

MITROL PQ-C

NET CONTENTS _____ GALLON

CONTROLS FUNGUS, STAIN, MOLD, TERMITES & OTHER WOOD DESTROYING INSECTS

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Wear rubber gloves and eye goggles when handling this product. Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing spray mist. Avoid contamination of feed and foodstuffs.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to lakes, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Emptying or dumping is prohibited. **PESTICIDE DISPOSAL:** Pesticide spray mixture or residue that cannot be used according to label instructions must be disposed of according to Federal, State, or local procedures under the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL: Triple-rinse empty container and offer for recycling or reconditioning or dispose of in a sanitary landfill or by other approved state and local procedures.

GENERAL: Observe Federal, State, and local laws and authorities for applicable alternative procedures.

ONLY FOR SALE TO, USE AND STORAGE BY SERVICE PERSONS INCLUDING BUT NOT LIMITED TO PROFESSIONAL PEST CONTROL OPERATORS, EXTERMINATORS AND COMMERCIAL WOOD TREATERS

INGREDIENT STATEMENT

ACTIVE INGREDIENTS	
Copper-8-quinolinate	100%
*Technical Chlorpyrifos	30
INERT INGREDIENT	870
	1000%
*Equivalent to 18% bifenthrin, 4.7 methanotetrahydrothiazole, and 1% of related compounds.	

WARNING

KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Drink milk or egg whites if these are readily available. Do not vomit. Do not induce vomiting. Do not give anything to eat or drink. If the threat with proper medical attention is not relieved, call your physician or medical professional. Do not induce vomiting unless instructed to do so by a medical professional.

If inhaled: Remove to fresh air. If breathing is difficult, apply respiratory aid if available.

If on skin: Wash with soap and water. If irritation persists, wash affected areas with soap and water. Get medical attention if irritation persists.

If in eyes: Flush eyes with large quantity of water. Get medical attention if irritation persists.

MITROL PQ-C is a concentrated wood preservative for use on structural wood. Diluted with water for use, it protects wood from decay and termite attack. The need for wood protection depends upon the severity of service conditions and the desirability, like all wood preservatives, the degree of protection that MITROL PQ-C affords is dependent upon the amount retained in the wood and the depth of penetration. Where termite infestation already exists, wood repair and treatment is the most reliable means for control.

Treatment of dry wood generally is desirable since MITROL PQ-C, which is water soluble as applied, turns water insoluble in the wood. It is practical to treat green wood, although the treatment is more uniform with most species.

MITROL PQ-C can be applied to wood by brush, spray, or dip. For application instructions, see MITROL PQ-C label as follows:

Preventive treatment: In evidence of termites in or around the structure.

MITROL PQ-C per gallon of water

ACCEPTED

SEP 01 1981

Areas of moderate termite activity: 1 lb. per 100 sq. ft. of wood
Areas of severe termite activity: 2 lb. per 100 sq. ft. of wood
Areas of high termite activity: 3 lb. per 100 sq. ft. of wood

Remedial treatment (evidence of termites in or around the structure): 3 lb. per 100 sq. ft. of wood

Where feasible, insect protection is provided by 2 or 3 mil polyethylene sheeting. For details, treatment instructions, and other information, see label.

EPA Reg. No. 1022-502

Remedial treatment: In evidence of termites in or around the structure. Where feasible, insect protection is provided by 2 or 3 mil polyethylene sheeting. For details, treatment instructions, and other information, see label.

WARRANTY STATEMENT

Chapman Chemical Company, for the seller, makes no representation of warranty, expressed or implied, concerning the use of this material other than indicated on the label. Neither the seller nor the company is liable for any personal injury, property damage, or other losses resulting from the use of this material, or from the use of the material. The user is advised to read the label carefully.
