ACCEPTED  
SEP 26 1969  
UNDER THE FEDERAL INSECTICIDE,  
FUNGICIDE AND RODENTICIDE ACT  
FOR TOXIC POISON REGISTERED  
UNDER NO. 1043-25. SUBJECT  
TO ATTACHED COMMENTS.

U.S.D.A. REGISTRATION NO. 1043-25

Minimum Use Dilution Confirmation (AOAC):

S. choleraesuis — 1:100, S. aureus — 1:100, Ps. aeruginosa — 1:100

**ACTIVE INGREDIENTS:** o-phenylphenol 3.9%, o-benzyl p-chlorophenol 3.3%,  
p-tertiary amyphenol 0.8%

**TOTAL INERT INGREDIENTS..... 92.0%**

ENVIRON combines the high detergent action of a general purpose cleaner with the non-selective germicidal action of a general purpose disinfectant. It effectively cleans, disinfects and deodorizes farm and poultry buildings; equipment; poultry processing plants; confinement rearing areas.

**RECOMMENDATIONS FOR USE:** ENVIRON must be diluted for use. A 1% dilution of ENVIRON (for exceptionally dirty areas use 2%) is recommended for all cleaning and disinfecting. 1% solution kills pathogenic bacteria and fungi such as S. aureus, S. typhosa, Ps. aeruginosa, M. tuberculosis, T. interdigitale, E. floccosum and many lypophilic viruses.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed. Avoid contact with skin and eyes. Particular care should be taken in handling the undiluted concentrate, including proper shielding of eyes to prevent accidental splashing. In case of exposure, flush exposed parts immediately with large amounts of flowing water. Use rubber gloves for manual cleaning operations. Avoid contamination of feed and feedstuffs. Do not apply to poultry or animals enroute to processing plants. Rinse food handling equipment with potable water after treatment.
