PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Causes irreversible eye damage. Do not get in eyes or on clothing. Wear safety glasses.
Harmful if inhaled. Avoid breathing spray mist.
Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or wetlands. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

STORAGE: Store in a secure, well-ventilated area protected from extreme temperatures. Do not transfer to unmarked containers. Keep container closed when not in use.

PRODUCT DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty container. Rinse thoroughly before discarding in trash.

NOTICE

Neither Chapman Chemical Company nor the seller makes any representation of warranty, express or implied, concerning this material, other than indicated on the label. Neither shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from the improper handling, storage or use of this material. The buyer accepts and agrees to this material on these conditions.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not use water collected from treated wood for potable water.

CUNAPSOL-1 WOODgreen requires no dilution before use. Use as received, following label directions.

The best results will be obtained if wood to be treated is immersed for 5 minutes or longer. If dipping is not possible, 2 liberal brush or spray applications should be applied. Allow at least 1 hour between applications. Make certain all areas are fully treated to get maximum benefits. Allow 24 hours of longer after application of the preservative prior to painting. Clear up with soap and water.

Wood treated with CUNAPSOL-1 WOODgreen has a green color that fades slowly over time. Coverage varies from 100-300 square feet per gallon.

RECOMMENDED FOR

Windows, window frames, doors, stairs, porches, siding, shingles, eaves, steps, subflooring, interior trim, wall paneling, furniture, pickets and rails, furring strips, arbors, flooring and beverage cases. Powder post beetles which invade furniture, flooring and structural lumber are killed by application of this preservative. These insects will not attack the treated wood. CUNAPSOL-1 WOODgreen protects wood against mold and mildew.

CUNAPSOL-1 WOODgreen may also be used on fence posts, poles, foundation sills, decks, boats, and all wood exposed to moisture or weather. However, for ground contact use, wood should be soaked 12 to 48 hours in CUNAPSOL-1 WOODgreen. Due to its very low phytotoxicity, CUNAPSOL-1 WOODgreen can be used to treat wood for greenhouses, nursery flats, etc.

In addition to preventing decay, blue stain, and insect attack on wood, CUNAPSOL-1 WOODgreen controls warping, swelling, shrinking and end checking caused by changes in moisture content of lumber and plywood products.

Wood to be protected against subterranean termites should be treated before use in construction. Termites will not attack wood treated with CUNAPSOL-1 WOODgreen.
