

THERMAL FOGGING CONCENTRATE NO. 10

CONTAINING
Lethane 384 and Malathion

For RAPID KILL of
FLIES, GNATS and MOSQUITOES

Use in Fogging and Misting Equipment
CONTAINS "HI-SOLV" TO PREVENT CLOGGING

CAUTION
KEEP OUT OF REACH OF CHILDREN

ACTIVE INGREDIENTS:

beta-cyanoethyl ether, 22.0%
Malathion (O,O-Dimethyl phosphorothioate of Diethyl mercaptosuccinate), 46.5%
Petroleum Distillate, 22.0%

INERT INGREDIENTS:

By Weight
22.0%
46.5%
22.0%
9.5%
100.0%

DIRECTIONS

Contains ingredient for both fast knockdown and high kill. This concentrate should be diluted at a rate of 7 gallons of concentrate in 93 gallons of #2 fuel oil for use in standard fogging machines. Completely envelop area to be treated in accordance with equipment manufacturers recommendations.

For FLY, MOSQUITO, and GNAT Control: When treating municipalities or roadsides, apply the diluted mixture at 40 to 60 microns size moving at a speed of 5 m.p.h. The application rate under such conditions should be approximately 5 gallons per mile of travel. Each gallon of diluted mixture is sufficient to treat 2.9 - 5.7 acres. Envelop entire area to be treated with coarse fog or fine spray. Pay particular attention to zones of stagnation such as swampy areas. Repeat after 3 to 5 weeks if needed.

FLIES: Outside stables, barns and rubbish piles.

envelop area in fine fog. When using TFA apply at 20 micron size while traveling at 3 m.p.h. DO NOT USE INSIDE BARNs OR ON LIVESTOCK.

CAUTION

harmful if swallowed. May be absorbed through skin. May produce irritation of skin and eyes. Do not breathe spray mist. Avoid contact with skin or eyes. In case of contact with skin immediately wash with soap and water. For eyes flush with water and get medical attention.

CAUTION

This product is toxic to fish and wildlife. Keep out of water, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of waste.

Apply this product only as directed on the label. Do not use in empty spray. Return to drum manufacturer for details on proper disposal or crushing and burning away from water sources.
