

WS-50 WEED SPRAY is recommended for killing and controlling unwanted growth along fence rows, around lumber yards, along railroad right-of-ways, pipe lines, around mills and tank farms, and similar places.

Dilute 3½ gallons **WS-50 WEED SPRAY** with 70 gallons of diesel fuel, fuel oil, crankcase drainings or other oil, for each acre to be sprayed. (This gives 1# 2,4-D Acid per acre.) Thoroughly wet weeds. Spray all foliage and stems to ground line when plants are in full leaf and up to 2 to 3 weeks before first expected frost in the area. For hard to kill growth a stronger mixture should be used.

Where minimum fire hazards are desired **WS-50 WEED SPRAY** may be diluted with water. To obtain an emulsifiable spray mix 3½ gallons **WS-50 WEED SPRAY** with 35 gallons of water for each acre. Apply this spray to thoroughly cover all weeds.

Spot treatment of any regrowth of undesirable vegetation is recommended.

PARTIAL LIST OF WEEDS CONTROLLED BY WS-50 WEED SPRAY

Carpet Weed	Mustards	Wild Morning Glory
Cocklebur	Pigweed	Lambs Quarters

from the handling, storage, or use of this product for any reason except the failure of the material to conform to the chemical description on this label. Damages, if any, which may result from the failure of this product to conform to the description on this label shall be direct damages but shall not include consequential damages such as those resulting from crop injury, or failure to give adequate control.

CAUTION

Harmful if inhaled, swallowed or absorbed through skin. Causes skin irritation. Do not breath vapor or spray mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling.

Do not take internally. Do not spray on valuable plants. Keep grazing animals away from treated areas until weeds are dead. Highly toxic to fish. Do not contaminate any body of water. Vapors from this product may injure susceptible plants in the immediate vicinity.

Under no circumstances should this product be used in the vicinity of cotton, tomatoes, garden crops, grapes, ornamentals, or other susceptible crops. Do not apply on windy days. Do not store near heat or open flame. Do not store near fertilizers, seed, insecticides, fungicides, or food stuffs.

ANTIDOTE

EXTERNAL . . . Wash with rubbing alcohol and flush with soap and water. For eyes, flush plenty of water for at least 15 minutes and call a physician.

INTERNAL . . . Induce vomiting and call a physician. Give a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. Give milk or egg white in water. CALL A PHYSICIAN.
