CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

GENERAL: Consult Federal, State or local disposal authorities for approved alternative procedures.

INGREDIENTS

ACTIVE INGREDIENTS:

Coppernaphthenate 9.08% *

INERT INGREDIENTS 90.92%

*Equivalent to 1% metallic copper

KEEP OUT OF REACH OF CHILDREN

WARNING

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES, immediately flush with large quantity of water and get medical attention.

IF ON SKIN, flush with water. Remove and wash contaminated clothing before reuse.

IF SWALLOWED, Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

CUNAPSOL-1 requires no dilution before use. Use as received, following label directions. It is intended for wood products that usually require painting or stenciling such as millwork and the like or in special situations to treat lumber for long storage in the open by simple non-pressure method.

The best results will be obtained if wood to be treated is immersed for 3 minutes or longer. If dipping is not possible, 2 liberal brush or spray applications should be applied. Allow at least 1 hour between applications. Make certain all areas are fully treated to get the maximum benefits. Allow 24 hours or longer after application of the preservative prior to painting.

RECOMMENDED FOR

Windows, window frames, doors, stairs, porches, siding, shingles, trellises, steps, subflooring, interior trim, wall paneling, furniture, fence pickets, fence rails, furring strips, arbors, flooring and beverage cases. Powder post beetles which invade furniture, flooring and structural lumber are killed by application of this preservative. These insects will not attack the treated wood.

Due to its very low phytotoxicity, CUNAPSOL-1 can be used to treat wood for greenhouses, i.e. nursery flats, etc.

In addition to preventing decay, blue stain, and insect attack on wood this preservative controls warping, swelling, shrinking and end checking caused by changes in moisture content of lumber and plywood products.

Wood to be protected against subterranean termites should be treated before use in construction. Termites will not attack wood treated with CUNAPSOL-1 Wood Preservative.

WARRANTY STATEMENT

Neither Chapman Chemical Company nor the seller makes any representation of warranty, expressed or implied, concerning this material, other than indicated on the label. Neither shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from the improper handling, storage or use of this material. The buyer accepts and uses this material on these conditions.
