

CHAPCO PAINT ANTIMICROBIAL

For Industrial Use Only

ACCEPTED
NET CONTENTS _____ GALLONS
SEP 3 1982
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1022-480

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS WARNING

Harmful or fatal if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Avoid breathing spray mists or vapors. Wear goggles or face shield and rubber gloves when handling PAINT ANTIMICROBIAL and rubber gloves and protective clothing when handling the freshly treated lumber. Avoid contamination of feed and foodstuffs.

Keep away from animals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.
GENERAL: Consult Federal, State or local disposal authorities for approved alternative procedures.

INGREDIENT STATEMENT

ACTIVE INGREDIENTS

Sodium Pentachlorophenate 19.35%
Sodium Salts of other
chlorinated phenols 2.25%

INERT INGREDIENTS 78.40%

TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN WARNING

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink several glasses of water and induce vomiting. Avoid alcohol and consult a doctor.

IF IN EYES, immediately flush with large quantity of water and get medical attention. **IF ON SKIN,** flush with water. Remove and wash contaminated clothing before reuse.

PRECAUTIONARY STATEMENTS

EPA Est. 1022-TN - 1
EPA Reg. No. 1022-480

Use of CHAPCO PAINT ANTIMICROBIAL in water-type paint is recommended to control spoilage in the can due to decomposition and mold. With certain paint formulations and under certain facility conditions, best results are obtained when CHAPCO PAINT ANTIMICROBIAL is used together with DOWICIDE A or DOWICIL 75 — available from Dow Chemical Company. Such blends are suggested if control is not achieved with a concentration of 4% of CHAPCO PAINT ANTIMICROBIAL when used alone.

Shelf preservation of latex paint is normally achieved through addition of 3-4% of CHAPCO PAINT ANTIMICROBIAL based upon the wet weight of the paint formulation. It is important to add the preservative as early in the processing as possible, to prevent a bacterial build up during the formulating procedure. A minimum pH of 9 should be maintained in the paint formulation.

Viscosity increase in methylcellulose containing products can generally be prevented by adding the CHAPCO PAINT ANTIMICROBIAL as the final ingredient in the formulation or adding it at the point of greatest dilution.

CHAPCO PAINT ANTIMICROBIAL should be used to preserve mixtures of decomposable raw materials which will be held in storage before adding to the paint formulation. The concentration should be determined on each type of mixture. Without a preservative these mixtures may develop a high bacterial count which will give a heavy contamination to the paint and increase the difficulty of securing good final preservation.

Some latexes will support bacterial growth, even if sterile when shipped and CHAPCO PAINT ANTIMICROBIAL can be added to eliminate the possibility of bacterial growth in this raw material. The concentration depends on the latex and storage facilities so it must be determined on an individual basis.

NOTICE

This company warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions or use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use.
