Subject: Label Amendment to add Category III language for skin exposure to the First Aid and Precautionary sections
EPA Registration No. 1021-1828
Submission Date: June 11, 2012
Decision #: 468695

Dear Mr. Lennan:

The labeling referred to above, submitted under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. Submit two copies of your final printed labeling before you release the product for shipment. A stamped copy is enclosed for your records. If you have any questions, please contact me at (703) 347-0263 or rogala.jessica@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Hebert", with a large, sweeping flourish extending upwards and to the right.

John Hebert

For Household Use – In closets basements attics recreation rooms living areas kitchens bathrooms dining rooms pantries food storage shelving waste receptacles etc

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product
In a manner inconsistent with its labeling

USE RESTRICTIONS & PRECAUTIONS

- Do not apply to areas that are accessible to children
- If product is mistakenly applied to an area accessible to children remove product and wash area thoroughly
- Do not apply to humans animals clothing or bedding
- Do not contaminate feed or food products or food preparation surfaces dishes kitchen utensils or food containers
- Do not use [residual] [insecticide] sprays on or near [gel] [MGK® Roach Bait 2822] [Brand name]
- Wash hands thoroughly after handling product

GENERAL USE DIRECTIONS

This product is for use only as a spot or crack and crevice treatment for the indoor control of roaches [Cockroaches] in residential areas (only in areas inaccessible to children and pets) and both food/feed and non food/non feed areas of institutional warehousing and commercial establishments including warehouses restaurants food processing plants supermarkets hospitals nursing homes motels hotels schools laboratories computer facilities buses boats/ships aircraft trains pet shops and zoos

Non food/non feed areas area areas such as garbage rooms lavatories floor drains (to sewers) entries and vestibules offices locker rooms machine rooms boiler rooms garages mop closets and storage (after canning or bottling)

Food/feed areas include areas for receiving storage packing (canning bottling wrapping and boxing) preparing edible waste storage and enclosed processing systems (mills dairies edible oils and syrups) Serving areas are also considered a food/feed area when food is exposed and facility is in operation

[MGK® Roach Bait 2822] [Brand name] is for use in controlling roaches [Cockroaches] indoors The pre filled plastic reservoir containing [MGK® Roach Bait 2822] [Brand name] is intended for use with bait injector application devices common to the pest control industry Inject into cracks and crevices void spaces and other locations where insects may harbor live and breed Concentrate the bait placements as individual spots at insect activity sites (only in areas inaccessible to children and pets)

DO NOT APPLY ANY BAIT IN COCK PIT AREA

APPLICATIONS IN AIRCRAFT Application within passenger areas of aircraft is limited to Crack & Crevice treatment only Apply [MGK® Roach Bait 2822] [Brand name] in areas between elements of construction (such as areas under sinks openings around pipes under shelving where shelving meets other shelves or the wall areas between and

around microwaves where support braces attach to the main structure and where seats are attached to the floor) Use 12-24 bait placements per 100 sq ft (9.3 m²). Do not apply bait to areas where food utensils or food preparation surfaces may become contaminated. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surfaces. During follow up visits, inspect bait placements and re-apply when necessary.

Do not place bait in locations that are routinely washed, as bait will be removed by washing. Do not place treatments in locations where routine cleansing operations may transfer diluted bait to food or food preparation surfaces. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists. Avoid contact with textiles and clothing, as bait may stain.

Avoid placing gel on fabrics or carpets since it may stain some absorbent materials. To prevent staining, exposed bait should be cleaned up immediately with a damp cloth or sponge.

APPLICATION RATES

For light infestations of roaches [Cockroaches], 4 – 6 bait points are recommended per 100 square feet (9.3 m²) of treatment area. For heavy infestations of roaches [Cockroaches], 12 – 24 bait points are recommended per 100 square feet (9.3 m²) of treatment areas. Each bait point should equal about 0.25 to 0.50 grams of product. A spot approximately 3 mm or 1/8 inch in diameter equals 0.25 grams of product, while a spot approximately 6 mm or 1/4 inch in diameter equals 0.50 grams of product.

TO APPLY GEL

1. Remove the cap from the nozzle, touch the top to the surface to be treated, and push down on the plunger. Apply bait as spots in cracks and crevices. Recap the dispenser after treatment is completed.
2. Do not apply gel to areas that have been recently sprayed with insecticide, and do not spray insecticide over gel, as this may cause the bait to become repellent.
3. The bait will adhere to non-greasy or non-dusty surfaces and will remain pliable and palatable to roaches [Cockroaches] as long as it is visibly present.
4. A visual inspection of bait placements is recommended at one month after the initial treatment. Reapply when bait is no longer visibly present, according to the level of infestation. [Replace bait before it is] [Do not allow bait to be] completely consumed to keep roaches [Cockroaches] from returning.
5. Wash hands thoroughly with soap and water after handling bait.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE

Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING

Nonrefillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
