

# CUNAPSOL-5

JUN 14 1982

WOOD PRESERVATIVE

NET CONTENTS \_\_\_\_\_ GAL.

Under the Federal Insecticide, Fungicide, and Plant Disease Act, as amended, for the pesticide registered under EPA Reg. No. 1022-522

### INGREDIENTS

ACTIVE INGREDIENT :  
Copper naphthenate . . . . . 45.4 %  
INERT INGREDIENTS . . . . . 54.6 %  
\*Equivalent to 5% metallic copper

Cunapsol-5 is a concentrate and requires dilution with water before use. To treat wood for use in moderate decay hazard locations, dilute one volume of Cunapsol-5 with 4 volumes of water. To treat wood for use in high decay hazard locations, such as ground contact, dilute one volume of Cunapsol-5 with 1.5 volumes of water. It is intended for wood products that usually require painting or stenciling such as millwork and the like or in special situations to treat lumber for long storage in the open or in ground contact by simple non-pressure method.

Above ground contact: The best results will be obtained if wood to be treated is immersed for 3 minutes or longer. If dipping is not possible, 2 liberal brush or spray applications should be applied. Allow at least 1 hour between applications. Make certain all areas are fully treated to get the maximum benefits. Allow 24 hours or longer after application of the preservative prior to painting.

Ground contact: Seasoned or green wood may be treated. Make certain the wood is free of bark then immerse in the diluted Cunapsol solution for 12-48 hours or until the sapwood is completely penetrated.

### RECOMMENDED FOR

Windows, window frames, doors, stairs, porches, siding, shingles, trellises, steps, subflooring, interior trim, wall paneling, furniture, fence pickets, fence rails, furring strips, arbors, flooring and beverage cases.

Also for use on fence posts, poles, foundation sills, decks, boats and all wood exposed to moisture or weather.

Powder post beetles which invade furniture, flooring and structural lumber are controlled by application of this preservative. These insects will not attack the treated wood.

Due to its very low phytotoxicity, CUNAPSOL-5 can be used to treat wood for greenhouses, i.e. nursery flats, etc.

In addition to preventing decay, blue stain, and insect attack on wood this preservative controls warping, swelling, shrinking and end checking caused by changes in moisture content of lumber and plywood products.

Wood to be protected against subterranean termites should be treated before use in construction. Termites will not attack wood treated with CUNAPSOL-5 Wood Preservative.

### WARRANTY STATEMENT

Neither Chapman Chemical Company nor the seller makes any representation of warranty, expressed or implied, concerning this material, other than indicated on the label. Neither shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from the improper handling, storage or use of this material. The buyer accepts and uses this material on these conditions.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans and Domestic Animals WARNING

Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear goggles, face shield or safety glasses when handling. Wash thoroughly with soap and water after handling. Causes skin irritation. Do not get on skin or on clothing. Remove contaminated clothing and wash before reuse.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

#### PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

GENERAL: Consult Federal, State or local disposal authorities for approved alternative procedures.

### KEEP OUT OF REACH OF CHILDREN WARNING

#### STATEMENT OF PRACTICAL TREATMENT

IF IN EYES, immediately flush with large quantity of water and get medical attention.

IF ON SKIN, flush with water. Remove and wash contaminated clothing before reuse.

IF SWALLOWED, Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.
