**WEED-FREE G**

**A GRANULAR, NON-SELECTIVE WEED AND GRASS KILLER.  
FOR DRY APPLICATION ONLY.**

**INGREDIENT STATEMENT**

**ACTIVE INGREDIENTS:**

Bromacil (5-bromo-3-sec-butyl 1-6-methyluracil) .....	1.84%
Diuron (3-(3,4-dichlorophenyl) 1,1 dimethylurea) .....	1.46%

<b>INERT INGREDIENTS:</b> .....	96.70%
---------------------------------	--------

<b>TOTAL:</b> .....	100.00%
---------------------	---------

This product is sold only for uses stated on its label. No expressed or implied license is granted to use or sell this product under any patent in any country except as specified: Country, United States.

EPA Reg. No. 1022-271

EPA Est. No. 1022-TN-1

**KEEP OUT OF REACH OF CHILDREN**  
**WARNING**  
**STATEMENT OF PRACTICAL TREATMENT**

**IF ON SKIN:** Wash immediately with soap and water. Wash contaminated clothing before reuse.

**IF IN EYES:** Flush eyes with plenty of water. Get medical attention.

**IF INHALED:** Remove victim to fresh air. Apply respiration if indicated.

**IF SWALLOWED:** Call a physician immediately. DO NOT INDUCE vomiting.

**See Back Panel for Additional Precautions.**

**IBC Manufacturing Company**

---

**PRECAUTIONARY STATEMENTS**

---

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS****WARNING**

May cause burns or irritation of nose, throat, skin, or eyes. Harmful dust. Avoid breathing dust. Causes substantial but temporary eye injury. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield. Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

---

**ENVIRONMENTAL HAZARDS**

---

This product is toxic to fish and other wildlife. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

---

**PHYSICAL AND CHEMICAL HAZARDS**

---

Do not use or store near heat or open flame.

---

**STORAGE AND DISPOSAL**

---

**PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

---

## GENERAL INFORMATION

---

WEED-FREE G is a non-flammable, non-volatile, free-flowing granular product. It is designed to be applied as is from seed or fertilizer applicator-type equipment to the soil at the rates suggested for control of weeds and grasses.

WEED-FREE G is intended for use on utility, highway, railroad, and pipeline right-of-ways, around lumber yards, power substations, railroad trestles, unpaved parking lots, drainage ditchbanks, fence rows, farm buildings and implement or equipment storage yards and similar non-crop areas where control of all vegetative growth is desired.

Application as directed will result in loss of soil productivity for an extended period.

Best results are obtained from application uniform in spread and of the proper quantity. It is, therefore, desirable to remove heavy growth that would interfere with uniformity of spread and to check the application rate to make certain that the correct amount is being applied.

WEED-FREE G can control unwanted vegetation only by being absorbed into the roots. As WEED-FREE G is applied only to the surface of the soil, it must be moved into the soil by rainfall to be effective. Therefore, results will come sooner if WEED-FREE G is applied during the late winter, spring, or early summer months when rain may normally be expected. WEED-FREE G is slow in action; unwanted vegetation will gradually wither and die as the chemical is absorbed into the roots and complete kill is effected.

---

**DIRECTIONS FOR USE**

---

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

While WEED-FREE G is designed to give residual control, treated areas should be examined periodically and re-treatments made as necessary. Generally such re-treatments made will need to be done on a spot basis only.

Annual Weeds, Grasses, and Vines: Apply 1 pound of WEED-FREE G per 100 square feet of affected area.

Perennial Grasses, Weeds, and Vines: Apply 2 pounds of WEED-FREE G per 100 square feet where deep-rooted perennial grasses and vines such as Johnson grass, Bermuda grass, Trumpet Vine, and brambles are present.

WEED-FREE G is not selective in action and may be toxic to all vegetation and may make the entire treated area partially or totally unproductive for one or more years. Make sure WEED-FREE G is applied only where intended and do not get on lawns, trees, shrubs, crops or other desirable plants which are not to be injured or destroyed. Do not get onto areas which may be underlaid by roots of adjacent valuable growth, as WEED-FREE G may injure or kill such growth.

Do not apply to areas such as severe slopes from which heavy rainfall may wash the WEED-FREE G onto soil occupied by valuable plants, or into domestic or irrigation waters.

Do not use on walks, driveways, tennis courts, or similar areas.

Application equipment must be thoroughly cleaned after every use. Do not use equipment for applying WEED-FREE G for application of seeds, insecticides, herbicides, or fertilizers as it may contaminate them and injure or kill desirable plants.

Proper quantities of WEED-FREE G may be measured using a one-pound coffee can, a one-quart oil can, or a one-gallon paint can. One level coffee can will contain approximately one and two-thirds (1.66) pounds of WEED-FREE G; one level quart oil can will contain approximately one and two-thirds (1.66) pounds of WEED-FREE G and one level gallon paint can will contain approximately size and one-third (6.33) pounds of WEED-FREE G.
