

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

1021-2814

Date of Issuance:

6/5/19

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

MGK[®] Formula 31301

Name and Address of Registrant (include ZIP Code):

McLaughlin Gormley King Company D/B/A MGK
8810 10th Ave. N.
Minneapolis, MN 55427

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Michael Walsh, Product Manager 11
Invertebrate & Vertebrate Branch 2
Registration Division (7505P)

Date:

6/5/19

2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 1021-2814.”
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is attached for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/01/2017

If you have any questions, please contact Debra Rate by phone at (703) 306-0309, or via email at rate.debra@epa.gov

KEEP OUT OF REACH OF CHILDREN

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

Manufactured by

 8810 Tenth Avenue North
 Minneapolis, MN 55427

EPA Reg. No.: 1021-EIRU

EPA Est. No. 1021-MN-2

Net Contents: _____ Batch Code [Lot Number]: _____

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when cleaning equipment. Do not apply where runoff is likely to occur. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Apply this product only as specified on the label.

PHYSICAL OR CHEMICAL HAZARDS

Do not apply this product in or around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:	Do not apply MGK Formula 31301 Ant Gel to surfaces where the temperature exceeds 120-130°F because this could cause the bait to liquefy. Do not treat food preparation surfaces. Do not place bait in areas that are routinely washed, as washing will remove or dilute bait or spread the bait onto the surface. Do not apply to humans, animals, clothing, or bedding. Do not use in areas accessible to children and pets.
INSECT KILLED:	Ants (excluding fire ants and carpenter ants). Includes: acrobat, Argentine, big-headed, cornfield, tawny crazy, field, ghost, harvester, honey, little black, odorous house, pavement, pharaoh, pyramid, rover, thief and white-footed.
How It Works	MGK Formula 31301 Ant Gel bait is designed to kill listed ants (excluding fire ants and carpenter ants). Ants (excluding fire ants, carpenter ants and harvester ants) are attracted to the bait and feed on the gel, they return to the nest and transfer the bait to the queen and the young, which will kill the colony. [Ants (excluding fire ants and carpenter ants) feed on the gel.] For easy application use this tube[applicator] to apply small spots of gel where listed ants(excluding fire ants and carpenter ants) are frequently found.
{Note to reviewer final label must select one of these choices} [Before You Use/Apply] [Tips]	Remove exposed food. Store food in sealed containers. Clean up food and beverage spills. Remove crumbs from furniture.
	Inspect infested areas carefully to determine overall infestation levels, locations of foraging, nesting areas, and most appropriate application points.
	Clean surfaces and remove any food spills to help bait acceptance.
	Inspect around your home to determine areas where listed ants (excluding fire ants and carpenter ants) are entering.

<p>{Note to reviewer: final label must select one of these choices} [General Instructions] [How to Use/Apply]</p>	<p>This product is for use as a spot or crack and crevice treatment to kill listed ants (excluding fire ants and carpenter ants) in residential, commercial, institutional and industrial areas (only in areas inaccessible to children and pets).</p> <ol style="list-style-type: none"> 1. Remove the cap from the nozzle, attach tip, touch the tip to the surface to be treated, and push down on the plunger. Apply bait as spots or lines. Recap the dispenser after treatment is completed. 2. Place bait in cracks, crevices, corners and locations where ant traffic is observed and nesting areas are suspected. 3. Inspect bait placements periodically and apply fresh MGK Formula 31301 Ant Gel as needed. [It is best to replace bait before it is completely consumed.] <p>Do not apply to areas that are routinely washed (such as countertops) as bait may be removed or diluted and spread onto the surface.</p> <p>Spots [Beads] are small and equal to about 0.5 grams [which is about the size of a pea].</p>	
<p>{Note to reviewer final label must select one of these choices} [Where to Use] [Where to Apply]</p>	<p>Indoor</p>	<p>Apply gel in areas where listed ants (excluding fire ants and carpenter ants) are seen. Areas include behind the refrigerator and other appliances, under sink, stove, around water pipes, in crack and crevices around window frames, along baseboards and shelves. Also can be used in other indoor areas including kitchens, bathrooms, garages and attics. Do not place bait in areas that are routinely washed, as washing will remove or dilute bait or spread the bait onto the surface.</p>
	<p>Outdoor</p>	<p>Apply gel in areas where listed ants (excluding fire ants and carpenter ants) are seen entering the building, near ant trails, directly on ant nest and in cracks and crevices on windows and doorsills. [Apply gel near ant trails without disrupting the ants to ensure the listed ants (excluding fire ants, carpenter ants and harvester ants) take the bait back to the nest.]</p>
<p>Note to reviewer final label must select one of these choices [How much to use/apply] [Application Rate]</p>	<p>[Periodically inspect bait after the initial treatment.][Inspect regularly after applying gel.] [Reapply if bait is no longer visible, according to the level of infestation.] [Replace bait before it is] [Do not allow bait to be] completely consumed to keep listed ants (excluding fire ants and carpenter ants) from returning.</p> <p>Apply MGK Formula 31301 Ant Gel as spots of gel or small lines of gel.</p> <ul style="list-style-type: none"> • Placements of spots or lines of MGK 31301 Ant Gel should be near to active foraging trails, nest sites, or to areas known to be active. 	

{Storage and Disposal for end use product}

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE:

Store in a cool, dry place inaccessible to children and animals. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Non-refillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

{Storage and Disposal for non-refillable bulk containers for repacking into end use containers}

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent) and offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures

{Storage and Disposal for refillable bulk containers for repacking into end use containers}

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. Triple rinse (or equivalent) and offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other approved Stat and Local procedures

MARKETING CLAIMS

Kill Claims

1. Kills listed ants (excluding fire ants, carpenter ants)
2. Kills ants (excluding fire ants and carpenter ants). Includes: acrobat, Argentine, big-headed, cornfield, tawny crazy, field, ghost, harvester, honey, little black, odorous house, pavement, pharaoh, pyramid, rover, thief and white-footed
3. Kills listed ants in the [your] home (excluding fire ants, carpenter ants and harvester ants)
4. Kills listed ants that you see and the ones you don't see (excluding fire ants, carpenter ants and harvester ants)
5. Kills listed ants in your home that you see and the ants you don't see (excluding fire ants, carpenter ants and harvester ants)
6. Kills household ant(s) colonies (excluding fire ants, carpenter ants and harvester ants)
7. Protects against the (common) household ants(excluding fire ants, and carpenter ants)
8. Kills listed (common) household ants(excluding fire ants and carpenter ants)
9. Kills the colony (excluding fire ants, carpenter ants and harvester ants)
10. Kills the queen (excluding fire ants, carpenter ants and harvester ants)
11. Kills worker ants (excluding fire ants, carpenter ants)
12. Kills queens (excluding fire ants, carpenter ants and harvester ants)
13. Kills every type of ant in the colony (excluding fire ants, carpenter ants and harvester ants)
14. Kills ants at all stages of life (excluding fire ants, carpenter ants and harvester ants.)
15. Kills all life stages of ants (excluding fire ants, carpenter ants and harvester ants)
16. Kills the colony (excluding fire ants, carpenter ants and harvester ants)
17. Colony killer(excluding fire ants, carpenter ants and harvester ants)
18. Kills ants where they breed (excluding fire ants, carpenter ants, and harvester ants)
19. Kills ants at the source(excluding fire ants, carpenter ants, and harvester ants)
20. Kills the queen and the colony (excluding fire ants, carpenter ants and harvester ants)
21. Protect against home invading ants (excluding fire ants and carpenter ants)
22. Ants share bait which kills the colony(excluding fire ants, carpenter ants and harvester ants)

Bait Claims

23. Gel ant bait
24. Ready to use
25. Odorless bait
26. Low odor bait.
27. Easy to use
28. Targets the colony (excluding fire ants, harvester ants and carpenter ants)
29. Use indoor[s] and outdoor[s]
30. Place where listed ants are present
31. Place near ant infestations
32. Use where listed ants are entering the home
33. For best results place out of direct sunlight
34. Spinosad is derived from the fermentation of a naturally occurring soil dwelling bacterium
35. Spinosad is biologically derived from the fermentation of *Saccharopolyspora spinosa*, a naturally occurring soil organism
36. Spinosad is derived from a soil dwelling bacterium
37. Spinosad is derived from a natural soil dwelling bacterium.
38. Spinosad is derived from a soil dwelling bacterium that occurs in nature.
39. Spinosad is derived from an organism that occurs in nature.
