Chapman Chemical Company
P.O. Box 9158
Memphis, TN 38109

Attention: Terri Harrington

Gentlemen:

Subject: Q-San Concentrate 1 to 10
EPA Registration No. 1022-486
Your Letter Dated September 20, 1984

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted.

1. Delete "or wetlands" in the Environmental Hazard Statement.

A stamped copy of label is enclosed for your records.

Sincerely yours,

Henry M. Jacoby
Product Manager (21)
Fungicide-Herbicide Branch
Registration Division (TS-767)

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or wetlands. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL & CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITION: Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

If swallowed, do not induce vomiting. CALL A PHYSICIAN IMMEDIATELY.

If in eyes, flush immediately with plenty of water and get medical attention.

If on skin, wash with soap and plenty of water. Wash contaminated clothing before reuse.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

ACCEPTED with COMMENT by EPA Letter Da

NOV 29 1988

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the product registered under E.P.A. No.

1022-48

Neither Chapman Chemical Company nor its agents warrant, express or implied, that this material, other than in the manner specified on the label, is suitable for any type of use not specified on the label. The buyer accepts the material as shown and as described on the label.

MANUFACTURED BY CHAPMAN CHEMICAL COMPANY MEMPHIS,

A KemaNobel Company

to be heavy (such as inside refrigerators in showers or wash rooms) also need longer treatment. For example, air dried southern yellow pine sapwood dimension and boards will require one to two hours of soaking. Kilo dried southern yellow pine sapwood boards require about 24 hours of soaking.

GREEN HOUSES & GARDENING

Treat green house flats with Q-San Water Repellent Wood Preservative to prevent decay, mold, and stain. After the solvent evaporates, no injury will result to the young plants. Tomato and bean stakes will last much longer if treated with Q-San Water Repellent Wood Preservative. Plants or fruit will not be harmed by the treated wood.

For treating follow directions listed under "Severe Exposure Application."

Other wood species should be soaked in Q-San Water Repellent Wood Preservative as follows: Ash, Hickory, Hackberry, Red Oak, Larch, White Pine, 48 hours. Elm, Black Locust, 72 hours.
