

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
 Registration Division (7505C)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

1021-2563

Date of Issuance:

Sept 9, 2011

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

MGK ® Roach Bait 2958

Name and Address of Registrant (include ZIP Code):

McLaughlin Gormley King Company
 8810 Tenth Avenue N.
 Minneapolis, MN 55427-4319
 (763)544-0341

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No 1021-2563"
 - Replace the word "trap" everywhere it appears on the label with the word "station"
 - In the optional claims section Delete the claim "Kills Roaches and Keeps on Killing." This implies the product has residual activity. Also, remove the parenthesis from the statement "Guaranteed to Work (or your money back)"

Signature of Approving Official:

John Hebert, Product Manager 07

Insecticide-Rodenticide Branch, Registration Division (7505P)

Date:

SEP 09 2011

- Below the Precautionary statements delete the phrases “continually” and “non-stop.” These claims imply your product has residual activity. Also delete “is so advanced”. There is no evidence or data supporting that this product is “advanced.”
- Delete the statement “Bait 2958 may be placed anywhere you have seen roaches, even in cabinets” contradicts the Precautions and Restrictions sections that states that stations cannot be placed in areas that children can access.
- Either remove the statement “MGK®Roach Bait 2958 is guaranteed to work even for severe bug infestations” or place the statement “or your money back” as part of the sentence.
- In the Outdoor Use section there are several Indoor uses listed such as basements, attics, and garages. Place these sites in the Indoor Use section.
- In the graphics section add a sub-heading to “Recommended bait placement areas:” stating that, “User must adhere to the Precautions and Restrictions in the Directions for Use section of this label”

2. Submit one copy of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. If you have any questions, please contact Jessica Rogala at 703-347-0263 or rogala.jessica@epa.gov.

A stamped copy of the label is enclosed for your records.

Do not apply this product around electrical equipment due to the possibility of shock hazard.

[MGK® Roach Bait 2958] [Brand name] contains Abamectin, an ingredient that keeps killing roaches [Cockroaches] continually [nonstop]. [MGK® Roach Bait 2958] [Brand name] is so advanced it kills roaches [Cockroaches] [where they breed]. [MGK® Roach

Bait 2958 [Brand name] may be placed anywhere you have seen roaches [Cockroaches], even in cabinets. [MGK® Roach Bait 2958] [Brand name] is guaranteed to work even for severe bug [insect] infestations.

For use in and around apartment buildings, condominiums, cabins, trailers, campers, RV's, utility sheds, homes and residential structures and other listed areas.

For Household Use – In closets, basements, attics, recreation rooms, living areas, kitchens, bathrooms, dining rooms, pantries, food storage shelving, waste receptacles, etc.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product
in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sights, pests and application methods described on this label.

Precautions and Restrictions

- Place bait trap in areas inaccessible to children, domestic animals, and pets
- Do not contaminate feed, food products, food preparation surfaces, dishes, kitchen utensils or food containers

Application Instructions

For Best Results:

- Place bait trap [station] on a horizontal surface.
- Do not interfere with the roaches or bait stations during use
- Replace [bait stations] if roaches return
- Check traps regularly and replace trap if bait is consumed
- Use 4 to 6 traps per 100 square feet [2 to 3 traps per 50 square feet] of surface area to be treated. Use more traps if infestation is extreme
- Death occurs soon after feeding

How it works:

- Roaches enter the bait trap and return to hiding places to die

To open, hold the bait trap [station] upright with the seal facing up and peel the seal from the top of the bait station. [Discard seal in trash].

Indoors: Place bait traps where you have noticed infestation and where roaches are numerous - along baseboards and shelves, openings leading into voids and hollow spaces in floors, walls and ceilings, equipment legs and bases, around plumbing pipes (sinks, basins, water pipes and drains), doors and window frames, behind and under appliances (refrigerators, stoves, dishwashers, washing machines, etc.), cabinets, pantries, near trash cans, and next to cracks and crevices where cockroaches are typically seen. [Illustrations]

Outdoors: For use outdoors to control smoky brown, American, oriental, woods, and other outdoor cockroach species. Apply bait traps to points of entry or harborage sites such as to cracks and crevices on window sills, doors, porches, screens, holes where pipes or utilities enter a structure, expansion joints, beneath siding and shingles, around firewood piles, eaves, attic and soffit vents, weep holes in masonry, and similar areas. Also place traps in likely breeding areas such as behind palm fronds, basements, crawlspaces, attics, garages, and similar sites. [Illustrations]

[How it works:

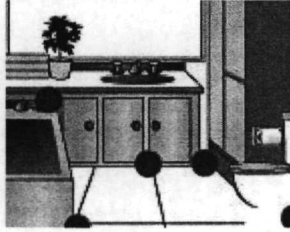

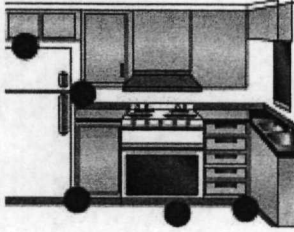

1. The baits inside the carton are joined. Just snap them apart and they are ready to use. Do not open or remove bait from the bait containers.
2. Place all baits around your home for the most effective result. Any area left unprotected can be the source of reinfestation for the rest of the house.

Cockroaches will easily walk on walls as well as floors. Use a double sided adhesive to stick baits in dark, out of the way places. No need to move pots or pans or take up valuable shelf space.

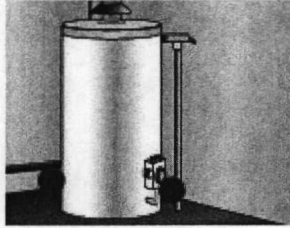

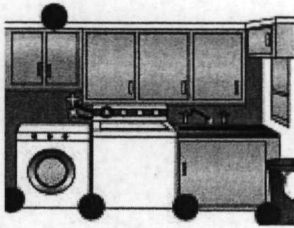

For best results when placing on floors, put baits adjacent to walls and flush in corners.

3. Cockroaches will begin eating the bait immediately. You should expect to see fewer cockroaches within one week.
4. The replacement date is 3 months from when baits are put down. Circle the month on the base of the bait or on the reminder panel provided on the carton.]

Recommended bait placement areas:

Kitchen and Bathroom

Laundry and hot water system

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Nonrefillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
