WEED-A-WAY

A NON-SELECTIVE WEED AND BRUSH KILLER

READ THIS LABEL BEFORE USING PRODUCT

WEED-A-WAY is a specifically formulated, non-selective herbicide for control of most weeds and grasses for extended periods on non-cropland areas such as industrial plant sites, parking lots, loading ramps and around storage buildings and similar locations. It is ready to use as it comes from the container and no agitation is required. For treating small areas, a tank-type hand sprayer or a backpacking can may be used.

INGREDIENT STATEMENT

ACTIVE:	
Petroleum Distillate.....	98.08%
Bromacil(5-bromo-3-sec-butyl-6-methyluracil).....	0.97%
Pentachlorophenol.....	0.77%
Related chlorophenols.....	0.09%
INERTS.....	0.09%
Total.....	100.00%

NOTICE

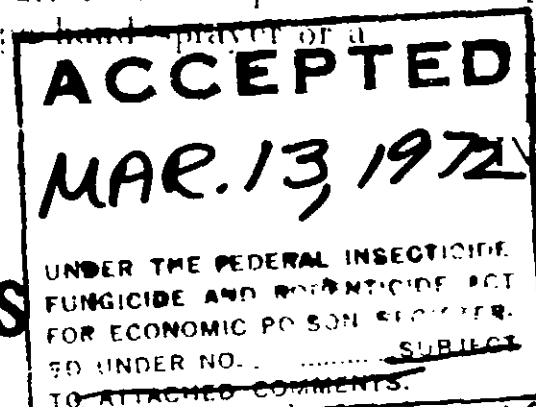

IMPORTANT: Do not apply directly to or permit WEED-A-WAY to come in contact with desirable, woody or herbaceous plants or the areas where their roots may extend. Avoid spray drift to such plants. Coarse sprays are less likely to drift. Thoroughly clean spray equipment with a suitable chemical cleaner, such as kerosene, before using for other purposes, or do not use for other purposes. Do not store near fertilizers, seeds, insecticides, or fungicides. Do not re-use this container. To dispose of container, bury at least 18 inches below ground surface in an out of the way place not accessible to water supplies.

DIRECTIONS

For application with standard spray equipment, apply 1 gallon to 4 gallons per 1000 square feet depending upon the density of growth. Early spring application when weeds are a few inches high will give best results. Spot treatment application may be made where required.

NOTE: Where large areas are to be sprayed, consult the State Agriculture Experiment Station for recommendations.

EPA Reg. No. 1022-464

WARNING

KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. CAUSES SKIN IRRITATION. Avoid contact with skin, eyes, and clothing. Wash thoroughly after handling. In case of contact, flush immediately with large amounts of water. For eyes - get medical attention. Remove and wash contaminated clothing before reuse.

WEED-A-WAY is toxic to fish and wildlife. Do not contaminate any body of water. Birds and other wildlife in treated areas may be harmed.

NON-WARRANTY

Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied concerning this product, except that it is of the manufacturer's standard quality. Neither shall be held responsible in any manner for any personal injury, property damage or other type of loss resulting from the improper handling, storage and use of this product. The buyer accepts and uses this product on these conditions.

TOTE-XL

NON-SELECTIVE WEED KILLER FOR INDUSTRIAL & INSTITUTIONAL USE ONLY

Control broad leaved weeds and most annual and perennial grasses for prolonged periods of time. For use on parking areas, drives, walks, gutters, parking lots and driveways and where no vegetation is wanted at factories, institutions, schools, clubs, drives, theaters, lumber yards, tank farms and storage areas.

DIRECTIONS

For treating one acre, use 20 to 40 gallons of Tote-XL diluted with 80 to 160 gallons of water. For smaller areas, dilute 1/2 to 1 gallon of Tote-XL in 2 1/2 to 5 gallons of water for each 1000 square feet.

Apply uniformly in a coarse spray to avert drift. The best time to apply Tote-XL is immediately before or just when plant growth begins.

Water thoroughly after application to help move the material to the roots, and to speed and extend weed control.

Do not allow Tote-XL to drift, drain or flush onto lawns, shrubs, trees or other desirable vegetation. Do not apply on areas where roots of such vegetation may extend. Keep out of domestic water supplies and irrigation ditches. Avoid contact with seeds, fertilizers, insecticides and fungicides.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

After applying, avoid corrosion of equipment by cleaning thoroughly with a detergent solution.

Use the equipment only for Tote-XL and not for agricultural chemicals such as fertilizers, fungicides and insecticides.

Repeat application if necessary.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause irritation of eyes, nose, throat and skin. Avoid contact with skin, eyes and clothing. In case of contact, immediately wash skin with plenty of water; for eyes, flush with water for at least 15 minutes and get medical attention. Remove and wash contaminated clothing before reuse.

Do not use or store near heat or open flame.

Do not re-use empty drums. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place.

Contains 1.04 pounds of active ingredient per gallon.

ACTIVE INGREDIENTS:	Monuron trichloroacetate	12.48%
	[3-(p-chlorophenyl)-1, 1-dimethylurea trichloroacetate]	61.28%
	Heavy petroleum distillate	26.24%
INERT INGREDIENTS:		100.00%
