Precautionary Statements**Hazard to Humans and Domestic Animals:****DANGER**

Corrosive to tissues. This concentrate causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Do not use, pour, spill or store near heat or open flame.

FIRST AID: In case of contact, flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink large quantities of fluid—egg white, gelatin solution or water; call a physician. Avoid alcohol. Do not induce vomiting. **Note to physicians:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Disinfection of Hard Surfaces—Dilute 1:128 (1 oz./gallon) with water and apply by normal methods with cloth, sponge or mop. Thoroughly wet all surfaces for a minimum of 10 minutes. Remove excess solution with a wrung-out applicator. Discard solution when it becomes dirty and replace with a fresh solution.

Disinfection of Thermometers—Preclean thermometers and soak in 1:128 (1 oz./gallon) solution for a minimum of 10 minutes.

Disinfection of Food Handling Surfaces—Dilute 1:128 with water and apply as directed in paragraph above. Protect or remove food during application. Rinse with potable water before reuse of surface.

Critical Care Areas, Dilutions with Hard Water, or Virucidal Activity†—Dilute 1:64 (2 oz./gallon) and apply as directed above.

Always remove gross filth or heavy soil before applying the solutions of this product. Heavily soiled surfaces should be precleaned and rinsed before applying a T.B.Q. solution. This is a complete product. Do not add other chemicals. Use only as directed.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Pesticide Disposal: This germicide, its solutions or rinsings from empty containers should be disposed of in a toilet or service sink served by a sanitary sewer, or in a landfill approved for pesticides.

Container Disposal: Triple rinse and deposit in a waste container for incineration or burial in a landfill approved for pesticide containers.

General: Consult Federal, State or Local disposal authorities for approved alternative procedures such as limited open burning. If frozen, thaw and remix before use.

T.B.Q.

T.B.Q. is a detergent based germicide concentrate that is multi-purpose and phosphate-free. When diluted as directed, even with hard water, it is biocidally effective against bacteria and fungi including *S. aureus*, *S. choleraesuis*, *Ps. aeruginosa*, *M. tuberculosis*, and *T. mentagrophytes* in 10 minutes at 20°C on environmental hard surfaces.

T.B.Q. is recommended for use on floors, walls, woodwork, bathroom fixtures, chrome, stainless steel, porcelain, glass, tile and other washable painted or varnished surfaces. It is intended for use only in institutions such as hospitals, nursing homes, schools, restaurants, industrial plants, food preparation and service facilities, and medical and dental offices. Use-dilutions made as directed are not harmful to fabrics, resilient flooring, tile, painted or varnished surfaces.

Germicidal Qualification (A.O.A.C. use-dilution confirmation, 10 minutes at 20°C when diluted 1:128 (1:64 in 400 ppm hard water) (*S. aureus*, *S. choleraesuis*, *Ps. aeruginosa*) Passes

A.O.A.C. Tuberculocidal Test, 1:128 dilution (1:64 dilution in 400 ppm hard water) Passes

A.O.A.C. Fungicidal Test (*T. mentagrophytes*) 1:128 dilution (1:64 dilution in 400 ppm hard water) Passes

†Virucidal Test (Against the following viruses: Vaccinia, Type 5 Adenovirus, Herpes simplex, Influenza A₂), 1:64 dilution Passes

Primary skin irritation at 1:64 dilution Score* = 0.09

Eye irritation at 1:64 dilution Score* = 0.00

*Testing according to 16 CFR 1500.41 and 1500.42

Classified by Underwriter's Laboratories, Inc., as to electrical conductivity when used on conductive floors and spontaneous heating. T.B.Q. Germicidal Detergent—For use with listed electrically conductive flooring of the vinyl type 942 P.
