# Penta Preservative

# Concentrate 1-10

## WOOD PRESERVATIVE

### DIRECTIONS FOR USE

To make a 5% ready-to-use solution, mix one part of this concentrate with ten parts by volume of a suitable petroleum solvent such as diesel fuel or light furnace oil.

As Penta Preservative Concentrate 1-10 is a concentrate, do not use without diluting.

### WOOD PRESERVATION

Penta Preservative can be applied to lumber, poles, posts, and other wood products by a hot-cold bath process, by soaking, spraying, or brushing. When using brushing or spraying method, at least two flowing coats should be applied. The most effective treatment is obtained where deep penetration and high absorptions result. Soaking or a hot-cold bath process gives better results than does spraying or brushing and should be used where possible. Fence posts should be debarked and air seasoned until dry and then soaked 24 to 48 hours. The butts should be well treated. Lumber for steps, sills, etc., should be soaked for at least 12 hours. When the wood is not in ground contact, brushing or swabbing may be used. The joints should be thoroughly drenched. Wood treated with the ready-to-use solution is not paintable. If it is desired to paint treated wood, Penta WR should be used.

### ACTIVE INGREDIENTS:

Pentachlorophenol	37.0%*
Other chlorinated phenols	4.3%*
Petroleum solvent	57.0%

### INERT INGREDIENTS:

1.7%\*  
Total, 100.0%

\*Equivalent to 43% Technical Pentachlorophenol as defined by Federal Specification TT-W-570.

### WARNING

**KEEP OUT OF REACH OF CHILDREN!**  
Harmful if swallowed or absorbed through skin!  
Causes skin irritation.  
Do not breathe vapor or spray mist.  
Do not get in eyes, on skin, or on clothing.  
Wash thoroughly after handling.

Wear rubber gloves and protective clothing when handling freshly-treated lumber.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

PENTA is easily applied these 3 ways

### NON-WARRANTY

Neither the manufacturer nor the seller makes any representation or warranty, express or implied, concerning this material, except that it is of standard quality. Neither shall be held responsible in any manner for any personal injury, property damage or other type of loss resulting from the handling, storage or use of this material. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
