OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Mr. Thomas Lennan
McLaughlin Gormley King Company
8810 Tenth Avenue North
Minneapolis, MN 55427

DEC 27 2012

Dear Mr. Lennan:

Subject: Application for Pesticide Notification (PRN 98-10)
Add optional instructions for removing cap and re-attaching aerosol actuator
MGK Formula 29661
EPA Reg. No. 1021-2580
Your submission dated November 28, 2012

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated November 28, 2012 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions regarding this letter, please contact Dana Pilitt, Ph.D. of my staff at (703) 305-7071 or via e-mail at pilitt.dana@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Gebken".

Richard Gebken

Subject: MGK® Formula 29661
EPA Reg. No. 1021-2580
Notification per PR-Notice 98-10

Dear Sir or Madam,

By notification we are adding optional instructions for removing the cap and instructions for re-attaching the aerosol actuator in the event it becomes dislodged.

Enclosed are 2 copies of the product label, one copy has changes highlighted.

This Notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, then this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions or you need anything further, please call me at 1-800-645-6466 or e-mail me at tom.lennan@mgk.com.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

[Brand Name] kills fleas, ticks, bed bugs, lice, dust mites, and carpet beetles as well as flea and bed bug eggs. Its unique formula provides 210 days [7 months] of continuous protection against flea re-infestation by preventing development of eggs and larvae into adult, biting fleas. [It also eliminates pet odors including urine] For best results, use [Brand Name] as part of an integrated pest management program to control the targeted pest.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- **THIS PRODUCT IS FOR INDOOR USE ONLY**
- Do not use in aircraft cabins.
- Do not apply this product directly to companion animals (pets).
- Do not apply this product when food, feed and/or drinking water is present.
- Do not allow adults, children, or pets to enter the treated area until sprays have dried.
- Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.
- Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where foods are served, such as dining rooms, but excluding areas where foods may be prepared or held. In the home, cover all food processing surfaces and utensils during treatment, or thoroughly wash utensils before use. Cover exposed food and drinking water, and remove utensils before use.
- Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Remove pets, birds and cover fish aquariums and ornamental fish ponds before spraying, and turn aquarium systems off.

USE INFORMATION:

For indoor use in homes, hotels, offices, hospitals, apartments, schools, dorms, boats, ships, trains, trucks, warehouses, veterinary clinics, and other commercial buildings.

6/17

For best results before any carpet/surface treatment, vacuum thoroughly before spraying and immediately dispose of vacuum bag in outside trash. Before treatment, SHAKE WELL and make a test application to surfaces to be treated in an inconspicuous place. [Cap removal instructions:] To avoid dislodging the actuator, gently grip cap and pull straight up. [See diagram below]

If the actuator becomes dislodged, it can be easily reattached following these steps:

- Point the top of the can toward the floor.
- Place the actuator on the stem and gently push until you hear a click.
- Continue pressing until you hear a second click.

Remember to Always shake can well before applying.]

FLEAS & TICKS: Hold can [upright] 2 or 3 feet from surfaces to be treated. [Turn container upside down and point valve toward surface to be sprayed]. Be sure to apply uniformly using a sweeping motion to carpets, rugs, flooring, floors, drapes and all surfaces of upholstered furniture including under cushions. Avoid over wetting furniture and carpeting. A fine mist or spray applied uniformly is all that is necessary to kill fleas and ticks. Be sure to treat pet bedding, as this is a primary hiding place for fleas, ticks, and their eggs. No need to remove pet bedding after treatment. DO NOT TREAT PETS. Use a registered flea control product on your pets in conjunction with this treatment.

BED BUGS: Thoroughly inspect area of suspected bed bug infestation and note potential harborage sites or actual infestations. Remove and /or pick up clothing and other obstacles that may prevent thorough inspection or treatment. Remove and sanitize infested bedding (pillows and linens), clothing, or other items. Apply on mattresses as a spot treatment to mattress seams, edges, buttons, and tufts of bed only. Do not use directly on pillows, bed linens, or clothes. Do not saturate the mattress and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

Bed Bugs may also harbor in areas of the room away from the bed. Hold can 2 to 3 feet from surface to be treated. [Turn container upside down and point valve toward surface to be sprayed.] Apply as a crack-and-crevice or spot application where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings (such as floor molding or window casings), wall voids, behind wall hangings, and mirrors, wallpaper edges and popcorn ceilings. Remove all clothes and other articles from dressers or closets before application. Take bed apart. Treat joints and channels if hollow, such as square or round tubing and see that interior framework is treated. Allow all treated areas to dry thoroughly before use.

This product is not recommended for use as a sole protection against bed bugs. If evidence of bed bugs is found in/on mattresses, use this product as part of an integrated pest management program to control bed bugs.

COCKROACHES: Spray into hiding places such as cracks, crevices, behind sinks and cabinets, along baseboards and floors, around drains and plumbing. Directly contact as many cockroaches as possible.

7/7

DUST MITES: Spray with a sweeping motion to surfaces where mites congregate such as mattresses, box springs, headboards, floors, carpeting, and baseboards. Spray surfaces until damp. Apply on mattresses as a spot treatment to mattress seams, edges, buttons, and tufts of bed only. Do not use directly on pillows, bed linens, or cloths. Do not saturate the mattress and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

CARPET BEETLES: Apply with a sweeping motion as a surface spray to carpet, rugs, closets, baseboards, upholstered furniture, and around edges of carpet.

LICE: Spray only surfaces that cannot be laundered or dry-cleaned including mattresses and upholstered furniture. Apply on mattresses as a spot treatment to mattress seams, edges, buttons, and tufts of bed only. Do not use directly on pillows, bed linens, or cloths. Do not saturate the mattress and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE:

Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Do Not Puncture or Incinerate!

Nonrefillable container. Do not reuse or refill this container.

IF EMPTY:

Place in trash or offer for recycling if available.

IF PARTLY FILLED:

Call your local solid waste agency for disposal instructions.

Federal regulations prohibit CFC propellants in aerosols
