McLaughlin Gormley King Company D/B/A/ MGK
7325 Aspen Lane N.
Minneapolis, MN 55428

Subject: Label Amendment - Registration Review Mitigation for Phenothrin
Product Name: MGK FORMULA 29671
EPA Registration Number: 1021-2579
Case Number: 477855
Application Date: January 29, 2021

Dear Thomas Lennan:

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Phenothrin Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. You must submit one copy of the final printed labeling before you release the product for

shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Garland Waleko by phone at 513-569-7983, or via email at waleko.garland@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Dana L. Friedman". The signature is written in a cursive style with a large initial 'D'.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product
in a manner inconsistent with its labeling.

[STOP; READ ENTIRE LABEL BEFORE USE]

For indoor use only.

USE RESTRICTIONS

Apply this product only as specified on this label.

Do not contaminate food or feedstuffs.

THIS PRODUCT IS FOR INDOOR USE ONLY.

Do not use in aircraft cabins.

Do not apply this product directly to companion animals (pets).

Do not apply this product when food, feed, and/or drinking water is present.

Do not allow adults, children, or pets to enter the treated area until sprays have dried.

Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.

Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where foods are served, such as dining rooms, but excluding areas where foods may be prepared or held. In the home, cover all food processing surfaces and utensils during treatment, or thoroughly wash utensils before use. Cover exposed food and drinking water, and remove utensils before use.

Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

Remove pets, birds and cover fish aquariums and ornamental fish ponds before spraying, and turn aquarium systems off.

Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos.

{Note to reviewer: Pictogram must be no smaller than 1.5 cm² or 0.25 sq. in. unless size is greater than 10% of label size}

SHAKE WELL BEFORE EACH USE.

USE INFORMATION: Use only as a spot treatment or crack and crevice application in residences. Spray in an inconspicuous area to test for possible staining or discoloration. Evaluate test area after drying. Remove protective cap. Hold container upright with nozzle aimed away from you. Spray surfaces from a distance of 12 inches until slightly damp. Vacate room after treatment and ventilate thoroughly before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry. Allow sprayed articles and surfaces to dry thoroughly before using or replacing bedding.

For indoor use in homes, apartments, dorms, and other residential [non-commercial] living areas.

For best results before any carpet/surface treatment, vacuum thoroughly before spraying and immediately dispose of vacuum bag in outside trash.

[Thoroughly vacuum all carpeting, upholstered furniture, drapes, along baseboards, under furniture and in closets. Seal vacuum bag and dispose of in outdoor trash.]

TO KILL CRAWLING INSECTS: Spray as spot or crack and crevice application where insects are harboring, moving, or breeding. Treat feeding or hiding areas such as baseboards, carpet, floor, rugs, under refrigerators, cabinets, sinks, and stoves. Also treat interior entry points such as doors, around windows, and water pipes.

FLEAS & BROWN DOG TICKS: Hold can upright 12 inches from surfaces to be treated. Be sure to apply uniformly using a sweeping motion to carpets, rugs, flooring, hardwood floors, drapes and all surfaces of upholstered furniture including under cushions. Avoid over wetting furniture and carpeting. A fine mist or spray applied uniformly is all that is necessary to kill fleas and brown dog ticks. Be sure to treat pet bedding, as this is a primary hiding place for fleas and brown dog ticks. No need to remove pet bedding after treatment. **DO NOT TREAT PETS WITH THIS PRODUCT.** Use a registered flea control product on your pets in conjunction with this treatment. Allow all surfaces to dry before use.

TO KILL BROWN DOG TICKS and FLEAS: Spray around beds, furniture and pet's habitat. Spray pet sleeping quarters, bedding, carpeting, floor and floor covering where pets are kept. Use only a recommended pet spray on pets.

FLEAS IN BUILDINGS: Close windows and doors. Hold aerosol 12 inches above floor and direct spray toward floor and lower walls at a rate of 2 seconds per 3 to 6 square feet or 15 seconds per 30 square feet, making sure that all floor, sofa, and chair surfaces are contacted. Be sure to treat pet bedding, as this is a primary hiding place for fleas and ticks. Thoroughly treat area and allow to dry. No need to remove pet bedding after treatment. Also treat dogs and cats with a registered flea control product before allowing them to enter treated area.

FOR [FLEAS &] BROWN DOG TICKS IN BUILDINGS: Hold product 12 inches above floor and apply in infested areas of pet beds, resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, behind baseboards, between and under cushions of upholstered furniture and other areas where these pests may be present. Treat higher cracks such as upper door jams and window framing, behind pictures where females may crawl to lay eggs. No need to remove pet bedding after treatment. Do not use directly on pets. Simultaneously treat pets with a flea and brown dog tick control product registered for use on pets prior to pet's entry into treated areas.

A fine spray applied uniformly is all that is necessary to kill fleas. For maximum effectiveness treat entire carpeted area. Treat carpets, rugs, drapes and all surfaces of upholstered furniture. Be sure to treat pet bedding, as this is a primary hiding place for fleas. No need to remove pet bedding after treatment. Retreat as necessary.

To kill brown dog ticks, German cockroaches, silverfish, earwigs and ants (excluding: Fire, Pharaoh, Carpenter and harvester ants) in the infested indoor areas, apply directly to pests.

**FLEAS (Adults) AND BROWN DOG TICKS (Adults):
FOR USE IN HOME**

For best results, pay special attention to area your pets frequent. Avoid thoroughly wetting the area that needs treating. To kill adult flea, and adult brown dog ticks in your home, hold container [upside down] 12 inches from surface, point actuator toward the surface, and push button.

For Surface/Carpet Spray: Vacuum thoroughly before spraying. A test application should be made to upholstery or drapery fabrics in an inconspicuous place before use. Apply uniformly with a sweeping motion to rugs, carpets, drapes, and all surfaces of upholstered furniture. Treat surfaces uniformly from one end to the other. Only complete coverage of carpets, upholstery, drapes, and other fabrics will provide thorough flea/brown dog tick elimination.

For Use in Pet Areas: Pay special attention to areas where pets frequent, such as in and around sleeping and resting areas. Treat pet bedding and other pet resting areas as these are primary hiding areas for fleas/brown dog ticks. For best results, pets should be treated before they return to the treated areas.

On Pet Bedding: Treat pet bedding and resting places. Apply a uniform application of [this product] to nearby cracks and crevices, along and behind baseboards, window and door sills, and localized area of floors where fleas or brown dog ticks may be present as these are primary hiding places for fleas. Pet bedding does not need to be removed after treatment. [For best results, treat pets before they return to treated areas.]

Indoor Kennels:

REMOVE PETS BEFORE SPRAYING

Spray [this product] from 12 inches away from surface being treated. Apply with a smooth back and forth motion. A fine mist spray that is evenly applied will do the job properly. Repeat treatment as necessary to control fleas and brown dog ticks. [For best results, treat pets before they return to the treated areas.]

BED BUGS:

Thoroughly inspect area of suspected bed bug infestation and note potential harborage sites or actual infestations. Remove and/or pick up clothing and other obstacles that may prevent thorough inspection or treatment. Remove and sanitize infested bedding (pillows and linens), clothing, or other items. Apply on mattresses as a spot treatment to mattress seams, edges, buttons, and tufts of bed only. Do not use directly on pillows, bed linens, or clothes. Do not saturate the mattress and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

Bed bugs may also harbor in areas of the room away from the bed. Hold can 2 to 3 feet from surface to be treated. [Turn container upside down and point valve toward surface to be sprayed.] Apply as a crack and crevice or spot application where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings (such as floor molding or window casings), wall voids, behind wall hangings and mirrors, wallpaper edges and popcorn ceilings. Remove all clothes and other articles from dressers or closets before application. Take bed apart. Treat joints and channels if hollow, such as square or round tubing, and see that interior framework is treated. Allow all treated areas to dry thoroughly before use.

This product is not recommended for use as a sole protection against bed bugs. If evidence of bed bugs is found in/on mattresses, use products approved for this use as part of an integrated pest management program to control bed bugs.

CARPET BEETLES (Black, Furniture, Varied): Apply with a sweeping motion as a surface spray to carpet, rugs, closets, baseboards, upholstered furniture, and around edges of carpet.

TO KILL CLOTHES MOTHS AND CARPET BEETLES: Apply as a spot treatment to cracks and crevices on and around baseboards, floorboards, furniture, and around the edges of carpet. Apply as a spot spray to carpet, rugs, closets, baseboards, furniture, on floor and floor coverings. When treating carpets or rugs, spray sufficient amount to get into the base where the larval stages are feeding. Spray both top and bottom surface of rugs or floor covering when possible.

Contact as many insects as possible. Spray into cracks and crevices where insects harbor, live and breed. Apply around cartons, containers, and furniture where these insects tend to congregate. Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

Apply directly to exposed insects – German Cockroaches, ants, spiders, crickets, waterbugs, silverfish, sowbugs and carpet beetles: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, storage localities, attics, crawlspaces, cracks and crevices, along baseboards and door sills and frames, behind sinks, stoves, refrigerators, and cabinets, and around garbage cans, pipes and plumbing and other utility installations. Directly spray pests driven out of hiding places. Spray ant trails, nests, and points of entry. Repeat if necessary.

NON-FOOD LIVESTOCK [Pet] HOUSING STRUCTURES [Cages] (Indoor Premise Spray): [Only] for use in Horse Barns, Pony Barns, Colt Barns, Mule Barns, Donkey Barns, Goat Pens, Sheep Pens and shelters, Corrals, Paddocks, Holding pens, Stables, Horse Trailers, Kennels, Animal Research Facilities, Show Animal Quarters, Livestock Loafing Areas and Sheds. Do not apply this product to non-food livestock housing structures while occupied by animals.

DO NOT USE ON ANIMALS.

USE ONLY AS A SPOT TREATMENT OR CRACK AND CREVICE SPRAY to kill listed pests [in pet cages].

Apply to surfaces in buildings, around doors and windows, eaves and attic vents, utility entry points and other openings (including foundation cracks and drilled holes) where these pests enter the structure, where they crawl or hide, or where their nests are present. Apply spray to sufficiently cover the area but not to the point of run-off or drip from vertical or overhead surfaces.

SPRAY FOR 3 seconds per 6 square feet.

STORAGE AND DISPOSAL

Follow proper disposal procedures on this label. Siga las indicaciones del etiquetado para el desecho apropiado del producto.

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE:

Keep this product in its tightly closed original container, when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Do not puncture or incinerate!

Non-refillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency for disposal instructions.
