

MINTOL

FRAGRANT MINT DISINFECTANT

All surfaces should be cleaned before using disinfectant. Thoroughly wet the surface with recommended dilution of the disinfectant. Allow solution to remain in contact with surface as long as possible, at least not less than 10 minutes. All food contact surfaces such as food carts must be rinsed with potable water for reuse.

DIRECTIONS

For industrial and institutional disinfection such as walls, floors, toilet seats, urinals, garbage receptacles, use 1 to 64 dilution. Always pour water on the disinfectant and stir thoroughly to a uniform milky emulsion.
