IPAIN No 27450

HAZARDOUS TO HEALTH WARNING: And a health hazard warning
of California. The warning: Do not use these pills on
empty stomach. OR FATAL IF SWALLOWED
Do not use in such a manner as to direct or through
or expose others for other persons. The use of treated must be
avoided by use of others.

IF SWALLOWED DO NOT INDUCE VOMITING CONSULT A PHYSICIAN OR CALL
A PHARMACEUTICAL DEPARTMENT

10 MINUTES. If it's a 15-minute call, CALL A PHYSICIAN.

15. On same water tanks with 5000 gals water each line set up for 20' long & 10' high. All animals are working on the same line & are in the 20' and 10' of water.

Any existing equipment for mixing feeding ground
is to be taken and clean up procedures. This includes
the water filling parts, the wheel, the water pump, and
the discharge and clean up procedures.

IF ON CLOTHING Remove contaminated clothing and wash at 150-160°F with soap and water. If the extent of contact is extensive, remove clothing and shower thoroughly. Change

ANTIDOTE: none known

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not use when weather conditions favor fish migration. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this test to only one species of fish at a time.

BENEFICIAL INSECT CAUTION: Because of BRAM's broad spectrum acaricidal activity, it is largely nonselective in protecting plants. For example, it may also be toxic to beneficial insects and mites of the family Siphonidae.

4. **RESEARCH** - The research is the process of gathering information about a problem or issue. It involves identifying the problem, collecting data, analyzing the data, and drawing conclusions. Research is a systematic and objective process that aims to discover new knowledge or to test existing knowledge.

5. **ANALYSIS** - Analysis is the process of breaking down a complex problem or issue into smaller, more manageable parts. It involves identifying the components of the problem, understanding the relationships between them, and developing a plan to solve the problem. Analysis is a critical step in the research process, as it allows researchers to focus on specific aspects of the problem and to develop more effective solutions.

6. **SOLUTION** - A solution is a proposed answer to a problem or issue. It is a plan or strategy that is designed to address the problem and to achieve the desired outcome. A solution is typically developed after a thorough analysis of the problem and is based on the findings of the research.

7. **EVALUATION** - Evaluation is the process of assessing the effectiveness of a solution or intervention. It involves collecting data on the outcomes of the solution, analyzing the data, and comparing the results to the desired outcomes. Evaluation is a critical step in the research process, as it allows researchers to determine whether the solution is effective and to make any necessary adjustments.

8. **CONCLUSION** - A conclusion is a statement that summarizes the findings of the research and provides a final answer to the problem or issue. It is based on the results of the research and the analysis, and it provides a clear and concise summary of the key findings.

9. **DISCUSSION** - A discussion is a section of a research paper that provides a detailed analysis of the findings and discusses their implications. It typically includes a summary of the key findings, a discussion of the strengths and limitations of the study, and a discussion of the implications of the findings for future research and practice.

10. **REFERENCES** - References are the sources of information used in the research. They are listed at the end of the research paper and provide a way for readers to locate the original sources of the information.

11. **APPENDICES** - Appendices are additional materials that are included in the research paper to provide more detail or to support the findings. They can include tables, figures, raw data, and other supplementary information.

12. **ABSTRACT** - An abstract is a brief summary of the research paper, typically found at the beginning of the document. It provides a quick overview of the problem, the research methods, the findings, and the conclusions.

13. **INTRODUCTION** - The introduction is the first section of a research paper, typically found at the beginning of the document. It provides a brief overview of the problem, the research methods, and the findings.

14. **METHODS** - The methods section describes the research methods used in the study, including the study design, the data collection methods, and the data analysis methods.

15. **RESULTS** - The results section presents the findings of the study, typically in the form of tables, figures, and text.

16. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 9.

17. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 8.

18. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

19. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

20. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

21. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

22. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

23. **RESULTS** - The results section presents the findings of the study, as described in item 15.

24. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

25. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

26. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

27. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

28. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

29. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

30. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

31. **RESULTS** - The results section presents the findings of the study, as described in item 15.

32. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

33. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

34. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

35. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

36. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

37. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

38. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

39. **RESULTS** - The results section presents the findings of the study, as described in item 15.

40. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

41. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

42. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

43. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

44. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

45. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

46. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

47. **RESULTS** - The results section presents the findings of the study, as described in item 15.

48. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

49. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

50. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

51. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

52. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

53. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

54. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

55. **RESULTS** - The results section presents the findings of the study, as described in item 15.

56. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

57. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

58. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

59. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

60. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

61. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

62. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

63. **RESULTS** - The results section presents the findings of the study, as described in item 15.

64. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

65. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

66. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

67. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

68. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

69. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

70. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

71. **RESULTS** - The results section presents the findings of the study, as described in item 15.

72. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

73. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

74. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

75. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

76. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

77. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

78. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

79. **RESULTS** - The results section presents the findings of the study, as described in item 15.

80. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

81. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

82. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

83. **APPENDICES** - The appendices section includes additional materials that support the findings, as described in item 11.

84. **ABSTRACT** - The abstract is a brief summary of the research paper, as described in item 12.

85. **INTRODUCTION** - The introduction is the first section of a research paper, as described in item 13.

86. **METHODS** - The methods section describes the research methods used in the study, as described in item 14.

87. **RESULTS** - The results section presents the findings of the study, as described in item 15.

88. **DISCUSSION** - The discussion section provides a detailed analysis of the findings and discusses their implications, as described in item 16.

89. **CONCLUSION** - The conclusion section summarizes the findings and provides a final answer to the problem or issue, as described in item 17.

90. **REFERENCES** - The references section lists the sources of information used in the research, as described in item 10.

[illegible]

CONDUCTING The procedure for use of the product is also described in a brief manual or illustrated leaflet. However, because of differing work conditions, a different manner of use and other factors beyond the control of the manufacturer, it is, of course, impossible to describe in detail all the uses of the product. It is, therefore, recommended that the user should consult the instructions for use of the product.

1. **RESEARCH AND DEVELOPMENT** - The activity of R&D is the primary activity of the company. It is the activity of the company which is the basis for the company's future growth. It is the activity of the company which is the basis for the company's future growth. It is the activity of the company which is the basis for the company's future growth.

1023-50

Dr. H. J. Vostral
The Upjohn Company
7171 Portage Road
Kalamazoo, MI 49001

Dear Mr. Vostral:

Subject: General Revision of Label
Baam EC
EPA Registration No. 1023-59
Application Dated October 6, 1983

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

Sincerely yours,

Jay S. Ellenberger
Product Manager (12)
Insecticide-Rodenticide Branch
Registration Division (TS-767)
