UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

Mr. Thomas A. Lennan Regulatory Affairs Specialist MGK Co. 8810 10th Ave. N. Minneapolis, MN 55427

Dear Mr. Lennan:

Subject:

Label Amendment Adding the OMRI Logo for Organic Production

Veratran D[™]

EPA Registration No. 1021-2600 Submission Date: January 2, 2014

The labeling referred to above submitted in connection with the Federal Insecticide, Fungicide and-Rodenticide-Act, as amended is acceptable. A stamped copy is inclosed for your records. Please submit one (1) final printed copy for the above mentioned label before releasing the product for shipment.

Note: Should you wish to add a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have any questions regarding this label, please contact Jennifer Gaines at (703) 305-5967 or gaines.jennifer@epa.gov. A stamped copy of the label is enclosed for your records.

Meredith F. Laws

Insecticide-Rodenticide Branch Registration Division (7505P)

ACCEPTED

Fungicide, and Rodenticade Act. Under the Federal Insecticide. as amended, for the posticide Registered under -2600

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Harmful if absorbed through skin. Avoid contact with eyes, skin, or clothing

chemical-resistant to this product are made of any water proof material. If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart. Follow manufacturer's instructions for category As on an EPA chemical-resistance category selection chart. Follow manufacturer's instructions for category and produced in structions for subles exist, use detergent and hot water. Keep and wash PPE separately from other laundry, diciothing and other absorbent materials that have been drenched or heavily contaminated Mixers, loaders, applicators, flaggers and other handlers must wear. Long-steeved shirt and long pants, show and sooks, and chemical-resistant gloves when thinkingloading to support aerial applications. See engineering controls for additional requirements. Some materials that are PERSONAL PROTECTIVE EQUIPMENT (PPE)

ils product's concentrate. Do not reuse them

ENGINEERING CONTROLS:

Pilots must use an enclosed cockpit that meets requirements listed in the WPS for agricultural pesticides [40 CFR 170 240(d)(6)].

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the

USER SAFETY RECOMMDENDATIONS:

Users should remove clothes/PPE immediately if pesticide gets inside. Then wash thoroughly

and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or insate. This product is highly toxic to bees exposed to direct reatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds.

DIRECTIONS FOR USE

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide either directly or through drift. Only protected handlers may be in the area during application It is a violation of Federal Law to use this product in a manner inconsistent with the labeling regulation. Do not apply this product in a way that will contact workers or other persons

GENERAL PRECAUTIONS AND RESTRICTIONS SPRAY DRIFT MANAGEMENT

Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment and weather-related factors determine the potential for spray The applicator and the grower are responsible for considering all these factors when

A variety of factors including weather conditions (e.g., wind direction, wind speed, temperature, and relative humidity) and method of application (e.g., ground, aerial, airblast, chemigation) can influence pesticide drift. The applicator and grower must evaluate all factors make appropriate adjustments when applying this product

TEMPERATURE INVERSIONS:

If applying at wind speeds less than 3 mph, the applicator must determine if a) conditions of temperature inversion exist, or b) stable atmospheric conditions exist at or below nozzle height. Do not make applications into areas of temperature inversions or stable atmospheric

KEEP OUT OF REACH OF CHILDREN

FIRST AID

CAUTION

Sal SWALLOWED - Induce vomiting by placing a finger at the back of the throat.

In SYNCHOW, Through the parting a miger at the back of the titled. Call physician immediate with playing with IF IN EVEZ. Flush eyes with plenty of water. If IN SKIN OR QLOTHING - Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-888-740-8712 for emergency medical treatment information.

Manufactured by:

8810 Tenth Avenue North Minneapolis, MN 55427

EPA Reg. No. 1021-2600 EPA Est. No. 1021-MN-2

VET CONTENTS 50 pounds

DIRECTIONS FOR USE (continued)

Do not apply at wind speeds greater than 15 mph at the application site. Apply only as medium or coarser spray (ASAE standard 572) or a volume mean diameter of 300 microns or greater for spinning atomizer nozzles.

WIND SPEED:

AIR BLAST EQUIPMENT:

sprays must be directed To minimize spray loss over the tops of trees in orchard applications, sprays must be directe into the cop canopy. Turn off outward bound pointing hozzles at row ends when spraying outer row.

AERIAL EQUIPMENT: RELEASE HEIGHT:

Release spray at the lowest height consistent with efficacy and flight safety. Do not release spray at a height greater than 10 feet above the ground or top of orchard crop canopy.

The boom length must not exceed 75% of the wingspan or 90% of the rotor blade diameter. \$VMATH ADJUSTMENT: BOOM LENGTH:

When applications are made with a cross-wind the swath will be displaced downwind. The application must compensate for this displacement at the downwind adge of the application area by adjusting the path of the aircraft upwind. Leave at least one swath unsprayed at the downwind edge of the treated field. Do not make applications into temperature inversions.

AGRICULTURAL USE REQUIREMENTS

workers on farms, forest nurselies, and greenhouses and handlers of agricultural pesticides. It contains requirements for training decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not after or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with Use this product only in accordance with its labeling and with the Worker Protection standard 40 CFR part 170. This standard contains requirements for the protection of agricultural anything that has been treated, such as plants, soil, or water, is: coveralls, shoes plus socks, chemical-resistant gloves made of any waterproof material.

CROP INFORMATION

VERATRAN D is a specially formulated wettable power for the control of thrips.

AIR APPLICATION - Use 10 to 15 lb. per acre in 10 to 40 gailons of water. Fly every row. Secondars ize should be 20 mesh or larger.

GROUND APPLICATION - Use 10 to 15 lb. per acre in 20 to 100 gailons of water. If 200

gallons of spray solution are applied per acre increase dosage to 20 lb. per acre. Screen size should be 20 mesh or farger. AVOCADOS. To protect furli and foliage against thrips feeding damage, treat when early instars are present and damage is anticipated. Control will be most effective on those thrips

species inhabiting the peripheral foliage. Reapply as needed, usually at a 10-14 day interval. Do not apply at time of harvest.

CITRUS - To control citrus thrips and to protect fruit, treat when early instars are present.

Reapply as needed, usually at a 10-14 day interval. Do not apply at time of harvest.

MANGOS - To control citrus things, sprey entire tee to protect newly formed growth and to reduce the thrips population on the tree. Treat when early instars are present and damage is anticipated. Reapply as needed. Usually at a 10-14 day interval. Do not apply at time of Jaivest

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Store only in cool, dry, locked and ventilated room. Protect from moisture, open flames or PESTICIDE STORAGE

PESTICIDE DISPOSAL. Wastes resulting from the use of this product may be disposed of on site or at an approved

CONTAINER DISPOSAL.

Nomefiliable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a application aquipment. Then offer for recycling if available or dispose of empty bag in a papicatinal yandfill or by incineration or, if allowed by state and local authorities, by burning. burned, stay out of smoke. waste disposal facility.
