

Colloidal Chlordane Concentrate contains no oil which is found in most chlordane concentrates. This is a desirable feature for animal applications because it minimizes skin absorption of chlordane. For plant life applications it eliminates phytotoxicity caused by oils. Due to their colloidal form the sprays are also very stable.

# COLLOIDAL CHLORDANE INSECTICIDE CONCENTRATE

Containing 5.5 lbs. Chlordane Per Gallon  
In Water Miscible Form

## CAUTION

**HARMFUL IF SWALLOWED.** Contact with skin can cause toxic symptoms. In case of contact with skin, wash with soap and water. Avoid breathing spray mist. Avoid contamination of feed and foodstuffs. Keep out of reach of children. Do not feed treated plants to poultry, dairy cattle or animals being finished for slaughter. Do not use in dairy barns. Do not use on forage to be sold or shipped. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. Do not contaminate feed or foodstuffs. During commercial or prolonged exposure in mixing and loading operations, wear clean, synthetic rubber gloves and a mask or respirator of a type found suitable by the U. S. Bureau of Mines for protection against Chlordane. Use this material only for recommended purposes and at recommended dosages. See also CAUTIONS under directions for specific uses. **TOXIC TO FISH AND WILDLIFE**—Do not contaminate any body of water with this material. Birds feeding on treated areas may be killed. Apply this product only as specified on label. Do not apply when weather conditions favor drift from areas treated.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place. Large drums should be returned to drum reconditioner. Do not contaminate water by cleaning of equipment, or disposal of wastes.

## DIRECTIONS

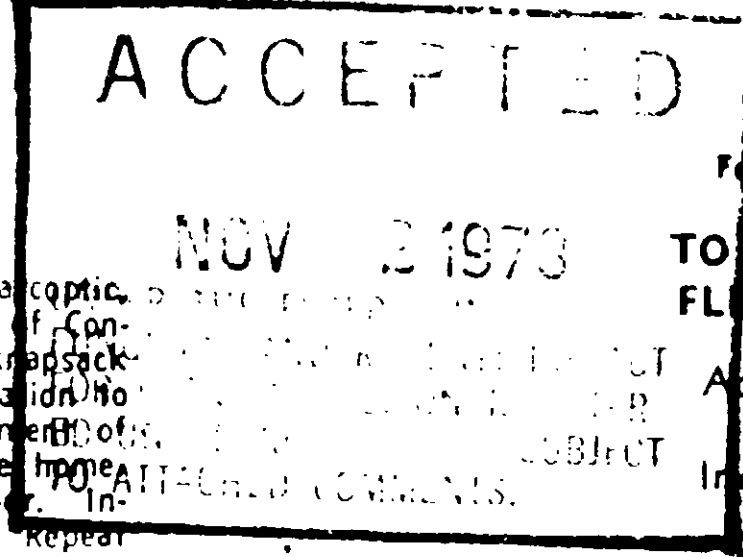

### For Dogs:

TICKS, FLEAS, LICE, MANGE MITES (Sarcoptes, Demodectic): Mix 1 oz. (2 tablespoons) of Concentrate per gallon of water. Using a knapsack or power sprayer make thorough application to the animal, and a thorough spot treatment of living and sleeping quarters outside the home. Treat cracks, crevices, corners and floors. Install fresh bedding after treatment. Repeat treatment after 2 weeks if needed.

**CAUTION:** Do not use on young animals. Do not treat dogs more often than once every two weeks.

### For Ornamental Plants:

THRIPS, LEAFBEETLES, LEAFMINERS, BAGWORMS: Mix 1/3 oz. (2 teaspoons) of Concentrate per gallon of water. Spray plants thoroughly taking particular care to wet leaves well.

## CONTAINS NO OIL

Formulated Especially For Use On Dogs and Ornamental Plants  
To Provide Minimum Toxicity

**TO AID IN CONTROL OF MANGE MITES - TICKS  
FLEAS - THRIPS - LEAFBEETLES - LEAFMINERS**

Active Ingredient:

Technical Chlordane\* ----- 52.0%

Inert Ingredients ----- 48.0%

100.0%

\*Equivalent to 31.2% Octachloro 4, 7-Methanotetrahydroindane and 20.8% Related Compounds.

**CAUTION: Keep Out Of Reach Of Children**  
See side panels for additional cautions.

### NOTICE

Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
