OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

June 10, 2016

Jeffrey Nelson
Regulatory Affairs Specialist
McLaughlin Gormley King Company D/B/A MGK
8810 10th Ave. N
Minneapolis, MN 55427

Subject: Label Notification per PRN 2007-4 – Storage and Disposal language
Product Name: PYROCIDE® GENERAL PURPOSE SPRAY INSECTICIDE
3069
EPA Registration Number: 1021-2670
Application Date: 5/12/2016
Decision Number: 518266

Dear Mr. Nelson:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 2007-4 and finds that the action requested falls within the scope of PRN-2007-4.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification via PR Notice 98-10) or durably marked on the container itself.

If you have any questions, you may contact Angela Hollis at 703 347-0216 or by email at hollis.angela@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Fry", followed by the word "for" written in a cursive script.

Meridith M. Fry, Ph.D., Product Manager 4
Invertebrate and Vertebrate Branch 1
Registration Division (7505P)
Office of Pesticide Programs

PYROCID[®] GENERAL PURPOSE SPRAY INSECTICIDE 3069

[Commercial/Occupational Section of Label]

- PYROCID[®] General Purpose Spray 3069 is an Effective, Fast-Acting Insecticide that Kills the Accessible or Exposed Stages of: Ants, Bed Bugs, Cheese Mites, Clover Mites, Cockroaches, Crickets, Flying Moths, Fruit Flies, Gnats, Hornets, House Flies, Mosquitoes, Scorpions, Silverfish, Spiders and Wasps
- PYROCID[®] General Purpose Spray 3069 Controls many common Stored Product Pests: Angoumois Grain Moths, Grain Mites, Rice Weevils, Carpet Beetles, Granary Weevils, Rust-Red Flour Beetles, Cheese Skippers, Indian Meal Moths, Sawtoothed Grain Beetles, Cigarette Beetles, Mealworms, Spider Beetles, Confused Flour Beetles, Mediterranean Flour, Tobacco Moths, Drugstore Beetles, Moths
- PYROCID[®] General Purpose Spray 3069 is Highly Useful for Insect Control in Residences, Institutions, Public Buildings, Hospitals, Hotels, Restaurants, Stores, Theaters, Food Processing Plants, Bakeries, Grain Mills, Dairies, Breweries, Bottling Plants, Warehouses, Trucks and Other Situations where an Insecticide with A High Degree of Effectiveness is Required
- When Used as Directed, Allowable Tolerance Levels in Food will not be Exceeded
- Contains Pyrethrins, a Botanical Insecticide
- Contains Pyrethrins Combined with [Piperonyl Butoxide] [Butacide[®]] to give Rapid [Flush-Out and] Knockdown with Extended Killing Power
- Pyrethrins Rapidly [Expels] [Flushes Out] and Knocks Down bugs [Roaches] [Insects] from Cracks and Crevices [their hiding places]
- Pyrethrins Insecticide [is] made from [Chrysanthemum] Flowers
- Specially Formulated [Designed] to [Provide Fast and Effective] Kill [of] Crawling and Flying [Pests] [Insects]

ACTIVE INGREDIENTS:

Pyrethrins..... 0.15%
 Piperonyl Butoxide 1.50%

OTHER INGREDIENTS: 98.35%
 100.00%

Butacide[®] is a registered trademark of Sumitomo Chemical Co., Ltd.

NOTIFICATION

1021-2670

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

06/10/2016

PRECAUCION AL USUARIO: Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.
(TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

KEEP OUT OF REACH OF CHILDREN CAUTION

See Side/Back Panel For Additional Precautions and First Aid

FIRST AID	
IF SWALLOWED:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
IF INHALED:	<ul style="list-style-type: none"> • Move person to fresh air. • If persons is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
IF IN EYES:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of Medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-888-740-8712.	
NOTE TO PHYSICIAN	
Contains petroleum distillate - vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid breathing spray mist. Avoid contact with eyes and skin.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Mixers, loaders, applicators, and other handlers must wear the following:

- Long-sleeved shirt,
- Long pants,
- Chemical-resistant gloves made of barrier laminate, nitrile rubber, neoprene rubber, or viton, and
- Shoes and socks.

In addition to the above PPE, applicators using a high pressure handwand in an enclosed area must wear at least a NIOSH-approved respirator with:

- A dust/mist filter with MSHA/NIOSH approval number prefix TC-21C or
- Any R, P, or HE filter.

In addition to the above PPE, applicators using hand held foggers in an enclosed area must wear a half-face, full-face, or hood-style NIOSH-approved respirator with:

- A dust/mist filtering cartridge (MSHA/NIOSH approval number prefix TC-21C), or
- A canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G), or
- A cartridge or canister with any R, P or HE filter.

USER SAFETY REQUIREMENTS

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is highly toxic to fish. To protect the environment, do not allow pesticide to enter or runoff into storm drains, drainage ditches, gutter or surface waters. Apply this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment areas. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Shrimp and crabs may be killed at application rates recommended on this label. Do not apply where these are important resources.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product
in a manner inconsistent with its labeling.

RESTRICTIONS:

Entry Restrictions:

For Surface Spray Use:

- Do not allow adults, children, or pets to enter the treated area until sprays have dried.

For Space Spray Use:

- Do not allow adults, children, or pets to enter until vapors, mists, and aerosols have dispersed and the treated area has been thoroughly ventilated.

Application Restrictions:

- Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Only protected handlers may be in the area during application.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed.
- Do not wet articles to the point of runoff or drip.
- Do not use treated article until spray has dried.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use.
- Do not use in aircraft cabins.
- Do not make space spray applications when facility is in operation.
- Prior to space spray applications, cover or remove food.
- Prior to space spray applications, cover food processing surfaces or clean after treatment and before use.

- Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- When used in dairy barns or facilities: Close milk bulk lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.
- Remove pets, birds and cover fish aquaria before spraying.

For maximum insect control, a combination of localized surface application and space treatment is recommended.

When treating surfaces and fabrics, spray in an inconspicuous area to test for possible staining or discoloration.

CONTACT SPRAY: To kill ants (including carpenter, fire, harvester & pharaoh ants), centipedes, cockroaches (including American, German & Oriental cockroaches), fleas, spiders (including brown recluse, black widow & hobo spiders), ticks, (including deer, brown dog and American dog ticks), chiggers, black flies, deer flies, horse flies, house flies, mosquitoes, gnats, biting midges, wasps and Yellowjackets: Spray where insects congregate and individual pests when seen. Spray [1-2 pumps of trigger] [1-3 grams] contacting insects directly. Insects contacted by spray will be killed.

SPACE SPRAY: For rapid control of **House Flies, Fruit Flies, Mosquitoes, Flying Moths and Gnats.** Close doors and windows and shut off ventilating systems. Use a good sprayer adjusted to deliver a fine mist, directing spray toward the upper portions of the enclosure and filling the room with mist. Use ½ to 1 oz. of spray for each 1000 cubic feet of space. Keep area closed for at least 10 minutes after spraying.

Vacate area after treatment and ventilate for 30 minutes before reoccupying. Do not allow pets to enter area before ventilated.

VAPOR SPRAY: PYROCIDE® General Purpose Spray 3069 is a potent spray that permits its use as a fog or vapor treatment in special electric, steam or compressed air equipment. Use in accordance with manufacturers' directions for the individual type of applicator selected. Dosages vary with different generators, but many such applicators are designed to give most effective results when the material is used at 1 pint to each 8,000-15,000 cu. ft. of space. In all cases, dosages should be sufficient to thoroughly fill the enclosure with fog or vapor. Insects controlled will be the same as given for "Space Spray" above.

SURFACE SPRAY: To control **Cockroaches, Silverfish, Crickets, Spiders, Clover Mites, Scorpions, Cheese Mites, Cheese Skippers, Spider Beetles,** use PYROCIDE® General Purpose Spray 3069 in a machine adjusted to deliver a coarse droplet spray.

APPLICATION RATES FOR SURFACE SPRAYING	
Commercial /Food Handling Processing Areas	1 Gallon / 750 sq. ft. of surface.
Residential Areas	55 fl. oz./ 750 sq. ft. of surface.

Spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, pipes, toward drains and dark corners and into cracks, crevices, recesses and similar hiding places, contacting insects wherever possible.

AGAINST **Ant** INFESTATION, treat shelves, cabinets and storage areas; spray ant runs, trails, baseboards, thresholds and other places of entry and treat nests liberally.

TO CONTROL **Bed Bugs** effectively, apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frames, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets, bedroom furniture and picture frames with particular attention to protected bed bug hiding and breeding places.

TO CONTROL **Carpet Beetles** effectively, apply to floor areas and baseboards. Spray directly into cracks, crevices and under carpets where insects may be found. Treat both the underside and top side of infested carpets. Spray inside of trucks, closets and infested areas of shelving.

STORED GRAIN OR FLOUR INSECTS: PYROCIDE® General Purpose Spray 3069 is also useful in mills, elevators, granaries, warehouses, food storages and other situations where an effective, fast-acting insecticide is required for control of the exposed stages of: **Granary Weevils, Rice Weevils, Cigarette Beetles, Drugstore Beetles, Carpet Beetles, Sawtoothed Grain Beetles, Rust-Red Flour Beetles, Confused Flour Beetles, Angoumois Grain Moths, Indian Meal Moths, Tobacco Moths, Mealworms and Grain Mites.** As a space or vapor spray, it provides rapid kill of flying and crawling stages. In cracks and crevices of floors, it is effective in the control of grain insects.

FOR TREATMENT OF FLOORS AND BINS: PYROCIDE® General Purpose Spray 3069 not only gives initial kill of the accessible stages of most stored grain and food product pests listed in the previous paragraph, but gives some continued protection in cracks and crevices where insects hide. Apply with a good machine, adjusted to deliver a coarse droplet spray using approximately 1 gal. of material to each 750 sq. ft. of surface.

IN MILLS, ELEVATORS AND GRANARIES, use PYROCIDE® General Purpose Spray 3069 in a good machine adjusted to deliver a coarse droplet spray using approximately 1 gal. of material to each 750 sq. ft. of surface. Thoroughly spray floors, walls and other surfaces of bins, storage and handling areas with particular attention to cracks, crevices and similar protected locations. Waste grain, dust, dirt and debris should be removed and destroyed and storage areas cleaned before spraying. Treat unloading, handling and processing areas and apply the insecticide to conveying, processing and handling equipment, the inside of reel sifter, purifier conveyors, sifters, roll housings and hoppers, pick-up conveyors, etc. Spray thoroughly around the bases of heavy machinery and equipment.

FOR IN TRANSIT PROTECTION AND CONTROL, treat truck beds, box cars and ships' holds before loading. For extended protection and control in warehouses and food products storages, treat exposed surfaces as recommended above and spray heavily into cracks, crevices, recesses, hiding and breeding areas. Thoroughly treat walls, floors, shelves and other exposed areas, and lightly spray each layer of cartons or containers as stacked.

AS A CONTACT SPRAY: PYROCIDE® General Purpose Spray 3069 is also very effective when used as a contact spray against **Mosquitoes, Gnats, Wasps, Hornets, Skippers, Scorpions and Cheese Mites**. When these insects are present, contacting them with a fine mist will provide immediate kill. Spraying walls, ceilings, lights, moldings, screen doors and door frames, beams and light cords will make these location unfavorable as resting or hiding places for these insects.

STORAGE AND DISPOSAL

PESTICIDE STORAGE:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Non-refillable container. **If empty:** Do not reuse or refill this container. Offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures. **If partly filled:** Call your local solid waste agency for disposal instructions.

[Optional storage and disposal for containers larger than 5 gallon capacity:]

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Do not contaminate water, food or feed by storage and disposal.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

[For Non-refillable Containers:]

Empty the remaining contents into the application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

[For Refillable Containers:]

Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into rinsate collection system. Repeat his rinsing procedure two more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following conditions, disclaimer of warranties and limitations of liability.

CONDITIONS: The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of MGK. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, MGK MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. No agent of MGK is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, MGK disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT MGK'S ELECTION, THE REPLACEMENT OF PRODUCT.
