## A modern spray specifically designed for the control of Roaches

For use in institutions, hospitals, schools, factories, warehouses, hotels, restaurants, theaters, all types of food and beverage processing establishments, bakeries, flour mills, meat and egg packing plants, milk and dairy product producers, breweries, canneries and all places requiring effective insect control.

Do not use in edible products areas of food processing plants, restaurants, and other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

**ROACHES.** Use only a coarse, wet spray or apply with a paint brush. Thoroughly treat infested cracks and other hiding or resting places. Application should be repeated as often as necessary to maintain effective control.

**SILVERFISH.** Apply as above paying particular attention to baseboards, areas behind shelving, bookcases and storage areas.

**ANTS.** Application by means of a coarse, wet spray or a painting on with a paint brush should be made to the ant trails, areas around door sills and window frames where ants may enter the premises. It is frequently desirable to treat the openings around water pipes, heat ducts, electrical outlets and baseboards where ants may come out into the room from wall spaces and partitions. The application should be repeated as often as necessary to maintain effective control.

**CARPET BEETLES IN PREMISES.** With a wet spray or paint brush make localized application to infested areas of the floor and baseboards making certain that the liquid gets under carpets and into the cracks where these insects have been found. Floors, baseboards and shelves of closets may also be treated. Treatment shall be repeated as often as necessary to maintain effective control.

### CAUTION FOR SPOT APPLICATION ONLY KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid inhalation of spray mist, or skin contact. In case of spillage on skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Do not spray into or near fire or open flame. Do not smoke while spraying.

Active ingredients, petroleum distillate 97%,

Chlordane, Technical 3%\*, total 100%.

\*2% octachloro-4,7-methano-tetrahydroindane and 1% related compounds.
