RESTRICTED USE PESTICIDE

For sale to and use only by certified applicators or by persons under their supervision and only for those uses covered by the certified applicators' certification.

ACCEPTED
MAR 30 1988
On for the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 1022-474

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS **DANGER**

NAPCLOR-G Bulk Pack COMPOSITION FOR CONTROLLING SAPSTAIN AND MOLD ON SOFTWOOD AND HARDWOOD INGREDIENTS

May be irritating if swallowed, inhaled or absorbed through skin. Causes skin and eye irritation. Causes severe chemical burns. Do not get in eyes, on skin, or on clothing. Do not inhale vapors, spray mist or dust. Use with adequate ventilation. Do not take food or drink until after thorough washing. Wash thoroughly after skin contact before eating, drinking, using tobacco, or using public restrooms.

ACTIVE INGREDIENTS	
Sodium Pentachlorophenate	79.00%
Sodium Salts of Other Chlorinated Phenols	11.00%
INERT INGREDIENTS	
TOTAL	100.00%

The U.S. EPA has determined that certain chemical and physical defects in the packaging of this product may expose residents to this pesticide and precautions should be taken.

Chapman Chemical Company has complied with the terms and conditions of the registration governing the composition of this product as approved by the United States Environmental Protection Agency under Section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act.

FOR PROPER EVALUATION OF PENTACHLOROPHENATE Use a dust at 1987 or closed canopy and mixing system must be used to protect breathing including respirator, gloves, and long sleeved shirts and long pants or disposable coveralls. Use water emulsion and mixing powder formulations of pentachlorophenate. After September 1987, a closed system must be used when emulsifying and mixing powder formulations of pentachlorophenate. A closed system is defined as any containment system prevents the release of subject chemical into the surrounding external environment, except the release of incidental amounts of chemical during equipment cleaning and peeling. Leaking or dripping after application shall not be deemed a release of the pesticide.

FOR THE SPRAY METHOD OF APPLICATION Spray application must be applied using a closed canopy spray system. Use a dust and mixing powder formulations of pentachlorophenate. Use a closed canopy and mixing system. The dust and mixing powder formulations of pentachlorophenate must be used when emulsifying and mixing powder formulations of pentachlorophenate. A closed system is defined as any containment system prevents the release of subject chemical into the surrounding external environment, except the release of incidental amounts of chemical during equipment cleaning and peeling. Leaking or dripping after application shall not be deemed a release of the pesticide.

Individuals who are allergic to phenols may experience allergic reactions. Symptoms include skin rash, hives, and asthma. Avoid contact with treated wood. Wash thoroughly after contact with treated wood. Avoid contact with treated wood. Wash thoroughly after contact with treated wood.

Application of this wood preservative is expected to irritate the skin. Irritation is expected to be more severe when the preservative is applied to the skin. Wash thoroughly after contact with treated wood. Avoid contact with treated wood. Wash thoroughly after contact with treated wood.

Protective clothing should be changed when it shows signs of contamination. Applicators must leave the site, including and washes, or boots and gloves, if they are at the plant. Wash all protective clothing and washes, or boots must be left at the treatment plant and disposed of in a proper manner. Do not use the trash for disposal of the preservative for pesticide disposal.

NOTE TO USER: As used on this label, the term "respirator" means properly fitting well-maintained half mask canister or canister-free respirators which are MSHA/NIOSH approved for organic vapors. Examples of acceptable materials for protective clothing (e.g. gloves, overalls, jackets, and boots) required during application and handling of pentachlorophenate are polypropylene acetate (PPA), polyvinyl chloride (PVC), neoprene, NBR (Buna-N), and nitrile.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL AND CHEMICAL HAZARDS

Do not store near heat or open flame. Close container after each use.

Keep Out of Reach of Children
DANGER
STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

IF IN EYES: Flush with plenty of water. Call a physician.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. Get medical attention.

NOTE TO PHYSICIAN: This product is a metabolic stimulant. Treatment is supportive. Forced diuresis may be effective to reduce total body burden. Treat hyperthermia with physical measures. Do not administer aspirin, phenothiazines, or atropine since they may enhance toxicity.

DIRECTIONS FOR USE

The application of Federal law to use this product in a manner inconsistent with its labeling, use of this product for any purpose other than those stated on the label including the use of this product in the manufacture and formulation of other pesticide products or in repackaging of this product is prohibited.

For control of sapstain in softwoods and hardwoods best results will be obtained if the lumber is kept within 24 hours of cutting. Lumber not dipped within 24 hours of cutting requires 24 hours of treatment. For softwoods, immerse lumber in a tank or for spraying Douglas fir, use 10 lbs of NAPCLOR-G per 100 US gallons of water. Warm water will help dissolve the product. For hardwoods, immerse lumber or buffed tim or check dissolve 12 lbs of NAPCLOR-G per 100 US gallons of water. If pine lumber is sprayed in warm weather, the application should be made during periods of slow drying, the lower temperature of water should be used with 12 lbs of NAPCLOR-G depending on the temperature of the lumber to be treated. The treating solution should be carefully prepared in a separate container and then added to the dipping vat. After adding the dry chemical to the water, stir thoroughly. The treated lumber should be stored in a dry place until the next use. To avoid dust, bags should be kept closed until used and then opened in order to insure best results. The dipping vat should be protected from rain. The treated lumber should not be allowed to remain in the dipping vat for more than 24 hours. After dipping, lumber piles should be kept in a shaded area and should be left between boards and sticks. Green lumber should not be stacked. Stacks should be at least one foot above the ground and weeds and other undesirable vegetation should be eliminated.

Farm and Home Use of this product is prohibited.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or empty container is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty inner by shaking and tapping. This is a hazardous waste. Empty residue into application equipment. Then dispose of inner in a sanitary landfill or by incineration if allowed by state and local authorities. If drum cannot be reused, dispose of in the same manner.

WARRANTY STATEMENT AND DISCLAIMER

Proper application is critical to the effectiveness of the product, however, when applied and used according to this label, NAPCLOR-G is capable of protecting wood for uses described. The actual life of the treatment will be affected by the condition of the wood when treated, the species of wood, the type of exposure, and previous and subsequent treatments.

DANGER: READ THE LABEL THOROUGHLY BEFORE USE. COMPLY WITH ALL DIRECTIONS AND WARNINGS GIVEN, AND USE COMMON SENSE IN HANDLING. CHAPMAN MAKES NO WARRANTIES, EITHER EXPRESS OR IMPLIED, OTHER THAN AS SET FORTH ON THIS LABEL, AND CHAPMAN DISCLAIMS ANY IMPLIED WARRANTY OR MERCHANTABILITY NOT SPECIFICALLY SET FORTH ON THIS LABEL. CHAPMAN SHALL NOT BE RESPONSIBLE FOR ANY PERSONAL INJURY OR PROPERTY DAMAGE OR OTHER TYPE OF LOSS RESULTING FROM FAILURE TO FOLLOW THE DIRECTIONS FOR USE, WARNINGS AND PRECAUTIONARY LANGUAGE GIVEN ON THIS LABEL. CHAPMAN SHALL NOT BE RESPONSIBLE FOR DAMAGE TO PROPERTY BEYOND THE PURCHASE PRICE OF THIS PRODUCT. HOWEVER, SOME STATES DO NOT ALLOW THE INCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION MAY NOT APPLY TO YOU.
