Subject: Propoxur 70% Concentrate
EPA Reg. No. 1021-1870
Notification Per PR-Notice 2007-4

Dear Sir or Madam:

By Notification, we are updating the storage and disposal statement per PR-Notice 2004-7. This product is a manufacturing use product that is not diluted prior to use, therefore we have not added detailed rinsing instructions per §156.146. We have however, per Nancy Fitz' recommendation maintained our current instructions to triple rinse the container before disposing or offering for reconditioning or recycling. A copy of Nancy's recommendation is enclosed for your convenience.

Enclosed are two (2) copies of the label. One (1) copy has changes highlighted.

This amendment is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA. If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY
