Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Add optional marketing claims, referral statement, and warranty statements
Product Name: MULTICIDE SPRAY 29512
Admin Number: 1021-2570
EPA Receipt Date: 09/16/2026
Action Case Number: 00728908

Dear Chantha Coursolle:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Kaitlin Saunders via email at saunders.kaitlin@epa.gov.

Sincerely,

Elizabeth Fertich, Product Manager 04

in a manner inconsistent with its labeling.

[STOP; READ ENTIRE LABEL BEFORE USE]

For indoor use only.

USE RESTRICTIONS:

This product is not for use on humans or animals.

Do not apply to bed linens or surfaces that will be in direct contact with occupants of the bed.
Do not apply as a broadcast surface spray.
Not intended for commercial applications.
Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos.

{Note to reviewer: Pictogram must be no smaller than 1.5 cm² or 0.25 sq. in. unless size is greater than 10% of label size}

SHAKE WELL BEFORE EACH USE.

In the home, all food preparation and eating surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed. Remove pets, birds and cover fish aquariums before spraying.

APPLICATION: Use only as a spot treatment or crack and crevice application in residences. Spray [Apply] [foam] in an inconspicuous area to test for possible staining or discoloration. Evaluate test area after drying. Hold container upright with nozzle aimed away from you. Spray surfaces from a distance of 8 to 10 inches until slightly damp. Vacate room after treatment and ventilate before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry. Allow sprayed articles and surfaces to dry thoroughly before using or replacing bedding.

TO KILL CRAWLING INSECTS: Spray [Apply] [foam] as spot or crack and crevice application where insects are harboring, moving, or breeding. Treat feeding or hiding areas such as baseboards, carpet, floor, rugs, under refrigerators, cabinets, sinks, and stoves. Also treat interior entry points such as doors, around windows, and water pipes.

TO KILL BED BUGS AND BED BUG EGGS: Spray bugs directly when possible. Apply on and around bed frames, headboards, floors, carpeting, baseboards, furniture, moldings, ceiling, and walls. For infested mattresses, apply to tufts, folds, edges, sides, and seams until moist. Allow to dry before remaking bed. For infested furniture, apply only to tufts, seams, folds, and edges. Do not apply to surfaces where prolonged human contact will occur. Also for spot treatment of luggage, closets, drapes and other window or wall appointments.

TO KILL BROWN DOG TICKS and FLEAS: Spray [Apply] [foam] around beds, furniture and pet's habitat. Spray pet sleeping quarters, bedding, carpeting, floor and floor covering where pets are kept. Use only a recommended pet spray on pets.

TO KILL DUST MITES: Thoroughly vacuum entire room concentrating on areas where mites congregate: such as mattresses, box springs, headboards, walls, floors, carpeting, and baseboards. Then spray surfaces until damp.

TO KILL CLOTHES MOTHS AND CARPET BEETLES: Apply as a spot treatment to cracks and crevices on and around baseboards, floorboards, furniture, and around the edges of carpet. Apply as a spot spray to carpet, rugs, closets, baseboards, furniture, on floor and floor coverings. When treating carpets or rugs, spray sufficient amount to get into the base where the larval stages are feeding. Spray both top and bottom surface of rugs or floor covering when possible.
