

DIRECTIONS FOR USE

PQ-56 is a concentrate to be diluted with water for the control of fungus, sap stain, mold and termites. This product is recommended for use where wood is not to be painted. It is suitable for use on wood that comes in contact with fresh fruits and vegetables, such as fruit baskets, packing and storage bins. PQ-56 is an excellent product for outdoor furniture and fences and also for wooden greenhouse containers.

For above ground use, dilute one gallon PQ-56 with 40 gallons of water. A 3-minute dip will give surface protection to the wood. In cases where weathering causes checking and splitting, a yearly retreatment program is suggested.

All construction members must be treated prior to installation. If already termite infested, wood replacement is absolutely necessary prior to establishing control over reinfestation.

For below ground use, dilute one gallon PQ-56 with 20 gallons of water.

Long term termite and rot control for ground contact applications (such as posts, poles, and foundation timber) requires retention of 10 pounds per cubic foot. This can be achieved by pressure treatment or by 12-48 hours soaking in the diluted PQ-56, using only well-seasoned and debarked items.

PRECAUTIONS

HARMFUL IF SWALLOWED

Do not get in eyes, on skin, or clothing. Do not breathe fumes. Wear goggles and rubber gloves when handling. In case of skin contact, wash with soap and water. For eye contact, flush at least 15 minutes with water and get medical attention if needed. If swallowed, drink several glasses of water; do not induce vomiting and get medical attention.

Keep out of potable water supplies. This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not reuse empty containers. Return to drum conditioner or destroy by perforating and burying in a safe place.

NOTICE

Neither manufacturer nor the seller makes any representation or warranty, expressed or implied concerning this product except that it is of the Manufacturer's standard quality. Neither shall be held responsible in any manner for any personal injury, property damage or other type of loss resulting from the improper handling, storage, and use of this product. The buyer accepts and uses this product on these conditions.
