

TIMPREG

POL-NU® TYPE PRESERVATIVE GREASE

U.S. PATENT NO. 3,049,471

GROUNDLINE TREATMENT

CONTROLS DECAY AND AIDS IN THE PROTECTION AGAINST TERMITES

Extends Service Life of Standing Poles and Posts

INGREDIENTS

ACTIVE INGREDIENTS:

Pentachlorophenol	8.86%
Other Chlorinated Phenols	1.03%
Creosote	15.00%
Sodium Flouride	15.00%

INERT INGREDIENTS: 60.11%

TOTAL 100.00%

ACCEPTED

MAR 17 1981

Net Weight _____ lbs.
 as amended, for the pesticide registered under
 EPA Reg. No. 1022-256

APPLICATION TO POLES

TIMPREG can best be applied to poles by using with the CHAPMAN BANDAGE MAKER and polyethylene coated kraft paper. TIMPREG may also be applied by brush, paddle, trowel, or any mechanically driven pump. For application to deep checks in poles or timbers, fill a caulking gun with TIMPREG and apply. Any grease equipment that will handle No. 2 cup grease will work with TIMPREG.

Excavate the soil away from the poles to a depth of about 18 inches in areas of medium or heavy rainfall and 24 inches or deeper in areas of low rainfall. Wire brush the pole surface to remove adhering soil. Scrape off any decay on the surface. It is also desirable to take an increment boring directed toward the center of the pole or to bore with a brace and bit. If decay is present in the center of the pole, consideration should be given to its early replacement or stubbing.

TIMPREG will penetrate wet wood. It is not necessary to leave excavated poles exposed to the weather to dry out.

Apply TIMPREG 1/16 to 1/4 inch layer for average groundline treatment. More may be required for special conditions. (CHAPMAN BANDAGE MAKER is adjustable up to 3/8 of an inch.) Bandages may be prepared to cover groundline areas of poles in bands of 18 or 22 inches in height. TIMPREG should be applied to cover the pole surface 4 inches below the last evidence of decay and 3 inches above the groundline.

More than one bandage may be used in special cases where the pole area to be covered spans a height greater than 22 inches, such as on hillsides, etc. (THE CHAPMAN BANDAGE MAKER produces a 22 inch band of TIMPREG. A template furnished separately may be inserted to obtain an 18 inch band.)

NOTICE

Neither Chapman Chemical Company nor the seller makes any representation or warranty, expressed or implied, concerning use of this material, other than indicated on the label. Neither shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from the improper handling, storage or use of this material. The buyer accepts and uses this material on these conditions

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

WARNING

Harmful or fatal if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear rubber gloves. Avoid contamination of feed and foodstuffs. Keep away from animals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL AND CHEMICAL HAZARDS

TIMPREG and contaminated paper and cloth should be handled so they do not come in contact with useful living plants.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: TIMPREG that cannot be used should be offered to Chapman Chemical Company or disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in an approved landfill or bury in a safe place.

GENERAL: Consult Federal, State or local disposal authorities for approved alternative procedures.

KEEP OUT OF REACH OF CHILDREN

WARNING

If swallowed, do not induce vomiting. CALL A PHYSICIAN IMMEDIATELY.

In case of eye contact, flush eyes immediately with plenty of water for at least 15 minutes and get medical attention.

In case of skin contact, wash with soap and plenty of water. Wash contaminated clothing before reuse.
