Pentachlorophenol 33.15%*

Other Chlorophenols 3.90%*

INERT INGREDIENTS 62.95%

TOTAL 100.00%

*Equivalent to 39.0% pentachlorophenol, technical, as defined by Federal Spec TT-W-570a

**KEEP OUT OF REACH OF CHILDREN
WARNING**

FIRST AID: In case of eye contact, flush eyes immediately with plenty of water and get medical attention. In case of skin contact wash with soap and plenty of water. Wash contaminated clothing before reuse.

If swallowed, induce vomiting immediately by giving two glasses of water and touching back of throat with finger. Consult a physician. Never give anything by mouth to an unconscious person. Avoid alcohol.

NOTE TO PHYSICIAN: This product is a metabolic stimulant. Causes hyperthermia. Treat symptomatically.

As Penta Preservative Concentrate 1-10 is a concentrate, do not use without diluting

To make a 5% ready-to-use solution, mix one part of this concentrate with ten parts by volume of a suitable petroleum solvent such as diesel fuel or light furnace oil.

WOOD PRESERVATION

Penta Preservative can be applied to lumber, poles, posts, and other wood products by a hot-cold bath process, by soaking, spraying, or brushing. When using brushing or spraying method, at least two flowing coats should be applied. The most effective treatment is obtained where deep penetration and high absorptions result. Soaking or a hot-cold bath process gives better results than does spraying or brushing and should be used where possible. Fence posts should be debarked and air seasoned until dry and then soaked 24 to 48 hours. The butts should be well treated. Lumber for steps, sills, etc., should be soaked for at least 12 hours. When the wood is not in ground contact, brushing or swabbing may be used. The joints should be thoroughly drenched. Wood treated with the ready-to-use solution is not paintable. If it is desired to paint treated wood, Penta WR should be used.

Do not use on wood that may come in contact with food, feed or livestock.

Do not use Penta Preservation Concentrate indoors or in any confined area where spray mist and vapors may concentrate and cause injury to plants or animals.

WARRANTY STATEMENT

This company warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use.
