

PENTA PLUS 40

WOOD PRESERVATIVE

EXTERIOR USE ONLY

Net Contents _____ Gallons

DIRECTIONS

To make a 5% ready-to-use solution, mix one part of this concentrate with ten parts by volume of a suitable petroleum solvent such as mineral spirits or kerosene. As Penta Plus 40 is a concentrate, do not use without diluting.

WOOD PRESERVATION

After diluting as indicated above the ready-to-use Penta Plus 40 solution can be applied to lumber, poles, posts and other wood products by a hot-cold bath process, by soaking, spraying, or brushing. The most effective treatment is obtained where deep penetration and high absorptions result. Soaking or a hot-cold bath process gives better results than does spraying or brushing and should be used where possible. Fence posts should be barked and air seasoned until dry and then soaked 24 to 48 hours. The butts should be well treated. Lumber for steps, sills, etc. should be soaked for at least 12 hours. When the wood is not in ground contact, brushing or swabbing may be used. The joints should be thoroughly drenched.

The solution obtained by diluting this concentrate with ten volumes of petroleum solution is a proven wood preservative and is especially recommended for the use of termite exterminators and others wishing to protect buildings from the ravages of these insects. Wood treated with ready-to-use solution is not paintable. If it is desired to paint treated wood, Penta WR should be used.

Avoid contamination of feed or foodstuff.

Do not use on wood that may come in contact with food, feed or livestock.

Do not use Penta Plus 40 indoors or in any confined area where spray mist and vapors may concentrate and cause injury to plants or animals.

WARRANTY STATEMENT

Neither Chapman Chemical Company nor the seller makes any representation or warranty, expressed or implied, concerning the use of this material, other than indicated on the label. Neither shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from improper handling, storage or use of this material. The buyer accepts and uses this material on these conditions.

INGREDIENT STATEMENT

ACTIVE INGREDIENTS:	
Pentachlorophenol	35.3%*
Other Chlorinated Phenols	4.1*
INERT INGREDIENTS	60.6
TOTAL	100.0%

*Equivalent to 41.5% pentachlorophenol, technical, as defined by Federal Spec. TT-W-570a

KEEP OUT OF REACH OF CHILDREN

WARNING

If swallowed, do not induce vomiting. CALL A PHYSICIAN.

In case of eye contact, flush eyes immediately with plenty of water and get medical attention.

In case of skin contact, wash with soap and plenty of water. Wash contaminated clothing before reuse.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

WARNING

May be fatal if swallowed, inhaled or absorbed through the skin.

Causes eye and skin irritation. May produce delayed chemical burns.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Lumber wet with solution should be handled with rubber gloves.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

STORAGE AND DISPOSAL

Keep container closed when not in use.

PESTICIDE DISPOSAL. Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

GENERAL: Consult Federal, State or local disposal authorities for approved alternative procedures
