluted bait to food or food preparation surfaces. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists. Avoid contact with textiles and clothing, as bait may stain.

Avoid placing gel on fabrics or carpets since it may stain some absorbent materials. To prevent staining, exposed bait should be cleaned up immediately with a damp cloth or sponge.

APPLICATION RATES:

For light infestations of roaches [Cockroaches], 4-6 bait points are recommended per 100 square feet (9.3 m²) of treatment area. For heavy infestations of roaches [Cockroaches], 12-24 bait points are recommended per 100 square feet (9.3 m²) of treatment areas. Each bait point should equal about 0.25 to 0.50 grams of product. A spot approximately 3 mm or 1/8 inch in diameter equals 0.25 grams of product, while a spot approximately 6 mm or 1/4 inch in diameter equals 0.50 grams of product.

TO APPLY GEL:

- 1. Remove the cap from the nozzle, touch the top to the surface to be treated, and push down on the plunger. Apply bait as spots in cracks and crevices. Recap the dispenser after treatment is completed.
- 2. Store in a cool, dry place.

- 3. Do not apply gel to areas that have been recently sprayed with insecticide, and do not spray insecticide over gel, as this may cause the bait to become repellent.
- The bait will adhere to non-greasy or non-dusty surfaces and will remain pliable and palatable to roaches [Cockroaches] as long as it is visibly present.
- A visual inspection of bait placements is recommended at one month after the initial treatment. Reapply when bait is no longer visibly present, according to the level of infestation. [Replace bait before it is] [Do not allow bait to be] completely consumed to keep roaches [Cockroaches] from returning.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Nonrefiallable container. Do not use or refill this container. If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency. Never place unused product down any door or outdoor drain.
